Item 1.01 Entry into Definitive Material Agreement

On April 5, 2019, Communications Systems, Inc. ("CSI") announced that its wholly-owned subsidiary Suttle, Inc. ("Suttle") had sold its FutureLink™ Fiber business line, including inventory and customer relationships, to PPC Broadband Inc. ("PPC"), a leading provider of high quality, end-to-end signal transmission solutions for mission-critical applications. Suttle retained the accounts receivable associated with the FutureLink™ Fiber business line and retained the remaining Suttle component and solutions business, comprised principally of the MediaMAX™ product line that supports key Tier 1 clients.

The transaction was structured as an Asset Purchase Agreement with a simultaneous signing and closing on April 5, 2019. Concurrent with the closing of the Asset Purchase Agreement, Suttle and PPC entered into a Transition Services Agreement under which Suttle agreed to continue to manufacture products related to the FutureLink™ Fiber business line, and provide certain related services, for PPC for a period of six months following the closing.

Under the Asset Purchase Agreement, Suttle agreed to indemnify PPC for any breaches of representations, warranties, covenants or agreements contained in the Asset Purchase Agreement, as well as any liabilities arising out of the pre-closing operation of the business. The sale price was \$5.0 million cash, of which \$4.5 million was paid to Suttle at closing, with \$500,000 placed in an escrow account for 18 months to support Suttle's indemnification obligations under the Asset Purchase Agreement. Suttle's 2018 revenue from the FutureLink™ Fiber business line was \$4.9 million. Suttle intends to use the proceeds of the sale of the FutureLink™ Fiber business line for general corporate purposes.
