of the Board And Chief
Executive Officer

Intertape Polymer Group Inc. Initiatives Positively Impact
Results for First Quarter 2003
Revenues up 4.7%; unit volume up 8.2%
Earnings per share \$0.09
Cost reduction benefits being realized

Bradenton, Florida, U.S.A. - April 24, 2003 - Intertape Polymer Group Inc.
NYSE, TSX: ITP) today said that first quarter results are starting to reflect
the benefits of our cost reduction initiatives undertaken in 2002 and earlier,

Edgar Filing: INTERTAPE POLYMER GROUP INC - Form 6-K

together with revenue growth. Intertape Polymer Group (IPG) Chairman and Chief Executive Officer, Melbourne F. Yull noted that while the economy is still challenging, our business is improving.

First Quarter 2003 vs Fourth Quarter 2002

Sales for the first quarter of 2003 were \$153.6 million compared to \$151.3 million for the fourth quarter of 2002. The sales improvement reflects IPG's strong non-retail unit sales, which were up 7.0% over the fourth quarter of 2002, negligible price reductions, offset by a decline in retail sector volumes which are in line with seasonal trends.

First quarter 2003 pre-tax income was \$3.2 million compared to a pre-tax loss of \$2.1 million in the fourth quarter of 2002 (excluding the net impact of the goodwill impairment charge of \$70 million less related income taxes). The Company believes these adjusted results provide a more meaningful comparison of its ongoing operational results. First quarter 2003 net income was \$2.9 million, compared to a net loss in the fourth quarter of 2002 of \$58.8 million.

First quarter 2003 value-added approached traditional levels and the gross margin in first quarter 2003 increased by 2.5 percentage points, compared to the fourth quarter of 2002. Value-added is defined as the difference between material costs and selling prices, expressed as a percentage of sales. More specifically, IPG's Chief Financial Officer, Andrew M. Archibald, C.A., stated that: "Initiatives such as waste reduction programs in all facilities, as well as changes to certain blending formulae, and improved efficiencies, contributed to reduced costs this quarter. Margins also benefited from an improvement in sales mix between the various product sub classes, as well as from maintaining manufacturing overhead and labour costs at fourth quarter levels."

Selling, general and administrative expenses were \$22.0 million in the first quarter of 2003 compared to \$23.5 million in the fourth quarter of 2002, a decrease of 6.4%, resulting from the implementation of cost reduction initiatives announced during the second half last year, as well as the normal seasonal decline relating to the retail sector.

Financial expenses in the first quarter were \$7.7 million, down slightly from the fourth quarter.

Pre-Tax Cost Reductions Update

Previously announced cost reduction initiatives of \$17.5 million continue to proceed as planned. In the fourth quarter of 2002 the Company eliminated \$3.0 million annually as a result of the Flexible Intermediate Bulk Container (FIBC) consolidation and \$2.5 million annually in SG&A expenses. Of the remaining \$12.0 million in announced reductions, \$6.0 million should be accomplished during fiscal 2003, with the full impact of the \$12.0 million anticipated in fiscal 2004.

First Quarter 2003 vs First Quarter 2002

Sales for the first quarter were \$153.6 million compared to \$146.7 million for the first quarter last year, an increase of 4.7%. The increase in sales reflects an 8.2% increase in unit sales, offset by a 3.5% decline in selling prices.

First quarter net income was \$2.9 million, or \$0.09 per share (basic and diluted), compared to net income of \$2.8 million, or \$0.09 per share a year ago.

Despite rising raw material costs over the period, value-added approached

Edgar Filing: INTERTAPE POLYMER GROUP INC - Form 6-K

traditional levels in first quarter 2003, as a result of the various cost reduction initiatives implemented and, more recently, the ability to reflect raw material cost increases in selling prices.

Financial expenses in the first quarter were \$7.7 million compared to \$9.0 million in the first quarter last year. The reduction of financial expenses reflects the \$70.0 million reduction of debt made last year, as well as reduced interest rates on some of the existing outstanding debt.

Liquidity

Working capital requirements increased in the first quarter, mainly due to increased receivables outstanding at the end of the quarter resulting from a strong sales month in March and seasonally higher inventory levels as the Company prepares for annual plant shutdowns. Debt, as anticipated, increased by \$3.6 million in the quarter, bringing total debt outstanding to \$324.9 million as at March 31, 2003, compared to \$353.6 million a year ago and \$321.3 million as of December 31, 2002. Long-term debt was reduced by \$5.3 million during the first quarter of 2003.

Conclusion

Mr. Yull stated that: "We are pleased that the concerted efforts we have made across all of IPG's operations have started to show results. Our performance was in line with our business plan. These results reflect the success we have had in responding to the economic environment challenges which prevailed through much of last year and continues. Revenue growth, and ongoing cost and debt reductions remain keys to our success."
