Magic Software Announces Big Win at RAD Race

Magic s eDeveloper Finished #1

Or Yehuda, Israel, April 5, 2005 - Magic Software Enterprises (NASDAQ: MGIC), a leading provider of state-of-the-art development and integration technology, today announced that an MSP (Magic Solution Provider)

Magic Hands won the Development Tools 2005 RAD (Rapid Application Development) Race recently held in The Netherlands, using Magic s eDeveloper.

The event, hosted by Array Publications and Software Release Magazine, took place at the end of January 2005. Each of the competing teams was required to develop a modular application for a travel organization, using an Application Development tool of their choice. The applications consisted of 25 unique modules, including bookings and ticketing. The development environments used in the competition included Microsoft, Oracle, IBM, Magic, and Computer Associates. Judges rated the applications based on completion time and overall functionality. Magic Hands utilizing Magic Software s eDeveloper, scored the highest with 855 points out of a possible 1000.

Magic Software s eDeveloper provides users with an 'Absolutely Open' development and deployment environment with powerful new standards-based messaging and integration features, advanced XML component functionality, enhancements to the development paradigm, and other significant programming improvements.

Wining this race furthers demonstrates the power of eDeveloper and the ROI it can provide, commented Avikam Perry, vice president of research and development for Magic Software. In addition to its powerful RAD capabilities, eDeveloper provides full Enterprise Service Bus features that allow the rapid development of service oriented and composite applications.

For more information on the Development Tools 2005 RAD Race, see www.developmenttools.nl.
