BANTA CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2006
(UNAUDITED)

1) Basis of Presentation

The unaudited condensed consolidated financial statements of Banta Corporation (the Corporation) included herein have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such rules and regulations, although the Corporation believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and the notes thereto included in the Corporation's latest Annual Report on Form 10-K.

In the opinion of management, the aforementioned financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of the results for the interim periods. Results for the three and nine months ended September 30, 2006 are not necessarily indicative of results that may be expected for the year ending December 30, 2006. Certain prior year amounts have been reclassified to conform to the 2006 presentation.

2) New Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes. This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The new standard will be effective for the Corporation in the first quarter of 2007. The Corporation is currently evaluating the impact of FIN 48 on the Corporation's financial results.

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans which requires the Corporation to recognize the overfunded or underfunded status of defined benefit pension and postretirement plans as an asset or liability in the balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. Additionally, SFAS No. 158 requires the Corporation to measure the funded status of a plan as of the date of its fiscal year-end, which is consistent with the Corporation's current practices. The Corporation is currently evaluating the impact of SFAS No. 158 on the Corporation's financial results, however based on the funded status of the Corporation's pension and postretirement plans, the Corporation anticipates that it will record a reduction in Other Comprehensive Income at the end of fiscal 2006.

3) Divestiture

The Corporation completed the sale of substantially all of the assets of its single-use healthcare products subsidiary, Banta Healthcare Group, Ltd. (Healthcare), which previously comprised the entire healthcare segment, on April 12, 2005. In accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the results of operations of Healthcare up to the point of sale, the gain on the sale of a warehouse in Rialto, CA, related to Healthcare, and the sale of the remaining assets, have been reflected in discontinued operations in the accompanying condensed consolidated statements of earnings. The sale of the warehouse in the first quarter of 2005 resulted in net proceeds of \$6.8 million and a gain of \$2.1 million (\$1.3 million net of related income taxes). The sale of the remaining assets of Healthcare in the second quarter of 2005 generated net proceeds of \$62.4 million and a gain of \$23.7 million (\$20.1 million net of related income taxes). Proceeds resulting in additional gain of \$0.1 million were recorded in the fourth quarter of fiscal 2005 upon the finalization of working capital adjustments pending at the end of the third quarter of 2005.

4) Cash Equivalents and Investments

Edgar Filing: BANTA CORP - Form 10-Q

The Corporation considers all highly liquid investments, with maturities of less than 90 days at the date of purchase, to be cash equivalents.

The Corporation held \$4.3 million of non-rated, tax-exempt Wisconsin Industrial Revenue Bonds backed by a letter of credit from a Thompson rated A financial institution at September 30, 2006, and December 31, 2005, respectively. The bonds have a 7-day interest rate reset feature and put option. Based on the original maturity of the underlying investments, the Corporation has classified these instruments as long-term available for sale investments. It is the current intention of the Corporation to hold these instruments for more than one year.

5) Inventories

Inventories consist of the following (dollars in thousands):

	September 30, 2006	December 31, 2005
Raw materials	\$ 47,151	\$ 44,541
Work-in-process and finished goods	36,534	36,215
	\$ 83,685	\$ 80,756

6) Earnings Per Share of Common Stock

Basic earnings per share of common stock is computed by dividing net earnings by the weighted average number of common shares outstanding during the period. Diluted earnings per share of common stock is computed by dividing net earnings by the weighted average number of common shares and common equivalent shares outstanding during the period. The common equivalent shares relate to the assumed exercise of stock options and the assumed vesting of non-vested stock.

The weighted average shares used in the computation of earnings per share consist of the following (in thousands of shares):

	Three Months Ended		Nine Months Ended	
	September 30, 2006	October 1, 2005	September 30, 2006	October 1, 2005
Basic	24,118	24,001	24,049	24,534
Diluted	24,431	24,404	24,444	24,907

7) Comprehensive Earnings

Comprehensive earnings consist of the following (dollars in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2006	October 1, 2005	September 30, 2006	October 1, 2005
Net earnings	\$ 15,924	\$ 21,690	\$ 45,708	\$ 71,478
Foreign currency translation adjustments	57	(459)	3,583	(17,384)
Comprehensive earnings	\$ 15,981	\$ 21,231	\$ 49,291	\$ 54,094

7

8) Goodwill

Changes in the carrying amount of goodwill by segment during the nine months ended September 30, 2006 consist of the following (dollars in thousands):

OR

7

Edgar Filing: BANTA CORP - Form 10-Q

	Print	Supply-chain management	Total
Balance at December 31, 2005	\$ 37,552	\$ 5,966	\$ 43,518
Translation adjustments for goodwill denominated in foreign currencies	--	419	419
Balance at September 30, 2006	\$ 37,552	\$ 6,385	\$ 43,937

9) Stock-Based Compensation

At September 30, 2006, the Corporation had shares outstanding or available for grant under three stock-based compensation plans – the 2005 Equity Incentive Plan (2005 Plan), the Equity Incentive Plan (1995 Plan) and the 1991 Stock Option Plan (1991 Plan). The 2005 and 1995 Plans provide for the issuance of non-qualified and incentive stock options, stock appreciation rights, and non-vested stock to officers and key employees. The exercise or reference prices for options or stock appreciation rights under such plans may not be less than the fair value of the underlying common stock on the date of the grant. Options granted under the 1991 Plan (which provides for only the grant of stock options) may be exercised up to five years after the date of grant. Options granted under the 2005 and 1995 Plans may be exercised up to 10 years from the date of grant. The 2005 Plan includes automatic grants of stock options to non-employee Directors on an annual basis. The Corporation has historically issued unissued common stock in order to satisfy stock option exercises and intends to do so to satisfy future awards. Non-vested stock awards have been issued from previously acquired treasury shares and the Corporation intends to continue this practice. At September 30, 2006, 3,150,723 shares of the Corporation's common stock were reserved for future equity incentive awards.

The following table summarizes stock option activity under the equity incentive plans:

	Options	Price Range	Weighted Average Price
Outstanding at January 3, 2004	2,736,647	\$18 - \$38	\$31
Granted	553,254	\$38 - \$46	\$40
Exercised	(360,832)	\$18 - \$38	\$26
Canceled or expired	(71,831)	\$28 - \$38	\$35
Outstanding at January 1, 2005	2,857,238	\$18 - \$46	\$34
Granted	507,413	\$40 - \$50	\$46
Exercised	(686,671)	\$18 - \$46	\$29
Canceled or expired	(142,410)	\$23 - \$47	\$39
Outstanding at December 31, 2005	2,535,570	\$18 - \$50	\$37
Granted	366,505	\$43 - \$51	\$51
Exercised	(460,809)	\$18 - \$46	\$33
Canceled or expired	(126,653)	\$38 - \$51	\$44
Outstanding at September 30, 2006	2,314,613	\$18 - \$51	\$39

8

The following table summarizes weighted average information by range of exercise prices for stock options outstanding and exercisable at September 30, 2006:

Range of Exercise	Options Outstanding		Options Exercisable	
	Number Outstanding at	Weighted Average Remaining	Number Exercisable at September 30,	Weighted Average

Edgar Filing: BANTA CORP - Form 10-Q

Price	September 30, 2006	Options Outstanding		Options Exercisable	
		Contractual Life	Exercise Price	2006	Exercise Price
\$18-\$27	202,533	3.5 years	\$24	202,533	\$24
\$28-\$34	217,480	5.4 years	\$30	217,480	\$30
\$35-\$38	966,100	6.6 years	\$37	640,132	\$37
\$39-\$51	928,500	8.7 years	\$47	271,410	\$45
<u>\$18-\$51</u>	<u>2,314,613</u>	<u>7.1 years</u>	<u>\$39</u>	<u>1,331,555</u>	<u>\$35</u>

The options outstanding but not exercisable at September 30, 2006, become exercisable at various times through 2009 in accordance with the vesting schedules of the options. The intrinsic value (defined as the difference between the market price of the underlying common stock and the grant price) of options outstanding at September 30, 2006, was \$18,978,000, and the intrinsic value of options exercisable at September 30, 2006, was \$16,278,000. During the first nine months of 2006, the aggregate market price of the underlying common stock relating to options that were exercised during the period exceeded the aggregate grant price by \$6,848,000.

The special cash dividend described in Note 13 will effect a significant change to the Corporation's capital structure. Each of the Corporation's stock-based compensation plans (with the underlying award agreements) includes provisions requiring the Compensation Committee of the Board of Directors to effect an equitable adjustment to the outstanding stock options to prevent dilution or enlargement of the benefits intended under such plan. The equalization calculation will result in an increase in the number of option shares issued and a decrease in the grant price per share in order to maintain the same aggregate intrinsic value and ratio of intrinsic value to market value based on the average market value of the Corporation's common stock before and after the ex-date of the dividend. Based on this calculation, no additional equity compensation expense will be recorded as a result of the option equalization process. The special cash dividend will not impact the number of shares of non-vested stock outstanding.

The following table summarizes non-vested stock activity under the equity incentive plans:

	Shares	Price Range	Weighted Average Fair Value
Outstanding at January 3, 2004	--	\$ --	\$ --
Granted	23,988	\$38 - \$46	\$45
Outstanding at January 1, 2005	23,988	\$38 - \$46	\$45
Granted	25,537	\$43	\$43
Vested	(8,000)	\$38 - \$46	\$45
Forfeited	(3,378)	\$43 - \$46	\$44
Outstanding at December 31, 2005	38,147	\$38 - \$46	\$43
Granted	45,575	\$43 - \$51	\$51
Vested	(15,067)	\$38 - \$46	\$46
Forfeited	(7,091)	\$38 - \$51	\$49
Outstanding at September 30, 2006	61,564	\$38 - \$51	\$48

The intrinsic value of non-vested shares at September 30, 2006, was \$2,930,000. The aggregate market price of non-vested shares that vested during the nine-month period ended September 30, 2006, was \$751,000.

Effective January 1, 2006, the Corporation adopted SFAS No. 123 (R), Share-Based Payment. SFAS No. 123 (R) requires measurement of the cost of employee services received in exchange for an award of equity instruments based on the fair value of the award at the grant date and recognition of the compensation expense over the period during which an employee is required to provide service in exchange for the award (generally the vesting period). The Corporation had previously accounted for its stock-based compensation plans under the

Edgar Filing: BANTA CORP - Form 10-Q

recognition and measurement principles of Accounting Principles Board Opinion (APB) No. 25, Accounting for Stock Issued to Employees, and related interpretations. Because the number of stock options granted was fixed and the exercise price equaled the market price of the Corporation's underlying common stock on the date of grant, no compensation cost was previously recognized under APB No. 25 in the statements of earnings for stock options granted prior to January 1, 2006. The Corporation adopted SFAS No. 123 (R) using the modified prospective method, under which compensation expense related to stock options that were not vested as of January 1, 2006 and future grants of stock options and non-vested stock will be recognized in the consolidated statements of earnings. Prior period compensation expense related to stock options is presented on a pro-forma basis. The Corporation's stock option and non-vested stock awards primarily vest ratably over a 3-year period from the date of grant (subject to acceleration in certain cases). The Corporation has elected to recognize compensation expense using the straight-line method over the vesting period of the award.

The Corporation previously had and will continue to expense awards of non-vested stock based on the fair value of the Corporation's common stock at the date of grant. As a result of adopting SFAS No. 123 (R), unearned compensation previously recorded in equity was closed to the amount in excess of par value of stock on January 1, 2006. All stock-based compensation expense not recognized at January 1, 2006 and compensation expense related to future grants of stock options and non-vested stock will be recorded directly to the amount in excess of par value of stock.

The fair value of each stock option grant is estimated on the date of grant using the Black-Scholes-Merton option pricing model with the following weighted average assumptions used for grants in the first nine months of 2006, and the full fiscal years of 2005 and 2004, respectively: risk-free interest rates of 4.4%, 3.9% and 3.6%; expected dividend yields of 1.4%, 1.6% and 1.7%; expected option lives of 5.0, 5.0 and 5.3 years; and expected volatility of 20%, 22% and 26%. Based on these assumptions, the weighted average fair value of the options granted at the date of grant in the first nine months of 2006 and the full fiscal years of 2005 and 2004, was \$11.34, \$10.17 and \$9.40, respectively.

Total stock-based compensation expense recognized in the accompanying statements of earnings for the three months ended September 30, 2006 and October 1, 2005, was \$1,851,000 (\$1,111,000 net of related taxes) and \$164,000 (\$98,000 net of related taxes), respectively. Stock options and non-vested stock accounted for \$1,572,000 (\$944,000 net of related taxes) and \$279,000 (\$167,000 net of related taxes), respectively, of the expense recognized for the three months ended September 30, 2006. The expense recognized for the three months ended October 1, 2005 of \$164,000 (\$98,000 net of related taxes) was entirely related to non-vested stock.

Total stock-based compensation expense recognized in the accompanying statements of earnings for the nine months ended September 30, 2006 and October 1, 2005, was \$5,547,000 (\$3,328,000 net of related taxes) and \$478,000 (\$287,000 net of related taxes), respectively. Stock options and non-vested stock accounted for \$4,646,000 (\$2,788,000 net of related taxes) and \$901,000 (\$540,000 net of related taxes), respectively, of the expense recognized for the nine months ended September 30, 2006. The expense recognized for the nine months ended October 1, 2005 of \$478,000 (\$287,000 net of related taxes) was entirely related to non-vested stock.

As a result of adopting SFAS 123 (R) on January 1, 2006, the Corporation's earnings from continuing operations before income taxes, earnings from continuing operations and net earnings are \$1,572,000, \$944,000 and \$944,000 lower, respectively, for the three months ended September 30, 2006, and \$4,646,000, \$2,788,000 and \$2,788,000 lower, respectively, for the nine months ended September 30, 2006, than if the Corporation had continued to account for stock-based compensation under APB No. 25. Basic and diluted earnings per share of common stock are \$0.04 and \$0.04 lower, respectively, for the three months ended September 30, 2006, and \$0.12 and \$0.11 lower, respectively, for the nine months ended September 30, 2006, than if the Corporation had continued to account for stock-based compensation under APB No. 25. As a result of adopting FAS 123 (R) on January 1, 2006, cash provided from operating activities and cash used for financing activities for the nine months ended September 30, 2006, were \$1,227,000 lower and higher, respectively.

10

Had all stock-based compensation expense been recognized in the three and nine months ended October 1, 2005 based under the fair-value-method at the grant date for awards under the plans, the Corporation's pro forma net earnings and earnings per share would have been as follows (dollars in thousands, except per share amounts):

	Three Months Ended	Nine Months Ended
	October 1, 2005	October 1, 2005
Net earnings, as reported	\$ 21,690	\$ 71,478
Add: Stock based compensation expense included in net earnings, net of related taxes	98	287

Edgar Filing: BANTA CORP - Form 10-Q

	Three Months Ended	Nine Months Ended
	October 1, 2005	October 1, 2005
	<u> </u>	<u> </u>
Deduct: Stock based compensation expense determined under fair-value-based method, net of related taxes	(1,173)	(2,977)
Pro forma net earnings	<u>\$ 20,615</u>	<u>\$ 68,788</u>
Earnings per share		
As reported:		
Basic	<u>\$ 0.90</u>	<u>\$ 2.91</u>
Diluted	<u>\$ 0.89</u>	<u>\$ 2.87</u>
Pro forma:		
Basic	<u>\$ 0.86</u>	<u>\$ 2.80</u>
Diluted	<u>\$ 0.84</u>	<u>\$ 2.76</u>

As of September 30, 2006, the Corporation had unrecognized stock-based compensation expense for stock-based awards granted prior to September 30, 2006, of \$8.6 million, net of estimated forfeitures. This expense is expected to be recognized as follows (dollars in thousands):

Remainder of 2006	\$ 1,509
2007	4,507
2008	2,417
2009	133
	<u> </u>
Total	<u>\$ 8,566</u>

10) Employee Benefit Plans

The Corporation and certain of its unions have two pension plans covering substantially all employees. The plans are non-contributory and benefits are based on an employee's years of service and earnings. The Corporation also maintains a non-qualified supplemental retirement plan, which is not funded. In October 2006 the Corporation funded a trust which will hold restricted cash available to cover payments to certain retired and active employees of the Corporation (Note 16). In the event of a change in control, payments to participants in the supplemental retirement plan will be made from this trust. The disclosures for this plan for all periods presented are combined with the pension plans. The Corporation makes contributions to the pension plans each year in an amount that is at least equal to the minimum required contributions as defined by the Employee Retirement Income Security Act of 1974.

The Corporation and its subsidiaries also provide non-contractual limited healthcare benefits for certain retired employees. The program provides for defined initial contributions by the Corporation toward the cost of postretirement healthcare coverage. The balance of the cost is borne by the retirees. The program provides that increases in the Corporation's contribution toward coverage will not exceed 4% per year. Due to the terms of the Corporation's postretirement healthcare program, assumed healthcare cost rate trends do not materially affect the Corporation's costs.

Net periodic pension and postretirement benefit costs for the Corporation-sponsored plans were as follows (dollars in thousands):

Pension Benefits

Edgar Filing: BANTA CORP - Form 10-Q

	Pension Benefits			
	Three months ended		Nine months ended	
	September 30, 2006	October 1, 2005	September 30, 2006	October 1, 2005
Service cost-benefits earned during the year	\$ 2,906	\$ 2,584	\$ 8,498	\$ 7,712
Interest cost on projected benefit obligation	3,030	2,712	8,872	8,062
Expected return on plan assets	(4,095)	(3,387)	(11,995)	(10,170)
Amortization of prior service cost	9	3	13	6
Amortization of net loss	704	396	1,906	1,100
Net pension expense	\$ 2,554	\$ 2,308	\$ 7,294	\$ 6,710

	Postretirement Benefits			
	Three months ended		Nine months ended	
	September 30, 2006	October 1, 2005	September 30, 2006	October 1, 2005
Service cost-benefits earned during the year	\$ 24	\$ 96	\$ 258	\$ 318
Interest cost on projected benefit obligation	29	99	253	320
Amortization of prior service cost	(682)	--	(682)	--
Amortization of transition obligation	(468)	52	(364)	156
Amortization of net gain (loss)	673	(129)	461	(343)
Curtailment gain	(2,458)	--	(2,458)	--
Net postretirement benefits expense	\$ (2,882)	\$ 118	\$ (2,532)	\$ 451

The Corporation made contributions to one of its qualified pension plans of \$10 million and \$9.7 million during the first and third quarters of 2006, respectively, and currently expects to make no further contributions to its qualified pension plans during the remainder of 2006. A contribution of \$775,000 is expected to be made in 2006 as benefit payments to retired participants under the supplemental retirement plan. A contribution of \$254,000 is expected to be made in 2006 as benefit payments to retirees under the postretirement healthcare plan.

During the third quarter of 2006, the Corporation amended certain postretirement healthcare plan provisions related to eligibility to receive benefits under the postretirement healthcare plan. The changes resulted in a negative plan amendment of \$1,583,000 that will be amortized to income over future periods and a curtailment gain of \$2,458,000 that was recognized in the third quarter of 2006 in accordance with SFAS No. 106, Employers Accounting for Postretirement Benefits Other Than Pensions. Based on the original recognition of the service cost attributable to the curtailment gain, approximately half of the gain was recognized as a reduction of cost of goods sold and the remaining half as a reduction of selling and administrative expenses in the accompanying condensed consolidated statements of earnings.

11) Repurchase of Common Stock

In February 2005, the Board of Directors approved a \$150 million share repurchase program, which replaced the Corporation's previous program. As of December 31, 2005, the Corporation had purchased 1,458,500 shares of its common stock under this authority at an aggregate cost of \$65,571,000.

During the quarter ended September 30, 2006, the Corporation did not purchase any shares of outstanding common stock under the repurchase program. During the nine months ended September 30, 2006, the Corporation purchased 272,600 shares under the repurchase program at an aggregate cost of \$13,350,000.

The shares of common stock held in treasury may be reissued pursuant to the Corporation's equity incentive plans, or for other purposes. As of September 30, 2006, the Corporation had authority to repurchase up to an additional \$71,079,000 in common stock under the

current share repurchase program.

12) Restructuring Charge and Asset Impairment Charge

During the third quarter of 2006, the Corporation announced business improvement initiatives involving consolidation of its five print sector groups into two, along with the closure or sale of five operating locations within the print sector. Implementation of the plan began in the third quarter, and is expected to consolidate certain operations, leverage existing capacity, improve efficiencies and reduce costs. Implementation of the plan is expected to result in pre-tax restructuring charges of \$3 million in 2006 and \$19 million in 2007. During the quarter ended September 30, 2006, the Corporation incurred \$961,000 in pre-tax restructuring charges relating to this plan. The majority of the remaining charges are expected to be recorded in the fourth quarter of 2006 and throughout 2007. The restructuring costs (based on the high end of the range) are projected as follows: employees' severance and benefits, \$13 million; facility costs including lease terminations, \$4 million; potential impairment of assets in the supply-chain management segment of \$3 million and other related costs of \$2 million. Assets in two locations in the supply chain management segment will be evaluated in 2007 as transition plans for these sites are completed. At this time management has not specifically identified any assets that will either be sold or disposed of in these locations, and accordingly has not recorded an asset impairment charge in the third quarter of 2006.

The reconciliation of the beginning and ending restructuring reserves as of September 30, 2006 are as follows (dollars in thousands):

	Balance at December 31, 2005	Charges/ Additions	Payments/ Reductions	Balance at September 30, 2006
Employee severance and benefits liabilities	\$ --	\$961	\$136	\$825
Total	\$ --	\$961	\$136	\$825

Approximately \$8.5 million of the restructuring charges are expected to be incurred by the print segment, with \$961,000 incurred in the third quarter of 2006. The remaining \$13.5 million of these expenses are expected to be incurred by the supply-chain management segment, for which no costs were incurred in the third quarter of 2006.

During the third quarter of 2006 the Corporation determined that previously capitalized software development costs of \$6.4 million related to internal administration systems would not be usable in future implementations. Because this asset will not be placed into service, this asset was considered impaired and the Corporation wrote off this asset in the third quarter of 2006.

13) Special Cash Dividend

On September 14, 2006, the Corporation announced that its Board of Directors declared a special cash dividend of \$16.00 per share. The dividend is payable November 21, 2006, to shareholders of record on November 10, 2006. Due to the size of the special cash dividend, the New York Stock Exchange has determined that the ex-dividend date will be November 22, 2006, the business day following the dividend's payment date of November 21, 2006. Therefore, Banta shareholders of record on the November 10, 2006 record date who subsequently sell their shares of common stock through the payment date for the special dividend will also be selling their right to receive the dividend. This dividend is in addition to the Corporation's regular quarterly dividend of 18 cents per common share that was paid on November 1, 2006, to shareholders of record on October 20, 2006. The special cash dividend is expected to be approximately \$389 million and has been recorded as a current liability in the accompanying condensed consolidated balance sheet at September 30, 2006.

The Corporation intends to finance the special cash dividend through a combination of cash on hand and committed debt financing. The Corporation has secured financing commitments from UBS Securities LLC for \$465 million of new debt financing. The Corporation expects to pay approximately \$56 million in the fourth quarter of 2006 to refinance existing long-term debt, including potential charges related to prepayment obligations.

The Corporation received a waiver of the current ratio requirement contained in the Note Purchase Agreement of its 6.81% notes due November 2010, absent which the classification of the special cash dividend as a current liability upon declaration would have resulted in violation of such requirement. As noted above, it is the Corporation's intention to refinance this agreement with the proceeds from the committed financing from UBS Securities LLC.

Edgar Filing: BANTA CORP - Form 10-Q

14) Income Taxes

The effective tax rate related to the Corporation's continuing operations was 26.6% for the third quarter of 2006 and 28.5% for the third quarter of 2005. The reduction in the effective tax rate resulted primarily from the impact of the restructuring and asset impairment discussed in Note 11 on the proportion of income derived from lower taxed jurisdictions. The effective tax rate related to the Corporation's continuing operations was 22.6% for the nine months ended September 30, 2006 and 30.5% for the nine months ended October 1, 2005. The reduction in the effective tax rates is attributable to the aforementioned restructuring and asset impairment charges and from the reversal of certain tax contingency reserves related to the Corporation's operations in Singapore which are no longer required that was recognized in the second quarter of 2006. These tax contingency reserves related to tax incentives granted by the Inland Revenue Authority of Singapore (IRAS) for tax years 2000 through 2005, based on the attainment of certain defined measures. Attainment of these measures was not assured until the end of the incentive period and required confirmation from IRAS. Accordingly, the Corporation provided tax contingency reserves for these incentives. In the second quarter of 2006, the Corporation received final approval of qualification for the tax incentives from the IRAS and appropriately reversed the tax contingency of \$3.7 million associated with these incentives.

15) Segment Information

The Corporation operates in two business segments, printing and supply-chain management. Summarized segment data for the three and nine months ended September 30, 2006 and October 1, 2005 are as follows (dollars in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2006	October 1, 2005	September 30, 2006	October 1, 2005
Revenue				
Printing	\$ 271,090	\$ 283,761	\$ 805,444	\$ 815,445
Supply-chain management	111,299	97,338	321,948	317,991
Total	\$ 382,389	\$ 381,099	\$ 1,127,392	\$ 1,133,436
Earnings from Operations				
Printing	\$ 23,888	\$ 26,160	\$ 54,476	\$ 59,596
Supply-chain management	10,275	11,085	32,088	34,606
Total	\$ 34,163	\$ 37,245	\$ 86,564	\$ 94,202

14

The following table presents a reconciliation of segment earnings from operations to the totals contained in the unaudited condensed consolidated financial statements for the three and nine months ended September 30, 2006 and October 1, 2005 (dollars in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2006	October 1, 2005	September 30, 2006	October 1, 2005
Reportable segment earnings from operations	\$ 34,163	\$ 37,245	\$ 86,564	\$ 94,202
Corporate expenses (not allocated to segments)	(13,093)	(6,510)	(28,215)	(22,076)
Interest expense	(1,085)	(1,150)	(3,604)	(4,247)
Interest income	1,956	757	5,025	2,417
Other income (expense), net	(247)	(6)	(742)	791
Earnings from continuing operations before income taxes	\$ 21,694	\$ 30,336	\$ 59,028	\$ 71,087

16) Subsequent Events

OR

In October 2006, the Corporation announced that an unsolicited proposal from a third party to acquire the Corporation had automatically triggered a requirement to fund a trust to hold restricted cash available to cover payments, both immediate and long-term, due to certain retired and active employees of the Corporation. The trust was originally adopted by the Board of Directors of the Corporation in 1991. Approximately \$100 million was used to fund the trust in the fourth quarter of 2006. In the event that a change of control does not occur within the six-month time period provided under the trust, the trust assets will be released by the trustee and returned to the control of the Corporation.

On October 31, 2006, the Corporation announced that a definitive agreement had been signed with RR Donnelley & Sons Company and an acquisition subsidiary thereof (Donnelley) under which Donnelley would acquire the Corporation via a merger. The all-cash deal provides for a purchase price of \$52.50 per share, prior to the payment of the \$16.00 per share special cash dividend payable on November 21, 2006. Due to the size of the special cash dividend, the New York Stock Exchange has determined that the ex-dividend date will be November 22, 2006, the business day following the dividend's payment date of November 21, 2006. Therefore, Banta shareholders of record on the November 10, 2006 record date who subsequently sell their shares of common stock through the payment date for the special dividend will also be selling their right to receive the dividend. The agreement has been approved by the Board of Directors of the parties to the merger and the merger is currently expected to close in the first quarter of 2007. The completion of the merger is conditioned on the approval of the agreement by the holders of at least two-thirds of the voting power of the Corporation's outstanding common stock and other customary closing conditions. The merger agreement places some restrictions on the Corporation during the period until the close, including the share repurchase program described in Note 11.

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS
THIRD QUARTER AND FIRST NINE MONTHS OF 2006 COMPARED TO 2005

Introduction

Management's Discussion and Analysis (MD&A) is intended to help the reader understand the results of operations and financial condition of the Corporation. MD&A is provided as a supplement to, and should be read in conjunction with, the Corporation's financial statements and the accompanying notes to the financial statements. MD&A is organized in the following sections:

Overview
Results of Operations and Related Information
Liquidity and Capital Resources
Critical Accounting Policies
Forward Looking Statements

Overview

The Corporation operates in two business segments, printing and supply-chain management. The Corporation's printing segment provides a comprehensive combination of printing, binding and digital imaging solutions to leading publishers and direct marketers. Activities in this segment include printing and value-added services related to books, catalogs, publications, direct marketing materials and educational materials. This segment also provides literature management and e-business solutions. The Corporation's global supply-chain management segment provides a wide range of outsourcing capabilities, primarily to many of the world's largest technology companies. Activities in this segment range from materials sourcing, product configuration and customized kitting, to order fulfillment and global distribution.

Edgar Filing: BANTA CORP - Form 10-Q

In July 2006 the Corporation announced a reorganization of the five operating units of the printing segment into two divisions. In September 2006 the Corporation announced further strategic initiatives to strengthen its business, position the Corporation for growth and create value for shareholders. The reorganization and strategic initiatives are expected to generate savings of approximately \$27 million in 2007 and \$35 million in 2008. In order to achieve these benefits, the Corporation will incur approximately \$3 million of pre-tax charges in 2006 and \$19 million of pre-tax charges in 2007. These actions have resulted in a third quarter 2006 charge of approximately \$1.0 million, related to employee severance costs. In addition, the Corporation incurred an asset impairment charge of \$6.4 million as discussed in Note 12 to the condensed consolidated financial statements.

On October 31, 2006, the Corporation announced that a definitive agreement had been signed with RR Donnelley & Sons Company and an acquisition subsidiary thereof (Donnelley) under which Donnelley would acquire the Corporation via a merger. The all-cash deal provides for a purchase price of \$52.50 per share, prior to the payment of the \$16.00 per share special cash dividend payable on November 21, 2006. The agreement has been approved by the Board of Directors of the parties to the merger and the merger is currently expected to close in the first quarter of 2007. The completion of the merger is conditioned on the approval of the agreement by the holders of at least two-thirds of the voting power of the Corporation's outstanding common stock and other customary closing conditions. The merger agreement places some restrictions on the Corporation during the period until the close, including the share repurchase program described in Note 11.

As discussed in the Corporation's latest Annual Report on Form 10-K, the Corporation completed the sale of substantially all of the assets of its single-use healthcare products subsidiary, Banta Healthcare Group, Ltd. (Healthcare), to an affiliate of Fidelity Capital Investors, Inc. on April 12, 2005. In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the results of operations of Healthcare, which previously comprised the entire healthcare segment, and the gain on the sale of the assets have been reflected in discontinued operations in the accompanying condensed consolidated statements of earnings. The following discussion and analysis relating to results of operations is based on a comparison of the Corporation's results of operations from continuing operations.

16

Results of Continuing Operations and Related Information

Summary

The Corporation's revenue for the third quarter of 2006 increased 0.3% to \$382.4 from \$381.1 million in the third quarter of the prior year. Revenue for the third quarter of 2006 decreased in the printing segment while revenue in the supply-chain management segment increased when compared with the third quarter in the prior year. Third quarter earnings from continuing operations for 2006 of \$15.9 million were 26.6% lower than in the same period last year. Special charges in the third quarter of 2006 accounted for 20.5 percentage points of the overall 26.6 percentage point decline. Diluted earnings per share from continuing operations for the second quarter were 65 cents compared with 89 cents in the prior year period. Net earnings from continuing operations for the third quarter of 2006 included \$1,572,000 of expense (\$944,000 net of related taxes) related to the recognition of stock-based incentive compensation expense under SFAS No. 123 (R), Shared-Based Payment (see Note 9 to the Condensed Consolidated Financial Statements). Non-vested stock was expensed in both periods; totaling \$279,000 (\$167,000 net of related taxes) for the three months ended September 30, 2006 and \$164,000 (\$98,000 net of related taxes) for the three months ended October 1, 2005.

Revenue from continuing operations

Revenue from continuing operations for the quarter by segment is shown below (dollars in thousands):

Segment	Three Months Ended			Nine Months Ended		
	September 30, 2006	October 1, 2005	Change %	September 30, 2006	October 1, 2005	Change %
Print	\$ 271,090	\$ 283,761	-4.5%	\$ 805,444	\$ 815,445	-1.2%
Supply-chain management	111,299	97,338	+14.3%	321,948	317,991	+1.2%
Total	\$ 382,389	\$ 381,099	+0.3%	\$ 1,127,392	\$ 1,133,436	-0.5%

Print revenue for the third quarter of 2006 decreased 4.5% from the comparable quarter in the prior year. Key issues related to revenue for the third quarter of 2006 in this segment were:

Rising paper prices increased revenue approximately \$2.1 million in the third quarter of 2006 compared to the prior year period. Average paper prices were approximately 2% higher than in the third quarter of the prior year. These increases are generally passed on to the customer.

Edgar Filing: BANTA CORP - Form 10-Q

Revenue in the Book operating unit was down 5% compared with the prior year third quarter. This reduction was primarily the result of some customers sourcing certain educational materials from printers in lower-cost countries, as well as the decision by one large educational publisher to transition the packaging of certain materials to an internal facility. This decrease was partially offset by higher paper prices, which increased revenue approximately 2 percentage points.

Revenue for the Literature Management operating unit increased 24% compared with the third quarter of 2005. The strong revenue growth was the result of increased promotional activity from several existing key customers and new customers in both print and fulfillment.

Revenue in the Catalog operating unit decreased 20% for the third quarter of 2006 compared with the prior year third quarter. This reduction was primarily the result of decreased customer volumes (from both reductions in page count per catalog and reduced quantities per print run), and a shift to more print work using customer provided paper, which combined to decrease revenue approximately 21 percentage points from the prior year third quarter. Increased market pricing partially offset the reduction in volumes by 1 percentage point over the comparable period in the prior year.

The Publications operating unit revenue was comparable with the prior year third quarter. Revenue increases from higher volumes of commercial printing and the opening of a new comail facility were offset by external market pricing pressure.

Direct Marketing operating unit revenue was comparable to the prior year period. Increased volume was offset by a slight mix shift to activities with lower value-added content and external pricing pressures.

17

Printing revenue for the first nine months of 2006 decreased 1.2% compared with the first nine months of 2005. The growth experienced in the Literature Management operating unit and increased paper pricing were offset by volume declines and decreased market pricing for printing in the first nine months of 2006 compared with the same period in 2005.

Revenue for the supply-chain management segment increased 14.3% in the third quarter of 2006 compared with the third quarter of 2005. Approximately 1% of the increase (\$1.1 million) resulted from favorable changes in foreign currency exchange rates. The remainder of the increase in revenue was the result of increased volumes related to technology and healthcare products which more than offset the negotiated price reductions to several major customers and continued reduction in the content requirements for certain products.

For the first nine months of 2006, net revenue for the supply-chain management segment was 1.2% higher than for the first nine months of 2005. The volume gains realized in the third quarter more than offset the soft demand, content erosion and pricing concessions experienced in the first half of 2006. In addition, unfavorable changes in currency exchange rates for the first nine months of 2006 reduced revenue by approximately \$3.5 million compared with the first nine months of 2005.

The Corporation has a contract with Hewlett-Packard Company in the supply-chain management segment that runs through 2006, subject to one-year extensions pursuant to an evergreen provision. Pursuant to this evergreen clause, the contract was extended through 2006. Revenue from Hewlett-Packard Company under this agreement totaled approximately \$135 million in 2005. Revenue in 2006 is expected to decline modestly from 2005 levels, based on pricing concessions and content erosion. On September 14, 2006, the Corporation announced that it has executed a letter of intent with Hewlett-Packard for a new five-year relationship beginning January 1, 2007. The new five-year relationship remains subject to the negotiation of a mutually acceptable definitive agreement. The loss or the modification of the Hewlett-Packard relationship could have a material adverse impact on the Corporation's financial results.

Operating earnings from continuing operations (operating earnings)

Operating earnings from continuing operations (operating earnings) were \$21.1 million in the third quarter of 2006, a decrease of 31.4% from \$30.7 million in the prior year third quarter. Operating earnings as a percentage of revenue were 5.5% for the third quarter of 2006, down from 8.1% in the comparable prior year period. Approximately 24 percentage points of the decrease from the prior year was the result of special charges of \$7.4 million recorded in the third quarter of 2006. During the third quarter of 2006, the Corporation determined that previously capitalized development costs of approximately \$6.4 million related to internal administration systems would not be usable in future implementations. Because this asset will not be placed in service, this asset was considered impaired and the Corporation wrote off this asset in the third quarter of 2006. The remainder of the special charges in the third quarter related to employee severance and benefits costs associated with the implementation of the Corporation's cost savings initiatives. Changes in operating earnings as a percentage of revenue are discussed below by segment.

Segment operating margins were as follows for the third quarter:

Segment	September 30, 2006	October 1, 2005
Printing	8.8%	9.2%

Edgar Filing: BANTA CORP - Form 10-Q

Supply-chain management

9.2%

11.4%

Operating margins for the printing segment of 8.8% in the third quarter of 2006 were 0.4% lower than in the third quarter of 2005. Equity-based incentive compensation expense, which totaled \$926,000 (\$556,000 net of related taxes) and negative price pressures in several operating units were partially offset by the impact of the curtailment gain related to the amendment of the postretirement healthcare plan (see Note 10 to the Condensed Consolidated Financial Statements) and cost savings realized from the initiatives announced in the third quarter.

Print segment operating margins for the first nine months of 2006 declined to 6.8% from 7.3% in the first nine months of 2005. The decrease was primarily the result of the recognition of equity-based incentive compensation expense, the second quarter 2006 bad-debt expense and market pricing pressures as discussed above which were partially offset by the curtailment gain related to the amendment of the postretirement healthcare plan and cost savings initiatives.

18

The principal raw material used by the Corporation in the printing segment is paper. Average paper prices in the third quarter of 2006 were approximately 2% higher than prices in the third quarter of 2005. The cost of paper is generally passed on to customers and has no significant impact on operating earnings.

Operating margins for the supply-chain management segment decreased to 9.2% in the third quarter of 2006 from 11.4% in the prior year quarter. Approximately one-tenth of the decrease in operating margins in the segment was due to the recognition of equity-based incentive compensation expense, which totaled \$241,000 (\$145,000 net of related taxes). The remaining decrease was primarily the result of content erosion and negotiated price reductions to several major customers.

Operating margins for the first nine months in the supply-chain management segment decreased to 10.0% from 10.9% in the comparable period in the prior year due to the recognition of equity-based incentive compensation expense, content erosion and the price reductions discussed above. Operating margins in this segment continue to be at a level which may be higher than can be sustained long-term, and are likely to decrease in the future based on the expectation of a lesser proportion of value-added content in the product mix and continued pricing pressure from existing and new customers.

Geographic analysis of revenue and earnings from operations

Revenue and earnings from operations (excluding unallocated corporate expenses) by geographic area for the three and nine months ended September 30, 2006 and October 1, 2005 are presented below (dollars in thousands). Virtually all revenue for the printing segment was from customers in the United States. Revenue in the supply-chain management segment was from customers in the United States, Europe and Asia.

	Three Months Ended		Nine Months Ended	
	September 30, 2006	October 1, 2005	September 30, 2006	October 1, 2005
Revenue				
United States	\$ 311,682	\$ 309,116	\$ 910,507	\$ 901,821
Non-United States	70,707	71,983	216,885	231,615
Total	\$ 382,389	\$ 381,099	\$ 1,127,392	\$ 1,133,436
Earnings from operations				
United States	\$ 28,069	\$ 28,127	\$ 64,248	\$ 70,305
Non-United States	6,815	9,118	23,037	23,897
Total	\$ 34,884	\$ 37,245	\$ 87,285	\$ 94,202

Revenue in the United States increased 1% in the third quarter of 2006 compared with the same period in 2005. This increase was primarily the result of increased volumes in the supply-chain management segment which more than offset the decreased volumes and competitive pricing factors experienced by the print segment as described above. For the nine months ended September 30, 2006, revenue in the United States also increased 1% over the comparable period in the prior year. The volume and pricing factors discussed above for the first nine months were more than offset by increased volume and higher paper pricing when compared to the prior year. Non-United States revenue decreased 2% in the third quarter and 6% in the first nine months of 2006 from the comparable periods in the prior year. These decreases were the result of currency impacts, content reduction and pricing concessions described above for results of the supply-chain management segment.

Edgar Filing: BANTA CORP - Form 10-Q

Operating earnings in the United States were essentially flat in the third quarter and 9% lower in the first nine months of 2006 compared with the respective prior year periods. The curtailment gain related to the amendment of the postretirement healthcare plan and cost savings programs initiated in the third quarter offset the recognition of equity-based incentive compensation expense. The decrease for the first nine months was primarily the result of the recognition of equity-based compensation expense, bad-debt expense in the second quarter of 2006 related to a specific customer, a mix shift to lower value-added content in certain supply-chain management locations and the third quarter factors described above for the print and supply-chain management segments. Non-United States operating earnings decreased by approximately 25% in the third quarter and 4% in the first nine months of 2006 when compared with the prior year periods. The decrease in both the third quarter and first nine months was primarily the result of the annual pricing concessions, content erosion and lower demand from customers outside the United States.

19

Interest Expense, Interest Income and Other Income (Expense)

Interest expense for the third quarter of 2006 was \$1.1 million, 6% lower than interest expense of \$1.2 million in the comparable period in the prior year. Interest expense for the nine-month period ended September 30, 2006 was \$3.6 million, a reduction of 15% from the prior year first half. The reduction in interest expense for both the third quarter and the first nine months of 2006 was the result of scheduled repayments of long-term debt and new borrowings in the supply-chain management segment with more favorable interest rates. Total long-term debt at September 30, 2006 of \$70.9 million was 3% more than the \$68.5 million of total long-term debt outstanding at the end of the third quarter of 2005. This increase was related to the \$24.2 million of long-term borrowings at locations outside the United States in 2005 related to the repatriation of foreign earnings, reduced by scheduled repayments of long-term debt. Essentially all of the Corporation's long-term debt is at fixed interest rates. As a result, changes in market interest rates have not significantly impacted the Corporation's interest expense.

Interest income increased \$1.2 million to \$2.0 million in the third quarter of 2006 from \$0.8 million in the third quarter of 2005. For the nine months ended September 30, 2006, interest income of \$5.0 million was \$2.6 million higher than the prior year period. The increase in interest income in both the third quarter and first nine months of 2006 was the result of the Corporation's movement of some of its cash reserves to higher-yield investments as well as to rising short-term interest rates.

Other expense of \$0.2 million in the third quarter of 2006 was a \$0.2 million increase from the comparable period in the prior year. Other expense for the nine month period ended September 30, 2006 was \$0.7 million, an increase in expense of \$1.5 million from the \$0.8 million of other income in the prior year period. Other expense in the third quarter and first nine months of 2006 was due primarily to losses on foreign currency transactions. Other income in the prior year nine-month period resulted primarily from gains on foreign currency transactions and the sale of fixed assets.

Provision for Income Taxes

The effective tax rate related to the Corporation's continuing operations was 26.6% for the third quarter of 2006 and 28.5% for the third quarter of 2005. The reduction in the effective tax rate resulted primarily from the impact of the restructuring and asset impairment discussed in Note 12 on the proportion of income derived from lower taxed jurisdictions. The effective tax rate related to the Corporation's continuing operations was 22.6% for the nine months ended September 30, 2006 and 30.5% for the nine months ended October 1, 2005. The reduction in the effective tax rates was attributable to the aforementioned restructuring and asset impairment charges and from the reversal of certain tax contingency reserves related to the Corporation's operations in Singapore which are no longer required. These tax contingency reserves related to tax incentives granted by the Inland Revenue Authority of Singapore (IRAS) for tax years 2000 through 2005, based on the attainment of certain defined measures. Attainment of these measures was not assured until the end of the incentive period and required confirmation from IRAS. Accordingly, the Corporation provided tax contingency reserves for these incentives. In the second quarter of 2006, the Corporation received final approval of qualification for the tax incentives from the IRAS and appropriately reversed the tax contingency of \$3.7 million associated with these incentives.

The Corporation anticipates the effective tax rate for the full year 2006 will be 24.0% to 26.0%, lower than the full year 2005 rate exclusive of the provision recorded in the fourth quarter of 2005 for earnings repatriated under the American Jobs Creation Act of 2004, as discussed in the Corporation's 2005 Annual Report on Form 10-K. The expected reduction in the effective tax rate for 2006 from the rate in 2005 is attributable to the aforementioned restructuring and asset impairment charges and from the reversal of certain tax contingency reserves related to the Corporation's operations in Singapore which are no longer required. The Corporation's effective tax rate is less than the statutory United States federal rate of 35.0% due to the proportion of foreign earnings generated by the supply-chain management segment, which has extensive operations in countries whose tax rates are more favorable than the rates in the United States.

20

The Banta Corporation Incentive Savings Plan and the Banta Hourly 401(k) Plan were amended on November 1, 2006 to implement a stock ownership plan as a component of each plan. This amendment will enable the Corporation to be eligible for certain dividend deduction

Edgar Filing: BANTA CORP - Form 10-Q

provisions of the Internal Revenue Code. Based on this amendment, the Corporation expects to deduct a portion of the special dividend payable November 21, 2006. This amendment and resulting deduction will result in a reduction to the effective tax rate in the fourth quarter of 2006; the final impact of this amendment is currently being evaluated and has not yet been incorporated in the full year 2006 estimated effective tax rate discussed above.

Earnings from Continuing Operations

Earnings from continuing operations for the second quarter of 2006 were \$15.9 million, a 26.6% decrease from the same period last year. Earnings from continuing operations were negatively impacted by the asset impairment charge, special charges related to the cost savings initiatives begun in the third quarter as well as the reductions in operating earnings in the operating units described above. Earnings from continuing operations were positively impacted by the curtailment gain from the amendment of the postretirement healthcare plan. Diluted earnings per share from continuing operations for the second quarter were 65 cents compared with 89 cents in the third quarter of 2005. Diluted earnings per share were negatively impacted by the same factors that affected earnings from continuing operations.

Earnings from continuing operations for the nine months ended September 30, 2006 were \$45.7 million, a decrease of 7.5% from the same period last year. Diluted earnings per share from continuing operations for the same period were \$1.87 compared with \$1.98 in the comparable period in the prior year. These decreases were the result of the issues discussed above for the third quarter and full year 2006 results. Offsetting the decreases in the third quarter and the nine month period were the reversal of a tax reserve in the second quarter, the curtailment gain related to the amendment of the postretirement healthcare plan in the third quarter and the benefit of approximately 463,000 fewer average diluted shares outstanding in the first nine months of 2006 compared with the prior year period, the result of share repurchases in 2005 and the first six months of 2006.

Liquidity and Capital Resources

On September 30, 2006, the Corporation had cash and cash equivalents of \$175 million. The change in cash and cash equivalents for the periods ended September 30, 2006 and October 1, 2005 was as follows:

Dollars in thousands	September 30, 2006	October 1, 2005
Cash and cash equivalents at beginning of period	\$ 148,895	\$ 128,353
Cash provided by operating activities	98,217	75,139
Cash (used for) provided by investing activities	(45,860)	38,253
Cash used for financing activities	(28,956)	(89,124)
Effect of exchange rate changes on cash and cash equivalents	2,370	(15,540)
Net increase in cash and cash equivalents	25,771	8,728
Cash and cash equivalents at end of period	\$ 174,666	\$ 137,081

Operating Activities

Cash generated from operating activities for the nine months ended September 30, 2006 was \$98.2 million compared with \$75.1 million in the prior year period, an increase of 31%. The increase in cash from operating activities was driven by the collection of accounts receivable and an increase in accounts payable from the end of 2005, partially offset by the payment of incentive compensation accruals from the fourth quarter of 2005 and \$20 million in contributions to the qualified pension plan made in the first nine months of 2006. Included in the cash flows from operating activities in 2005 were the cash flows from the discontinued Healthcare segment. Cash flows from operating activities related to the discontinued Healthcare segment through April 12, 2005 were approximately \$4.5 million. The Corporation anticipates that the absence of these cash flows from the discontinued Healthcare segment will not have a materially adverse impact on future liquidity and capital resources.

Investing Activities

Investing activities in the first nine months of 2006 used \$45.9 million of cash compared with providing \$38.3 million of cash in the comparable period in the prior year. Proceeds from the sale of the Healthcare segment and related assets in the first nine months of 2005 were \$69.1 million.

Edgar Filing: BANTA CORP - Form 10-Q

The remaining change in cash used for investing activities results from capital expenditures, which were \$14.8 million higher than the \$32.0 million in the first nine months of 2005. The Corporation is committed to maintaining modern, safe and efficient plants and to providing customers with enhanced supply-chain management as well as new printing and digital imaging technologies.

Financing Activities

Cash used for financing activities in the first nine months of 2006 reflected repayments of long-term debt, share repurchases and payment of dividends to shareholders, partially offset by proceeds from stock option exercises. The Corporation used cash to repurchase shares in the amount of \$65.6 million in the nine months ended October 1, 2005, compared with \$13.4 million in the same period of 2006.

The Corporation has in effect a stock repurchase program pursuant to which it may repurchase shares of its common stock on the open market or in privately negotiated transactions from time to time. During the first nine months of 2006, the Corporation purchased 272,600 shares of common stock under the repurchase program at an aggregate cost of \$13.4 million. The 2006 share repurchases were financed by cash provided by operating activities. As of September 30, 2006, the Corporation had authority to repurchase up to an additional \$71.1 million in common stock under the current share repurchase program.

Management believes the Corporation's financial condition is strong and that its ability to generate cash from operations and its ability to issue short-term and long-term debt are adequate to fund working capital, capital spending, payment of regular quarterly dividends and other investments for the foreseeable future.

On September 14, 2006, the Corporation announced that its Board of Directors declared a special cash dividend of \$16.00 per share. The dividend is payable November 21, 2006, to shareholders of record on November 10, 2006. Due to the size of the special cash dividend, the New York Stock Exchange has determined that the ex-dividend date will be November 22, 2006, the business day following the dividend's payment date of November 21, 2006. Therefore, Banta shareholders of record on the November 10, 2006 record date who subsequently sell their shares of common stock through the payment date for the special dividend will also be selling their right to receive the dividend. This dividend is in addition to the Company's regular quarterly dividend of 18 cents per common share that was paid November 1, 2006, to shareholders of record on October 20, 2006. The special cash dividend is expected to be approximately \$389 million and has been recorded as a current liability in the accompanying condensed consolidated balance sheets at the end of the third quarter.

The Corporation intends to finance the special cash dividend through a combination of cash on hand and committed debt financing. As part of the process, the Corporation has secured financing commitments from UBS Securities LLC for \$465 million of new debt financing. In connection with this financing, the Corporation expects to pay approximately \$56 million in the fourth quarter of 2006 to refinance existing long-term debt, including potential charges related to prepayment obligations.

In October 2006, the Corporation announced that an unsolicited proposal from a third party to acquire the Corporation had automatically triggered a requirement to fund a trust to hold restricted cash available to cover payments, both immediate and long-term, due to certain retired and active employees of the Corporation. The trust was originally adopted by the Board of Directors of the Corporation in 1991. Approximately \$100 million has been used to fund the trust in the fourth quarter. In the event that a change of control does not occur within the six-month time period provided under the trust, the trust assets will be released by the trustee and returned to the control of the Corporation.

Critical Accounting Policies

The Corporation's accounting policies are more fully described in Note 1 to the consolidated financial statements included in the Corporation's Annual Report on Form 10-K for the fiscal year ended December 31, 2005. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and footnotes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements.

The most significant accounting estimates inherent in the preparation of the Corporation's consolidated financial statements include estimates as to the recovery of receivables and the realization of inventories, plant and equipment, and goodwill. Significant assumptions are also used in the determination of liabilities related to pension and postretirement benefits, obligations for lease terminations, income taxes and environmental matters. The process of determining significant estimates is fact specific and takes into account factors such as historical experience, current and expected economic conditions, product mix and, in some cases, actuarial assumptions. The Corporation re-evaluates these significant factors as facts and circumstances dictate. Historically, actual results have not differed significantly from those determined using the estimates described above.

Edgar Filing: BANTA CORP - Form 10-Q

The Corporation believes the following critical accounting policies affect its more significant judgments and estimates used in the preparation of its consolidated financial statements:

Revenue recognition. The Corporation provides printing solutions to publishers and direct marketers; and supply-chain management solutions, primarily to companies in the technology and medical device industries. The Securities and Exchange Commission's (SEC) Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition, provides guidance on the application of accounting principles generally accepted in the United States to selected revenue recognition issues.

Revenue in the print segment is recognized when the printed item is delivered to the customer and the earnings process is complete. Revenue in the supply-chain management segment is recognized when the tangible item is completed and delivered according to the customer's specifications. Revenue in the supply-chain management segment is recognized in accordance with Emerging Issues Task Force (EITF) Issue No. 99-19, Reporting Revenue Gross as a Principal versus Net as an Agent. Each major contract is evaluated based on various criteria, with management judgment required to assess the importance of each criterion in reaching the final decision. In general, revenue is recognized on a gross basis if the Corporation has latitude in establishing component vendors and pricing, is the primary obligor in the arrangement, bears all credit risk and bears risk of loss for inventory in its possession. Revenue from contracts that do not meet these criteria are recognized on a net basis, recording only the portion that is related to assembly, kitting, distribution and fulfillment processes provided directly by the Corporation.

Revenue from services is less than ten percent of revenue for the Corporation for each of the periods presented. Services revenue is recognized when the service is performed.

The Corporation records shipping and handling fees billed to customers as revenue, and records the related costs as cost of printing and supply-chain, when incurred.

Goodwill. In accordance with SFAS No. 142 Goodwill and Other Intangible Assets, goodwill is no longer amortized, but is reviewed for impairment on an annual basis. The Corporation completed the annual impairment tests in the fourth quarter of 2005, 2004 and 2003. This analysis was based on the comparison of the fair value of its reporting units to the carrying value of the net assets of the respective reporting units. The Corporation concluded that no impairment of goodwill existed at the time of the annual impairment tests in 2005, 2004 and 2003.

Stock-based compensation. Effective January 1, 2006, the Corporation adopted SFAS No. 123 (R), Share-Based Payment. SFAS No. 123 (R) requires measurement of the cost of employee services received in exchange for an award of equity instruments based on the fair value of the award at the grant date and recognition of the compensation expense over the period during which an employee is required to provide service in exchange for the award (generally the vesting period). The Corporation had previously accounted for its stock-based compensation plans under the recognition and measurement principles of Accounting Principles Board Opinion (APB) No. 25,

Accounting for Stock Issued to Employees, and related interpretations. Because the number of stock options granted was fixed and the exercise price equaled the market price of the Corporation's underlying common stock on the date of grant, no compensation cost was previously recognized under APB No. 25 in the statements of earnings for stock options granted prior to January 1, 2006. The Corporation adopted SFAS No. 123 (R) using the modified prospective method, under which compensation expense related to stock options that were not vested as of January 1, 2006 and grants of stock after January 1, 2006 will be recognized in the consolidated statements of earnings. The Corporation's stock option and non-vested stock awards primarily vest ratably over a 3-year period from the date of grant (subject to acceleration in certain cases). The Corporation has elected to recognize compensation expense using the straight-line method over the vesting period of the award. The Corporation continues to use the Black-Scholes-Merton valuation model to determine the fair value of stock options at the date of grant.

Retirement benefits. The Corporation has significant pension and postretirement benefit costs that are developed from actuarial valuations. The valuations reflect key assumptions regarding, among other things, discount rates, expected return on plan assets, retirement ages and years of service. The discount rate is based upon the 10-year Moody's Aa bond rate at the end of each year. Consideration is given to current market conditions, including changes in interest rates and investment returns, in making these assumptions. Changes in these assumptions will affect the amount of pension and postretirement expense recognized in future periods.

Asset impairments. Impairments of long-lived assets are accounted for under SFAS No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets. Long-lived assets are tested for recoverability whenever events or changes in circumstances indicate that the carrying value of the asset may not be recoverable.

Edgar Filing: BANTA CORP - Form 10-Q

Income taxes. The Corporation's annual tax rate is determined based on income, statutory tax rates and the tax impacts of items treated differently for tax purposes than for financial reporting purposes. Tax law requires some items to be included in the tax return at different times than the items reflected in the financial statements. As a result, the annual tax rate in the financial statements is different than the rate reported on the Corporation's tax return. Some of these differences are permanent, such as expenses that are not deductible in the tax return and some differences are temporary, reversing over time, such as depreciation expense. These temporary differences create deferred tax assets and liabilities.

Inherent in determining the annual tax rate are judgments regarding business plans, planning opportunities and expectations about future outcomes. Significant management judgments are required for the following items:

- Management reviews the Corporation's deferred tax assets for realizability. Valuation allowances are established when management believes that it is more likely than not that some portion of the deferred tax assets will not be realized. Changes in valuation allowances from period to period are included in the tax provision.
- The Corporation establishes accruals for certain tax contingencies when, despite the belief that the Corporation's tax return positions are fully supported, the Corporation believes that certain positions may be challenged. The tax contingency accruals are adjusted in light of changing facts and circumstances, such as the progress of tax audits, case law and emerging legislation.
- The Corporation has not provided for possible U.S. taxes or foreign withholding taxes on the undistributed earnings of foreign subsidiaries that are considered to be reinvested indefinitely.

24

Forward-Looking Statements

This document includes forward-looking statements. Statements that describe future expectations, including revenue and earnings projections, plans, results or strategies, are considered forward-looking. The statements that are not purely historical should be considered forward-looking statements. Often they can be identified by the use of forward-looking words, such as may, will, could, project, believe, anticipate, expect, estimate, continue, potential, plan, forecasts, and the like. Such statements are subject to certain risks and uncertainties which could cause actual results to differ materially from those currently anticipated. Factors that could affect actual results include, among others, unanticipated issues associated with the completion of the merger with RR Donnelley & Sons Company, the impact of the announcement of the merger on the Corporation's ability to retain key employees and win new business, unanticipated difficulties in achieving expected cost savings through restructuring actions of the corporation's cost improvement initiatives, unanticipated and/or yet-to-be determined restructuring costs to be incurred in future periods, unanticipated issues associated with the corporation's review of its options to further maximize shareholder value, the corporation's ability to implement successfully its strategic growth initiatives, unanticipated issues associated with completing the corporation's previously announced proposed acquisition in China, changes in customers' order patterns or demand for the Corporation's products and services, pricing pressures imposed by competitive factors and the Corporation's customers, changes in raw material costs and availability, unanticipated changes in sourcing of raw materials (including paper) by customers, unanticipated changes in operating expenses, unanticipated production difficulties, including without limitation issues associated with the closing of facilities and the movement of work, unanticipated issues associated with the Corporation's non-U.S. operations, changes in the pattern of outsourcing supply-chain management functions by customers, unanticipated acquisition or loss of significant customer contracts or relationships, including any unanticipated issues relating to entering into a new contract with Hewlett-Packard on substantially the terms set forth in the previously announced letter of intent, as well as unanticipated issues associated with achieving the expected levels of revenue under a new Hewlett-Packard contract, unanticipated difficulties and costs associated with the design and implementation of new administrative systems, the impact of any acquisition or divestiture effected by the Corporation, the ability of the Corporation to effect the previously announced new debt financings, unanticipated costs or other issues associated with proposals made with respect to a business combination transaction involving the corporation, unanticipated issues or costs associated with increased leverage on the corporation's balance sheet, changes in the Corporation's effective income tax rate, unanticipated swings in foreign currency exchange rates, unanticipated changes in the pattern of sourcing printed material in low cost countries by customers, any unanticipated weakening of the economy and other risks described under the Item 1A Risk Factors of the Corporation's Annual Report on Form 10-K for the year ended December 31, 2005 as supplemented by Item 1A of Part II of this Quarterly Report on Form 10-Q. These factors should be considered in evaluating the forward-looking statements, and undue reliance should not be placed on such statements. The forward-looking statements included herein are made as of the date hereof, and the Corporation undertakes no obligation to update publicly such statements to reflect subsequent events or circumstances.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in the Corporation's exposure to market risk since December 31, 2005. See Item 7A in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Item 4. Controls and Procedures

Forward-Looking Statements

Evaluation of Disclosure Controls and Procedures. The Corporation's management, with the participation of the Corporation's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Corporation's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, the Corporation's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Corporation's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Corporation in the reports that it files or submits under the Exchange Act.

Changes in Internal Controls. There were no changes in the Corporation's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal period to which this report relates that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

PART II: OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes in the Corporation's risk factors from those disclosed in the 2005 Annual Report on Form 10-K, except for the addition of the new risk factors disclosed below.

We have entered into a merger agreement to be acquired by R.R. Donnelley & Sons Company. Failure to complete the merger could negatively impact the price of our common stock in the market and have short-term performance implications for our company. The public announcement of the merger agreement may negatively impact our ability to retain key employees or obtain new business.

On October 31, 2006, we entered into a merger agreement to be acquired by R.R. Donnelley & Sons Company. The completion of the transaction is subject to various conditions, including approval by our shareholders and regulatory approvals. Failure to satisfy these conditions in a timely basis could result in the termination of the merger agreement which, in turn, could negatively impact the price of our common stock in the market and have short-term performance implications for our company. In addition, the public announcement of the execution of the merger agreement may, due to the resulting uncertainty with respect to our future, make it more difficult for us to retain our key employees and/or secure additional business from existing or new customers.

We are in the process of securing new debt financing to allow us to pay a \$16 per share special cash dividend. Failure to obtain the financing could have a material adverse effect on our liquidity and financial condition. Assuming we successfully obtain financing, we will incur new substantial debt to pay the special dividend.

On September 13, 2006, our Board declared a special cash dividend of \$16 per share payable on November 21, 2006 to shareholders of record as of November 10, 2006. In connection with the declaration of the special dividend, we obtained a financial commitment of up to \$465 million to fund the special dividend. Any failure to consummate the financing contemplated by the commitment would impair our ability to pay the special dividend on the payment date which, in turn, would negatively impact our financial condition and liquidity. In addition, assuming the financing is finalized and the special dividend is paid, we will incur substantial debt. In the event of a downturn in our business, this additional leverage could impact our financial flexibility or otherwise have a material adverse effect on our future liquidity.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the quarter ended September 30, 2006, the Corporation did not repurchase any shares of outstanding common stock under its share repurchase program. The share repurchase program was approved in February 2005 and authorizes the repurchase of shares with an aggregate value of up to \$150 million. The share repurchase program does not have an expiration date. As of September 30, 2006, the Corporation had authority to repurchase up to an additional \$71,079,000 in common stock under the current share repurchase program.

In addition, during the three months ended September 30, 2006, 256 shares at a cost of \$10,645 were tendered by and reacquired from employees to satisfy tax-withholding requirements in connection with the vesting of non-vested stock, and 6,178 shares valued at \$261,366 were returned to treasury due to employee forfeitures of non-vested stock.
