ACADIA REALTY TRUST AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Organization, Basis of Presentation and Summary of Significant Accounting Policies

Organization

Acadia Realty Trust and subsidiaries (collectively, the "Company") is a fully-integrated equity real estate investment trust ("REIT") focused on the ownership, acquisition, development, and management of retail properties located primarily in high-barrier-to-entry, supply-constrained, densely-populated metropolitan areas in the United States.

All of the Company's assets are held by, and all of its operations are conducted through, Acadia Realty Limited Partnership (the "Operating Partnership") and entities in which the Operating Partnership owns an interest. As of June 30, 2018 and December 31, 2017, the Company controlled approximately 94% and 95%, respectively, of the Operating Partnership as the sole general partner and is entitled to share, in proportion to its percentage interest, in the cash distributions and profits and losses of the Operating Partnership. The limited partners primarily represent entities or individuals that contributed their interests in certain properties or entities to the Operating Partnership in exchange for common or preferred units of limited partnership interest ("Common OP Units" or "Preferred OP Units") and employees who have been awarded restricted Common OP Units ("LTIP Units") as long-term incentive compensation (Note 13). Limited partners holding Common OP and LTIP Units are generally entitled to exchange their units on a one-for-one basis for common shares of beneficial interest of the Company ("Common Shares"). This structure is referred to as an umbrella partnership REIT or "UPREIT."

As of June 30, 2018, the Company has ownership interests in 118 properties within its core portfolio, which consist of those properties either 100% owned, or partially owned through joint venture interests, by the Operating Partnership, or subsidiaries thereof, not including those properties owned through its funds ("Core Portfolio"). The Company also has ownership interests in 54 properties within its opportunity funds, Acadia Strategic Opportunity Fund II, LLC ("Fund II"), Acadia Strategic Opportunity Fund III LLC ("Fund III"), Acadia Strategic Opportunity Fund IV LLC ("Fund IV"), and Acadia Strategic Opportunity Fund V LLC ("Fund V"). Acadia Strategic Opportunity Fund I, LP ("Fund I," together with Funds II, III, IV, and V, the "Funds") was liquidated in 2015. The 172 Core Portfolio and Fund properties primarily consist of street and urban retail, and suburban shopping centers. In addition, the Company, together with the investors in the Funds, invest in operating companies through Acadia Mervyn Investors I, LLC ("Mervyns I," which was liquidated in 2018), Acadia Mervyn Investors II, LLC ("Mervyns II") and Fund II, all on a non-recourse basis. The Company consolidates the Funds as it has (i) the power to direct the activities that most significantly impact the Funds' economic performance, (ii) is obligated to absorb the Funds' losses and (iii) has the right to receive benefits from the Funds that could potentially be significant.

The Operating Partnership is the sole general partner or managing member of the Funds and Mervyns I and II and earns fees or priority distributions for asset management, property management, construction, development, leasing, and legal services. Cash flows from the Funds and Mervyns I and II are distributed pro-rata to their respective partners and members (including the Operating Partnership) until each receives a certain cumulative return ("Preferred Return") and the return of all capital contributions. Thereafter, remaining cash flow is distributed 20% to the Operating

Partnership ("Promote") and 80% to the partners or members (including the Operating Partnership). All transactions between the Funds and the Operating Partnership have been eliminated in consolidation.

The following table summarizes the general terms and Operating Partnership's equity interests in the Funds and Mervyns II (dollars in millions):

Entity	Formation Date	Operating Partnership Share of Capital	Capital Called as of June 30, 2018	Unfunded Commitments	Equity Interest Held By Operating Partnership [a]	Preferred Return	Total Distributions as of June 30, 2018 [b]
Fund II and Mervyns II [c]	6/2004	28.33%	$347.1	$—	28.33%	8%	$ 146.6
Fund III	5/2007	24.54%	420.2	29.8	24.54%	6%	551.9
Fund IV	5/2012	23.12%	412.7	117.3	23.12%	6%	136.7
Fund V	8/2016	20.10%	45.8	474.2	20.10%	6%	—

(a) Amount represents the current economic ownership at June 30, 2018, which could differ from the stated legal ownership based upon the cumulative preferred returns of the respective fund.

(b) Represents the total for the Funds, including the Operating Partnership and noncontrolling interests' shares.

(c) During April 2018, a distribution of $15.0 million was made to the Fund II investors, including $4.3 million to the Operating Partnership. This amount remains subject to re-contribution to Fund II until April 2021.

ACADIA REALTY TRUST AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Basis of Presentation

Segments

At June 30, 2018, the Company had three reportable operating segments: Core Portfolio, Funds and Structured Financing. The Company's chief operating decision maker may review operational and financial data on a property basis and does not differentiate properties on a geographical basis for purposes of allocating resources or capital. Each property is considered a separate operating segment; however, each property on a stand-alone basis represents less than 10% of revenues, profit or loss, and assets of the combined reported operating segment and meets the majority of the aggregation criteria under the applicable standard.

Principles of Consolidation

The consolidated financial statements include the consolidated accounts of the Company and its investments in partnerships and limited liability companies in which the Company has control in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 810 "Consolidation" ("ASC Topic 810"). The ownership interests of other investors in these entities are recorded as noncontrolling interests. All significant intercompany balances and transactions have been eliminated in consolidation. Investments in entities for which the Company has the ability to exercise significant influence over, but does not have financial or operating control, are accounted for using the equity method of accounting. Accordingly, the Company's share of the earnings (or losses) of these entities are included in consolidated net income.

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial information and with the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the full fiscal year. The information furnished in the accompanying consolidated financial statements reflects all adjustments that, in the opinion of management, are necessary for a fair presentation of the aforementioned consolidated financial statements for the interim periods. Such adjustments consisted of normal recurring items.

These consolidated financial statements should be read in conjunction with the Company's 2017 Annual Report on Form 10-K, as filed with the SEC on February 27, 2018.

Use of Estimates

GAAP requires the Company's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The most significant assumptions and estimates relate to the valuation of real estate, depreciable lives, revenue recognition and the collectability of notes receivable and rents receivable. Application of these estimates and assumptions requires the exercise of judgment as to future uncertainties and, as a

result, actual results could differ from these estimates.

Recently Adopted Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers. ASU 2014-09 is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration it expects to receive in exchange for those goods or services. ASU 2014-09 does not apply to the Company's lease revenues, but will apply to reimbursed tenant costs. Additionally, this guidance modifies disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In August 2015, the FASB issued ASU 2015-14, which defers the effective date of ASU 2014-09 for all entities by one year, until years beginning in 2018, with early adoption permitted but not before 2017. Entities may adopt ASU 2014-09 using either a full retrospective approach reflecting the application of the standard in each prior reporting period with the option to elect certain practical expedients or a modified retrospective approach with the cumulative effect, recognized at the date of adoption. Substantially all of the Company's revenue is derived from its leases and therefore falls outside of the scope of this guidance. The Company implemented the standard using the modified retrospective approach; however, there was no cumulative effect required to be recognized in retained earnings at the date of application. With respect to its fee-derived revenue, the Company had no changes to the timing of the Company's revenue recognition. However, the recognition of gains on sales of properties may be impacted prospectively under limited circumstances under which collectability may not be reasonably assured or if the Company has continuing involvement with a sold property.

ACADIA REALTY TRUST AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows—Classification of Certain Cash Receipts and Cash Payments. ASU 2016-15 provides guidance on certain specific cash flow issues, including, but not limited to, debt prepayment or extinguishment costs, contingent consideration payments made after a business combination and distributions received from equity method investees. ASU 2016-15 is effective for periods beginning after December 15, 2017, with early adoption permitted and shall be applied retrospectively where practicable. The Company adopted ASU 2016-15 effective January 1, 2018 and elected the "cumulative distribution approach" whereby distributions received from equity method investments would be classified as cash flows from operations to the extent of equity earnings and then as cash flows from investing activities thereafter. Accordingly, the Company has reclassified $7.5 million of its cash inflows from investing activities to cash flows from operating activities in its historical presentation of cash flows related to its equity method investments for the six months ended June 30, 2017.

In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash. ASU 2016-18 requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. ASU 2016-18 is effective for public business entities in fiscal years beginning after December 15, 2017, with early adoption permitted. The Company adopted this guidance effective January 1, 2018. Accordingly, the Company has reclassified $1.3 million of its cash outflows from operating activities and $0.1 million of its cash outflows from financing activities to change in cash and restricted cash in its historical presentation of cash flows for the six months ended June 30, 2017.

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations—Clarifying the Definition of a Business. ASU 2017-01 clarifies that to be considered a business, the elements must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. The new standard illustrates the circumstances under which real estate with in-place leases would be considered a business and provides guidance for the identification of assets and liabilities in purchase accounting. ASU 2017-01 is effective for periods beginning after December 15, 2017 and has been adopted by the Company effective January 1, 2018. It is expected that the new standard will reduce the number of future real estate acquisitions that will be accounted for as business combinations and, therefore, reduce the amount of acquisition costs that will be expensed. Accordingly, the Company capitalized $0.1 million of acquisition costs during the six months ended June 30, 2018 and expensed $0.6 million of acquisition costs during the six months ended June 30, 2017.

In January 2017, the FASB issued ASU No. 2017-03, Accounting Changes and Error Corrections (Topic 250) and Investments— Equity Method and Joint Ventures (Topic 323). ASU 2017-03 amends certain SEC guidance in the FASB Accounting Standards Codification in response to SEC staff announcements made during 2016 Emerging Issues Task Force ("EITF") meetings which addressed (i) the additional qualitative disclosures that a registrant is expected to provide when it cannot reasonably estimate the impact that ASUs 2014-09, 2016-02 and 2016-13 will have in applying the guidance in Staff Accounting Bulletin Topic 11.M and (ii) guidance in ASC 323 related to the amendments made by ASU 2014-01 regarding use of the proportional amortization method in accounting for

investments in qualified affordable housing projects (announcement made at the November 17, 2016, EITF meeting). The Company adopted 2017-03 effective January 1, 2018. The adoption of ASU 2017-03 did not have a material impact on the Company's consolidated financial statements.

In February 2017, the FASB issued ASU No. 2017-05, Other Income—Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets, which amends the guidance on nonfinancial assets in ASC 610-20. The amendments clarify that (i) a financial asset is within the scope of ASC 610-20 if it meets the definition of an in substance nonfinancial asset and may include nonfinancial assets transferred within a legal entity to a counter-party, (ii) an entity should identify each distinct nonfinancial asset or in substance nonfinancial asset promised to a counter-party and de-recognize each asset when a counter-party obtains control of it, and (iii) an entity should allocate consideration to each distinct asset by applying the guidance in ASC 606 on allocating the transaction price to performance obligations. Further, ASU 2017-05 provides guidance on accounting for partial sales of nonfinancial assets. The amendments are effective at the same time as the amendments in ASU 2014-09. The Company adopted ASU 2017-05 effective January 1, 2018. The adoption of ASU 2017-05 did not have a material impact on the Company's consolidated financial statements.

In May 2017, the FASB issued ASU No. 2017-09, Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting, which clarifies the scope of modification accounting with respect to changes to the terms or conditions of a share-based payment award. Modification accounting would not apply if a change to an award does not affect the total current fair value (or other applicable measurement), vesting conditions, or the classification of the award. For all entities, ASU 2017-09 is effective prospectively for awards modified in fiscal years beginning after December 15, 2017. The Company adopted ASU 2017-09 effective January 1, 2018. The adoption of ASU 2017-09 did not have a material impact on the Company's consolidated financial statements because the Company has not had significant modifications of its awards.

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging: Targeted Improvements to Accounting for Hedging Activities. The purpose of this updated guidance is to better align a company's financial reporting for hedging activities with the economic objectives of those activities. ASU 2017-12 is effective for fiscal years beginning after December 15, 2018, with early adoption, including adoption in an interim period, permitted. The Company early adopted ASU 2017-12 effective January 1, 2018 and the adoption of ASU 2017-12 did not have a material impact on the Company's consolidated financial statements.

In March 2018, the FASB issued ASU No. 2018-05, Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118, which allowed public companies to record provisional amounts in earnings for the year ended December 31, 2017 due to the complexities involved in accounting for the enactment of the Tax Cuts and Jobs Act. ASU 2018-05 was effective upon issuance. The Company recognized the estimated income tax effects of the Tax Cuts and Jobs Act in its 2017 Consolidated Financial Statements in accordance with SEC Staff Accounting Bulletin No. 118.

Recently Issued Accounting Pronouncements

In February 2018, the FASB issued ASU No. 2018-02, Income Statement-Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income. These amendments provide financial statement preparers with an option to reclassify stranded tax effects within accumulated other comprehensive income to retained earnings in each period in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Cuts and Jobs Act is recorded. This guidance is effective for fiscal years beginning after December 15, 2018, and interim periods therein. Early adoption is permitted. The Company is currently assessing the impact this guidance will have on its consolidated financial statements.

In June 2018, the FASB issued ASU No. 2018-07, Compensation—Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting. These amendments provide specific guidance for transactions for acquiring goods and services from nonemployees and specify that Topic 718 applies to all share-based payment transactions in which a grantor acquires goods or services to be used or consumed in a grantor's own operations by issuing share-based payment awards. The amendments also clarify that Topic 718 does not apply to share-based payments used to effectively provide (i) financing to the issuer or (ii) awards granted in conjunction with selling goods or services to customers as part of a contract accounted for under Topic 606, Revenue from Contracts with Customers. This guidance is effective for fiscal years beginning after December 15, 2018, and interim periods beginning after December 15, 2020. Early adoption is permitted but not earlier than the adoption of Topic 606. The Company does not believe that this guidance will have a material effect on its consolidated financial statements as it has not historically issued share-based payments in exchange for goods or services to be consumed within its operations.

In July 2018, the FASB issued ASU No. 2018-09, Codification Improvements. These amendments provide clarifications and corrections to certain ASC subtopics including the following: 220-10 (Income Statement - Reporting Comprehensive Income - Overall), 470-50 (Debt - Modifications and Extinguishments), 480-10 (Distinguishing Liabilities from Equity - Overall), 718-740 (Compensation - Stock Compensation - Income Taxes), 805-740 (Business Combinations - Income Taxes), 815-10 (Derivatives and Hedging - Overall), and 820-10 (Fair Value Measurement -

Overall). The Company is currently assessing the impact this guidance will have on its consolidated financial statements.

In July 2018, the FASB issued ASU No. 2018-10, Codification Improvements to Topic 842, Leases. These amendments provide clarifications and corrections to ASU 2016-02, Leases (Topic 842). The Company is currently assessing the impact this guidance will have on its consolidated financial statements.

Core Portfolio

Acquisition of Unconsolidated Investment

On January 4, 2017, an entity in which the Company owns a 20% noncontrolling interest (the "Renaissance Portfolio"), acquired a 6,200 square foot property in Alexandria, Virginia referred to as ("907 King Street") for $3.0 million. The Renaissance Portfolio is now a 213,000 square-foot portfolio of 18 mixed-use properties, 16 of which are located in Georgetown, Washington D.C. and two of which are located in Alexandria, Virginia.

Brandywine Portfolio, Market Square and Town Center

The Company owns an interest in an approximately one million square foot retail portfolio (the "Brandywine Portfolio" joint venture) located in Wilmington, Delaware, which includes two properties referred to as "Market Square" and "Town Center." Prior to the second quarter of 2016, the Company had a controlling interest in the Brandywine Portfolio, and it was therefore consolidated within the Company's financial statements. During April 2016, the arrangement with the partners of the Brandywine Portfolio was modified to change the legal ownership from a partnership to a tenancy-in-common interest, as well as to provide certain participating rights to the outside partners. As a result of these modifications, the Company de-consolidated the Brandywine Portfolio and accounted for its interest under the equity method of accounting effective May 1, 2016. Furthermore, as the owners of the Brandywine Portfolio had consistent ownership interests before and after the modification and the underlying net assets were unchanged, the Company reflected the change from consolidation to equity method based upon its historical cost. The Brandywine Portfolio and Market Square ventures do not include the property held by Brandywine Holdings, an entity consolidated by the Company.

Additionally, in April 2016, the Company repaid the outstanding balance of $140.0 million of non-recourse debt collateralized by the Brandywine Portfolio and provided a note receivable collateralized by the partners' tenancy-in-common interest in the Brandywine Portfolio for their proportionate share of the repayment. On May 1, 2017, the Company exchanged $16.0 million of the $153.4 million notes receivable (the "Brandywine Notes Receivable") (Note 3) plus accrued interest of $0.3 million for one of the partner's 38.89% tenancy-in-common interests in Market Square. The Company already had a 22.22% interest in Market Square and continued to apply the equity method of accounting for its aggregate 61.11% noncontrolling interest in Market Square and its 22.22% interest in Town Center through November 16, 2017. The incremental investment in Market Square was recorded at $16.3 million and the excess of this amount over the venture's book value associated with this interest, or $9.8 million, was being amortized over the remaining depreciable lives of the venture's assets through November 16, 2017. On November 16, 2017, the Company exchanged an additional $16.0 million of Brandywine Notes Receivable plus accrued interest of $0.6 million for the remaining 38.89% interest in Market Square, thereby obtaining a 100% controlling interest in the property. The exchange was deemed to be a business combination and as a result, the property was consolidated and a gain on change of control of $5.6 million was recorded (Note 2).

On November 16, 2017, the Company exchanged $60.7 million of the Brandywine Notes Receivable plus accrued interest of $0.9 million for one of the partner's 38.89% tenancy-in-common interests in Town Center. The incremental investment in Town Center was recorded at $61.6 million and the excess of this amount over the venture's book value associated with this interest, or $34.5 million, is being amortized over the remaining depreciable lives of the venture's assets. The Company previously had a 22.22% interest in Town Center which then became 61.11% following the November 2017 transaction.

On March 28, 2018, the Company exchanged $22.0 million of its Brandywine Notes Receivable plus accrued interest of $0.3 million for one of the partner's 14.11% tenancy-in-common interests in Town Center. The incremental investment in Town Center was recorded at $22.3 million and the excess of this amount over the venture's book value associated with this interest, or $12.7 million, is being amortized over the remaining depreciable lives of the venture's assets. The Company continues to apply the equity method of accounting for its aggregate 75.22% noncontrolling interest in Town Center after the March 2018 transaction.

At June 30, 2018, $38.7 million of the Brandywine Note Receivable remains outstanding (Note 3), which is collateralized by the remaining 24.78% undivided interest in Town Center.

8. Financial Instruments and Fair Value Measurements

The fair value of an asset is defined as the exit price, which is the amount that would either be received when an asset is sold or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The guidance establishes a three-tier fair value hierarchy based on the inputs used in measuring fair value. These tiers are: Level 1, for which quoted market prices for identical instruments are available in active markets, such as money market funds, equity securities, and U.S. Treasury securities; Level 2, for which there are inputs other than quoted prices included within Level 1 that are observable for the instrument, such as certain derivative instruments including interest rate caps and interest rate swaps; and Level 3, for financial instruments or other assets/liabilities that do not fall into Level 1 or Level 2 and for which little or no market data exists, therefore requiring the Company to develop its own assumptions.

Items Measured at Fair Value on a Recurring Basis

The methods and assumptions described below were used to estimate the fair value of each class of financial instrument. For significant Level 3 items, the Company has also provided the unobservable inputs along with their weighted-average ranges.

Money Market Funds — The Company has money market funds, which are included in Cash and cash equivalents in the consolidated financial statements, are comprised of government securities and/or U.S. Treasury bills. These funds were classified as Level 1 as we used quoted prices from active markets to determine their fair values.

Derivative Assets — The Company has derivative assets, which are included in Other assets, net in the consolidated financial statements, are comprised of interest rate swaps and caps. The derivative instruments were measured at fair value using readily observable market inputs, such as quotations on interest rates, and were classified as Level 2 as these instruments are custom, over-the-counter contracts with various bank counterparties that are not traded in an active market. See “Derivative Financial Instruments,” below.

Derivative Liabilities — The Company has derivative liabilities, which are included in Accounts payable and other liabilities in the consolidated financial statements, are comprised of interest rate swaps and caps. These derivative instruments were measured at fair value using readily observable market inputs, such as quotations on interest rates, and were classified as Level 2 because they are custom, over-the-counter contracts with various bank counterparties that are not traded in an active market. See “Derivative Financial Instruments,” below.

The Company did not have any transfers into or out of Level 1, Level 2, and Level 3 measurements during the six months ended June 30, 2018 or 2017.

The following table presents the Company’s fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis (in thousands):

	June 30, 2018			December 31, 2017		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Assets						
Money Market Funds	$105	$ —	$ —	$ 3	$ —	$ —
Derivative financial instruments	—	12,246	—	—	4,402	—
Liabilities						
Derivative financial instruments	—	794	—	—	1,467	—

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Items Measured at Fair Value on a Nonrecurring Basis (Including Impairment Charges)

The Company did not record any impairment charges during the six months ended June 30, 2018 or 2017.

All of the Company's derivative instruments have been designated as cash flow hedges and hedge the future cash outflows on variable-rate debt (Note 7). It is estimated that approximately $2.0 million included in accumulated other comprehensive (loss) income related to derivatives will be reclassified to interest expense in the 2018 results of operation. As of June 30, 2018 and December 31, 2017, no derivatives were designated as fair value hedges or hedges of net investments in foreign operations. Additionally, the Company does not use derivatives for trading or speculative purposes and currently does not have any derivatives that are not designated hedges.

Risk Management Objective of Using Derivatives

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company manages economic risks, including interest rate, liquidity and credit risk, primarily by managing the amount, sources and duration of its debt funding and, from time to time, through the use of derivative financial instruments. The Company enters into derivative financial instruments to manage exposures that result in the receipt or payment of future known and uncertain cash amounts, the

values of which are determined by interest rates. The Company's derivative financial instruments are used to manage differences in the amount, timing and duration of the Company's known or expected cash receipts and its known or expected cash payments principally related to the Company's investments and borrowings.

The Company is exposed to credit risk in the event of non-performance by the counterparties to the Swaps if the derivative position has a positive balance. The Company believes it mitigates its credit risk by entering into Swaps with major financial institutions. The Company continually monitors and actively manages interest costs on its variable-rate debt portfolio and may enter into additional interest rate swap positions or other derivative interest rate instruments based on market conditions. The Company has not entered, and does not plan to enter, into any derivative financial instruments for trading or speculative purposes.

The following table presents the location in the financial statements of the income (losses) recognized related to the Company's cash flow hedges (in thousands):

	Six Months Ended June 30,	
	2018	2017
Amount of income (loss) recognized in other comprehensive income	$8,603	$(2,008)
Amount of loss subsequently reclassified to earnings	—	—

Credit Risk-Related Contingent Features

The Company has agreements with each of its Swap counterparties that contain a provision whereby if the Company defaults on certain of its unsecured indebtedness, the Company could also be declared in default on its swaps, resulting in an acceleration of payment under the swaps.

Other Financial Instruments

The Company's other financial instruments had the following carrying values and fair values as of the dates shown (dollars in thousands, inclusive of amounts attributable to noncontrolling interests where applicable):

		June 30, 2018		December 31, 2017	
	Level	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Notes Receivable [a]	3	$109,209	$106,564	$153,829	$151,712
Mortgage and Other Notes Payable [a]	3	992,741	981,994	921,261	921,891

Unsecured notes payable and Unsecured line of credit [c]	2	480,125	480,345	517,125	515,330

(a)

The Company determined the estimated fair value of these financial instruments using a discounted cash flow model with rates that take into account the credit of the borrower or tenant, where applicable, and interest rate risk. The Company also considered the value of the underlying collateral, taking into account the quality of the collateral, the credit quality of the borrower, the time until maturity and the current market interest rate environment.

(b) Represents Fund II's cost-method investment in Albertson's supermarkets (Note 4).

(c) The Company determined the estimated fair value of the unsecured notes payable and unsecured line of credit using quoted market prices in an open market with limited trading volume where available. In cases where there was no trading volume, the Company determined the estimated fair value using a discounted cash flow model using a rate that reflects the average yield of similar market participants.

The Company's cash and cash equivalents, restricted cash, accounts receivable, accounts payable and certain financial instruments included in other assets and other liabilities had fair values that approximated their carrying values at June 30, 2018.

9. Commitments and Contingencies

The Company is involved in various matters of litigation arising in the normal course of business. While the Company is unable to predict with certainty the amounts involved, the Company's management and counsel are of the opinion that, when such litigation is resolved, the Company's resulting liability, if any, will not have a significant effect on the Company's consolidated financial position, results of operations, or liquidity. The Company's policy is to accrue legal expenses as they are incurred.

Commitments and Guaranties

In conjunction with the development and expansion of various properties, the Company has entered into agreements with general contractors for the construction or development of properties aggregating approximately $93.3 million and $92.2 million as of June 30, 2018 and December 31, 2017, respectively.

Preferred OP Units

There were no issuances of Preferred OP Units during the six months ended June 30, 2018.

In 1999 the Operating Partnership issued 1,580 Series A Preferred OP Units in connection with the acquisition of a property, which have a stated value of $1,000 per unit, and are entitled to a preferred quarterly distribution of the greater of (i) $22.50 (9% annually) per Series A Preferred OP Unit or (ii) the quarterly distribution attributable to a Series A Preferred OP Unit if such unit was converted into a Common OP Unit. Through June 30, 2018, 1,392 Series A Preferred OP Units were converted into 185,600 Common OP Units and then into Common Shares. The 188 remaining Series A Preferred OP Units are currently convertible into Common OP Units based on the stated value divided by $7.50. Either the Company or the holders can currently call for the conversion of the Series A Preferred OP Units at the lesser of $7.50 or the market price of the Common Shares as of the conversion date.

During 2016, the Operating Partnership issued 442,478 Common OP Units and 141,593 Series C Preferred OP Units to a third party to acquire Gotham Plaza (Note 4). The Series C Preferred OP Units have a value of $100.00 per unit and are entitled to a preferred quarterly distribution of $0.9375 per unit and are convertible into Common OP Units at a rate based on the share price at the time of conversion. If the share price is below $28.80 on the conversion date, each Series C Preferred OP Unit will be convertible into 3.4722 Common OP Units. If the share price is between $28.80 and $35.20 on the conversion date, each Series C Preferred OP Unit will be convertible into a number of Common OP Units equal to $100.00 divided by the closing share price. If the share price is above $35.20 on the conversion date, each Series C Preferred OP Unit will be convertible into 2.8409 Common OP Units. The Series C Preferred OP Units have a mandatory conversion date of December 31, 2025, at which time all units that have not been converted will automatically be converted into Common OP Units based on the same calculations. Through June 30, 2018, 5,000 Series C Preferred OP Units were converted into 17,165 Common OP Units and then into Common Shares.

11. Leases

Operating Leases

The Company is engaged in the operation of shopping centers and other retail properties that are either owned or, with respect to certain shopping centers, operated under long-term ground leases that expire at various dates through June 20, 2066, with renewal options. Space in the shopping centers is leased to tenants pursuant to agreements that provide for terms ranging generally from one month to sixty years and generally provide for additional rents based on certain operating expenses as well as tenants' sales volumes.

The Company leases land at six of its shopping centers, which are accounted for as operating leases and generally provide the Company with renewal options. Ground rent expense was $0.8 million and $1.8 million (including capitalized ground rent at a property under development of $0.3 million and $0.2 million) for the six months ended June 30, 2018 and 2017, respectively. The leases terminate at various dates between 2020 and 2066. These leases

provide the Company with options to renew for additional terms aggregating up to 22 years. The Company also leases space for its corporate office. Office rent expense under this lease was $0.5 million for each of the six months ended June 30, 2018 and 2017.

Capital Lease

During 2016, the Company entered into a 49-year master lease at 991 Madison Avenue, which is accounted for as a capital lease. During each of the six months ended June 30, 2018 and 2017, payments for this lease totaled $1.3 million. The property under the capital lease is included in Note 2.

ACADIA REALTY TRUST AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Lease Obligations

The scheduled future minimum (i) rental revenues from rental properties under the terms of non-cancelable tenant leases greater than one year (assuming no new or renegotiated leases or option extensions for such premises) and (ii) rental payments under the terms of all non-cancelable operating and capital leases in which the Company is the lessee, principally for office space, land and equipment, as of June 30, 2018, are summarized as follows (in thousands):

Year Ending December 31,	Minimum Rental Revenues	Minimum Rental Payments
2018 (Remainder)	$84,214	$2,394
2019	173,736	4,770
2020	159,982	4,566
2021	141,411	4,349
2022	123,077	4,399
Thereafter	545,937	184,624
Total	$1,228,357	$205,102

A ground lease expiring during 2078 provides the Company with an option to purchase the underlying land during 2031. If the Company does not exercise the option, the rents that will be due are based on future values and as such are not determinable at this time. Accordingly, the above table does not include rents for this lease beyond 2031.

During the three and six months ended June 30, 2018 and 2017, no single tenant collectively comprised more than 10% of the Company’s consolidated total revenues.

12. Segment Reporting

The Company has three reportable segments: Core Portfolio, Funds and Structured Financing. The Company’s Core Portfolio consists primarily of high-quality retail properties located primarily in high-barrier-to-entry, densely-populated metropolitan areas with a long-term investment horizon. The Company’s Funds hold primarily retail real estate in which the Company co-invests with high-quality institutional investors. The Company’s Structured Financing segment consists of earnings and expenses related to notes and mortgages receivable which are held within the Core Portfolio or the Funds (Note 3). Fees earned by the Company as the general partner or managing member of the Funds are eliminated in the Company’s consolidated financial statements and are not presented in the Company’s segments.

13. Share Incentive and Other Compensation

Share Incentive Plan

The Second Amended and Restated 2006 Incentive Plan (the "Share Incentive Plan") authorizes the Company to issue options, Restricted Shares, LTIP Units and other securities (collectively "Awards") to, among others, the Company's officers, trustees and employees. At June 30, 2018 a total of 1,185,947 shares remained available to be issued under the Share Incentive Plan.

Restricted Shares and LTIP Units

During the six months ended June 30, 2018, the Company issued 381,821 LTIP Units and 5,768 Restricted Share Units to employees of the Company pursuant to the Share Incentive Plan. These awards were measured at their fair value on the grant date, based on a valuation provided by an independent third-party appraiser incorporating the following factors:

- A portion of these annual equity award is granted in performance-based Restricted Share Units or LTIP Units that may be earned based on the Company's attainment of specified relative total shareholder returns ("Relative TSR") hurdles.

- In the event the Relative TSR percentile falls between the 25th percentile and the 50th percentile, Relative TSR vesting percentage is determined using a straight line linear interpolation between 50% and 100% and in the event that the Relative TSR percentile falls between the 50th percentile and 75th percentile, the Relative TSR vesting percentage is determined using a straight line linear interpolation between 100% and 200%.

- Two-thirds (2/3) of the performance-based LTIP Units will vest based on the Company's total shareholder return ("TSR") for the three-year forward-looking performance period ending December 31, 2020 relative to the constituents of the SNL U.S. REIT Retail Shopping Center Index and one-third (1/3) on the Company's TSR for the three-year forward-looking performance period as compared to the constituents of the SNL U.S. REIT Retail Index (both on a non-weighted basis).

- If the Company's performance fails to achieve the aforementioned hurdles at the culmination of the three-year performance period, all performance-based shares will be forfeited. Any earned performance-based shares vest 60% at the end of the performance period, with the remaining 40% of shares vesting ratably over the next two years.

The total value of the above Restricted Share Units and LTIP Units as of the grant date was $10.6 million. Total long-term incentive compensation expense, including the expense related to the Share Incentive Plan, was $2.1 million and $2.5 million for the three months ended June 30, 2018 and 2017, respectively and $4.3 million and $4.5 million for the six months ended June 30, 2018 and 2017, respectively and is recorded in General and Administrative on the Consolidated Statements of Income.

In addition, members of the Board of Trustees (the "Board") have been issued shares and units under the Share Incentive Plan. During 2018, the Company issued 17,427 LTIP Units and 17,050 Restricted Shares to Trustees of the Company in connection with Trustee fees. Vesting with respect to 8,949 of the LTIP Units and 5,181 of the Restricted Shares will be on the first anniversary of the date of issuance and 8,478 of the LTIP Units and 11,869 of the Restricted Shares vest over three years with 33% vesting on each of the next three anniversaries of the issuance date. The Restricted Shares do not carry voting rights or other rights of Common Shares until vesting and may not be transferred, assigned or pledged until the recipients have a vested non-forfeitable right to such shares. Dividends are not paid currently on unvested Restricted Shares, but are paid cumulatively from the issuance date through the applicable vesting date of such Restricted Shares. Total trustee fee expense, including the expense related to the Share Incentive Plan, was $0.6 million for each of the six months ended June 30, 2018 and 2017.

In 2009, the Company adopted the Long Term Investment Alignment Program (the "Program") pursuant to which the Company may grant awards to employees, entitling them to receive up to 25% of any potential future payments of Promote to the Operating Partnership from Funds III and IV. The Company has granted such awards to employees representing 25% of the potential Promote payments from Fund III to the Operating Partnership and 22.8% of the potential Promote payments from Fund IV to the Operating Partnership. Payments to senior executives under the Program require further Board approval at the time any potential payments are due pursuant to these grants. Compensation relating to these awards will be recognized in each reporting period in which Board approval is granted.

As payments to other employees are not subject to further Board approval, compensation relating to these awards will be recorded based on the estimated fair value at each reporting period in accordance with ASC Topic 718, Compensation– Stock Compensation. The awards in connection with Fund IV were determined to have no intrinsic value as of June 30, 2018.

Employee Share Purchase Plan

A participant may not purchase more the $25,000 in Common Shares per year. 14. Earnings Per Common Share

Basic earnings per Common Share is computed by dividing net income attributable to Common Shareholders by the weighted average Common Shares outstanding (Note 10). During the periods presented, the Company had unvested LTIP Units which provide for non-forfeitable rights to dividend equivalent payments. Accordingly, these unvested LTIP Units are considered participating securities and are included in the computation of basic earnings per Common Share pursuant to the two-class method.

Diluted earnings per Common Share reflects the potential dilution of the conversion of obligations and the assumed exercises of securities including the effects of restricted share units ("Restricted Share Units") issued under the Company's Share Incentive Plans (Note 13). The effect of such shares is excluded from the calculation of earnings per share when anti-dilutive as indicated in the table below.

The effect of the conversion of Common OP Units is not reflected in the computation of basic and diluted earnings per share, as they are exchangeable for Common Shares on a one-for-one basis. The income allocable to such units is allocated on this same basis and reflected as noncontrolling interests in the accompanying consolidated financial statements. As such, the assumed conversion of these units would have no net impact on the determination of diluted earnings per share.

The majority of our operating income is derived from rental revenues from operating properties, including expense recoveries from tenants, offset by operating and overhead expenses. As our RCP Venture invests in operating companies, the Operating Partnership invests through a taxable REIT subsidiary ("TRS").

Our primary business objective is to acquire and manage commercial retail properties that will provide cash for distributions to shareholders while also creating the potential for capital appreciation to enhance investor returns. We focus on the following fundamentals to achieve this objective:

- Own and operate a Core Portfolio of high-quality retail properties located primarily in high-barrier-to-entry, densely-populated metropolitan areas and create value through accretive development and re-tenanting activities

coupled with the acquisition of high-quality assets that have the long-term potential to outperform the asset class as part of our Core asset recycling and acquisition initiative.

- Generate additional external growth through an opportunistic yet disciplined acquisition program within our Funds. We target transactions with high inherent opportunity for the creation of additional value through:

value-add investments in street retail properties, located in established and “next generation” submarkets, with re-tenanting or repositioning opportunities,

opportunistic acquisitions of well-located real-estate anchored by distressed retailers, and
other opportunistic acquisitions which may include high-yield acquisitions and purchases of distressed debt.

Some of these investments historically have also included, and may in the future include, joint ventures with private equity investors for the purpose of making investments in operating retailers with significant embedded value in their real estate assets.

- Maintain a strong and flexible balance sheet through conservative financial practices while ensuring access to sufficient capital to fund future growth.

SIGNIFICANT DEVELOPMENTS DURING THE FIRST HALF OF 2018

Investments

During the six months ended June 30, 2018, within our Fund portfolio we invested in one new property as follows (Note 2):

- On February 21, 2018, Fund V acquired a consolidated suburban shopping center in Trussville, Alabama for $45.2 million referred to as “Trussville.”

In addition, we converted a portion of an existing note receivable (Note 3) into an interest in the underlying real estate collateral as follows:

- On March 28, 2018, we exchanged a total of $22.0 million of our Brandywine Note Receivable plus accrued interest of $0.3 million for an incremental 14.11% undivided interest in Town Center (Note 4).

Dispositions of Real Estate

During the six months ended June 30, 2018, within our Funds we sold three properties for an aggregate sales price of $34.0 million as follows (Note 2, Note 4):

- On April 17, 2018, Fund II sold its Sherman Avenue property, which was previously classified as held for sale, for $26.0 million.
- On January 18, 2018, Fund IV sold two unconsolidated properties for aggregate proceeds of $8.0 million and recognized a loss of $0.4 million at the property level, of which both Fund IV and our pro-rata share was negligible.
- On June 29, 2018, a Fund IV unconsolidated investee terminated its master leases at two of its Broughton Street properties.

Financings

During the six months ended June 30, 2018, we obtained aggregate new financing of $159.5 million including (Note 7):

- We obtained an aggregate of $109.5 million in financings with four new non-recourse mortgages for Fund V.
- We obtained a new $500.0 million Core Credit Facility comprised of a $150.0 million senior unsecured revolving credit facility and a $350.0 million senior unsecured term loan and refinanced our existing $300.0 million credit facility (comprised of the $150.0 million Core unsecured revolving line of credit and the $150.0 million term loan)

and $150.0 million in term loans.

We utilized proceeds from the new term loan to repay one Core mortgage in the amount of $40.4 million.

Structured Financing

During the six months ended June 30, 2018 (Note 3) we entered into the following structured financing transactions:

- As discussed above, on March 28, 2018, we exchanged a total of $22.0 million of our Core Brandywine Note Receivable plus accrued interest of $0.3 million for an incremental 14.11% undivided interest in Town Center (Note 4).
- On March 16, 2018, we funded an additional $2.8 million on an existing Core $15.0 million note receivable.
- On January 24, 2018, we received full payment on a $26.0 million Core note receivable plus $0.2 million interest thereon.

Share Repurchase Plan

In February 2018, our board of trustees elected to terminate the existing repurchase program and authorized a new common share repurchase program under which we may repurchase, from time to time, up to a maximum of $200.0 million of our common shares (Note 10). Through June 30, 2018, we repurchased 2,294,235 shares for $55.1 million.

Core Portfolio

The results of operations for our Core Portfolio segment are depicted in the table above under the headings labeled “Core.” Segment net income attributable to Acadia for our Core Portfolio increased by $0.5 million for the three months ended June 30, 2018 compared to the prior year period as a result of the changes as further described below.

Revenues from our Core Portfolio decreased by $1.0 million for the three months ended June 30, 2018 compared to the prior year period due primarily to a decrease in real estate tax recovery of $1.7 million as a result of reduced real estate tax assessments in 2018. This was partially offset by an increase in the recovery of common area maintenance charges from increased operating expenses.

Property operating, other operating expenses and real estate taxes for our Core Portfolio increased by $0.3 million for the three months ended June 30, 2018 compared to the prior year period primarily due to increased operating expenses, including real estate taxes. These increases were offset by a decrease in real estate tax expense as a result of reduced real estate tax assessments of $2.0 million in 2018.

Net income attributable to noncontrolling interests in our Core portfolio decreased by $0.6 million for the three months ended June 30, 2018 compared to the prior year period based on the noncontrolling interests' share of the variances discussed above.

Funds

The results of operations for our Funds segment are depicted in the table above under the headings labeled "Funds." Segment net income attributable to Acadia for the Funds decreased by $1.4 million for the three months ended June 30, 2018 compared to the prior year period as a result of the changes described below.

Revenues from the Funds increased by $5.0 million for the three months ended June 30, 2018 compared to the prior year period primarily due to a $5.9 million increase from Fund property acquisitions in 2017 and 2018, a $1.5 million increase from development projects being placed in service during 2017 and a $1.3 million increase related to the write-off of a below-market lease for a bankrupt tenant. These increases were partially offset by a decrease of $3.8 million related to property sales in 2017 and 2018.

Depreciation and amortization for the Funds increased by $4.1 million for the three months ended June 30, 2018 compared to the prior year period primarily due to a $4.0 million increase from Fund property acquisitions in 2017 and 2018 and an increase of $1.9 million from development projects being placed in service during 2017. These increases were partially offset by a $1.8 million decrease due to property sales during 2017 and 2018.

Property operating, other operating expenses and real estate taxes for the Funds increased by $1.7 million for the three months ended June 30, 2018 compared to the prior year period primarily due to a $1.6 million increase from Fund property acquisitions in 2017 and 2018, a $1.0 million increase from development projects being placed in service during 2017. These increases were partially offset by a decrease of $1.1 million related to property sales in 2017 and 2018.

Interest expense for the Funds increased $4.1 million for the three months ended June 30, 2018 compared to the prior year period due to $3.2 million less interest capitalized primarily related to our Fund II City Point project and a $1.3 million increase related to higher average outstanding rates during 2018. These increases were partially offset by $0.4 million by lower average outstanding borrowings in 2018.

Net income attributable to noncontrolling interests in the Funds decreased by $3.4 million for the three months ended June 30, 2018 compared to the prior year period based on the noncontrolling interests' share of the variances discussed above.

Structured Financing

The results of operations for our Structured Financing segment are depicted in the table above under the headings labeled "SF." Net income for Structured Financing decreased by $4.9 million for the three months ended June 30, 2018 compared to the prior year period primarily due to a reduction of $2.2 million from the conversion of a portion of a note receivable into increased ownership in the real estate (Note 4), the recognition of additional interest of $1.4 million during the prior year period on the repayment of a note (Note 3) and $1.1 million for loan payoffs during 2017 and 2018.

Unallocated

The Company does not allocate general and administrative expense and income taxes to its reportable segments. These unallocated amounts are depicted in the table above under the headings labeled “Total.” Unallocated general and administrative expense decreased $1.0 million for the three months ended June 30, 2018 compared to the prior year period primarily due to higher capitalized internal leasing costs in 2018.

Comparison of Results for the Six Months Ended June 30, 2018 to the Six Months Ended June 30, 2017

The results of operations by reportable segment for the six months ended June 30, 2018 compared to the six months ended June 30, 2017 are summarized in the table below (in millions, totals may not add due to rounding):

Core Portfolio

Segment net income attributable to Acadia for our Core Portfolio increased by $2.5 million for the six months ended June 30, 2018 compared to the prior year period as a result of the changes as further described below.

Revenues from our Core Portfolio decreased by $3.7 million for the six months ended June 30, 2018 compared to the prior year period due primarily to a decrease of $3.8 million in real estate tax recovery income in 2018 as a result of reduced real estate tax reassessments in 2018 as well as a decline in occupancy due to tenant bankruptcies in 2018. These decreases were offset by an increase in the recovery of common area maintenance charges related to increased operating expenses.

Depreciation and amortization for our Core Portfolio decreased by $1.6 million for the six months ended June 30, 2018 compared to the prior year period primarily due to accelerated depreciation of an asset placed into redevelopment in 2017.

Property operating, other operating expenses and real estate taxes for our Core Portfolio decreased by $1.6 million for the six months ended June 30, 2018 compared to the prior year period primarily due to a decrease in real estate tax expense of $4.4 million related to reduced real estate tax assessments in 2018. This decrease was partially offset by an increase in operating expenses of $1.5 million including real estate taxes.

Equity in earnings of unconsolidated affiliates for our Core Portfolio increased by $1.7 million for the six months ended June 30, 2018 compared to the prior year period primarily due to the conversion of a portion of a note receivable into increased ownership in real estate (Note 4)

Net income attributable to noncontrolling interests in our Core Portfolio decreased by $0.9 million for the six months ended June 30, 2018 compared to the prior year period based on the noncontrolling interests' share of the variances discussed above.

Funds

Segment net income attributable to Acadia for the Funds decreased by $6.1 million for the six months ended June 30, 2018 compared to the prior year period as a result of the changes described below.

Revenues from the Funds increased by $8.9 million for the six months ended June 30, 2018 compared to the prior year period primarily due to a $12.7 million increase from Fund property acquisitions in 2017 and 2018, a $2.0 million increase from development projects being placed in service during 2017 and a $1.3 million write off of a below-market lease liability related to a tenant bankruptcy. These increases were offset by a decrease of $7.2 million related to property sales in 2017.

Depreciation and amortization for the Funds increased by $9.1 million for the six months ended June 30, 2018 compared to the prior year period primarily due to a $7.4 million increase from Fund property acquisitions in 2017 and 2018 and as well as $3.5 million from development projects being placed in service during 2017. These increases were offset by a decrease of $2.3 million for property sales in 2017.

Property operating, other operating expenses and real estate taxes for the Funds increased by $3.9 million for the six months ended June 30, 2018 compared to the prior year period primarily due to a $3.6 million increase from the City Point project being placed in service during 2017 and a $2.6 million increase from Fund property acquisitions in 2017 and 2018. These increases were offset by a decrease of $2.4 million for property sales in 2017.

Equity in earnings of unconsolidated affiliates for the Funds decreased by $11.9 million for the six months ended June 30, 2018 compared to the prior year period primarily due to the Fund's proportionate share of $11.5 million in aggregate gains from the sales of Arundel Plaza, 1701 Belmont Avenue and 2819 Kennedy Boulevard during the prior year period.

Interest expense for the Funds increased $9.1 million for the six months ended June 30, 2018 compared to the prior year period due to $6.8 million less interest capitalized primarily related to our Fund II City Point project during 2018 and a $2.7 million increase related to higher average outstanding rates and borrowings in 2018.

Net income attributable to noncontrolling interests in the Funds decreased by $19.0 million for the six months ended June 30, 2018 compared to the prior year period based on the noncontrolling interests' share of the variances discussed above.

Structured Financing

Net income for Structured Financing decreased by $10.2 million for the six months ended June 30, 2018 compared to the prior year period primarily due to $4.0 million from the conversion of a portion of a note receivable into increased ownership in the real estate (Note 4), the recognition of additional interest of $3.9 million during the prior year period on the repayment of a note (Note 3) and loan payoffs during 2017 and 2018.

Unallocated

Unallocated general and administrative expense decreased $0.9 million for the six months ended June 30, 2018 compared to the prior year period due to higher bonus expense and increased compensation related to the Program (Note 13) in 2017.

SUPPLEMENTAL FINANCIAL MEASURES

Net Property Operating Income

The following discussion of net property operating income ("NOI") and rent spreads on new and renewal leases includes the activity from both our consolidated and our pro-rata share of unconsolidated properties within our Core Portfolio. Our Funds invest primarily in properties that typically require significant leasing and development. Given that the Funds are finite-life investment vehicles, these properties are sold following stabilization. For these reasons, we believe NOI and rent spreads are not meaningful measures for our Fund investments.

NOI represents property revenues less property expenses. We consider NOI and rent spreads on new and renewal leases for our Core Portfolio to be appropriate supplemental disclosures of portfolio operating performance due to their widespread acceptance and use within the REIT investor and analyst communities. NOI and rent spreads on new and renewal leases are presented to assist investors in analyzing our property performance, however, our method of calculating these may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

Rent Spreads on Core Portfolio New and Renewal Leases

The following table summarizes rent spreads on both a cash basis and straight-line basis for new and renewal leases based on leases executed within our Core Portfolio for the three and six months ended June 30, 2018. Cash basis represents a comparison of rent most recently paid on the previous lease as compared to the initial rent paid on the new lease. Straight-line basis represents a comparison of rents as adjusted for contractual escalations, abated rent and lease incentives for the same comparable leases.

Funds from Operations

We consider funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") to be an appropriate supplemental disclosure of operating performance for an equity REIT due to its widespread acceptance and use within the REIT and analyst communities. FFO is presented to assist investors in analyzing our performance. It is helpful as it excludes various items included in net income that are not indicative of the operating performance, such as gains (losses) from sales of depreciated property, depreciation and amortization, and impairment of depreciable real estate. Our method of calculating FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. FFO does not represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating our performance or to cash flows as a measure of liquidity. Consistent with the NAREIT definition, we define FFO as net income (computed in accordance with GAAP), excluding gains (losses) from sales of depreciated property and impairment of depreciable real estate, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. A reconciliation of net income attributable to Acadia to FFO follows (dollars in thousands, except per share amounts):

LIQUIDITY AND CAPITAL RESOURCES

Uses of Liquidity and Cash Requirements

Our principal uses of liquidity are (i) distributions to our shareholders and OP unit holders, (ii) investments which include the funding of our capital committed to the Funds and property acquisitions and development/re-tenanting activities within our Core Portfolio, (iii) distributions to our Fund investors, (iv) debt service and loan repayments and (v) share repurchases.

Distributions

In order to qualify as a REIT for Federal income tax purposes, we must currently distribute at least 90% of our taxable income to our shareholders. During the six months ended June 30, 2018, we paid dividends and distributions on our Common Shares, Common OP Units and Preferred OP Units totaling $48.2 million.

Investments in Real Estate

During the six months ended June 30, 2018, within our Fund portfolio we invested in one new property as follows (Note 2):

- On February 21, 2018, Fund V acquired a consolidated suburban shopping center in Trussville, Alabama for $45.2 million referred to as “Trussville.”

For activity subsequent to June 30, 2018, see Note 15.

Capital Commitments

During the six months ended June 30, 2018, we made capital contributions aggregating $2.1 million to our Funds. At June 30, 2018, our share of the remaining capital commitments to our Funds aggregated $129.7 million as follows:

- $7.3 million to Fund III. Fund III was launched in May 2007 with total committed capital of $450.0 million of which our original share was $89.6 million. During 2015, we acquired an additional interest, which had an original capital commitment of $20.9 million.
- $27.1 million to Fund IV. Fund IV was launched in May 2012 with total committed capital of $530.0 million of which our original share was $122.5 million.
- $95.3 million to Fund V. Fund V was launched in August 2016 with total committed capital of $520.0 million of which our initial share is $104.5 million.

Development Activities

During the six months ended June 30, 2018, capitalized costs associated with development activities totaled $41.9 million. At June 30, 2018 and December 31, 2017, we had a total of seven properties under development and redevelopment for which the estimated total cost to complete these projects through 2020 was $90.8 million to $125.8 million and our share was approximately $45.8 million to $63.7 million.

Debt

A summary of our consolidated debt, which includes the full amount of Fund related obligations and excludes our pro rata share of debt at our unconsolidated subsidiaries, is as follows (in thousands):

	June 30, 2018	December 31, 2017
Total Debt - Fixed and Effectively Fixed Rate	$993,403	$899,650
Total Debt - Variable Rate	479,463	538,736
	1,472,866	1,438,386
Net unamortized debt issuance costs	(12,417)	(14,833)
Unamortized premium	805	856

Total Indebtedness	$1,461,254	$1,424,409

As of June 30, 2018, our consolidated outstanding mortgage and notes payable aggregated $1,472.9 million, excluding unamortized premium of $0.8 million and unamortized loan costs of $12.4 million, and were collateralized by 45 properties and related tenant leases. Interest rates on our outstanding indebtedness ranged from 1.00% to 6.00% with maturities that ranged from August 1, 2018, to August 23, 2042. Taking into consideration $589.3 million of notional principal under variable to fixed-rate swap agreements currently in effect, $993.4 million of the portfolio debt, or 67.0%, was fixed at a 3.61% weighted-average interest rate and $479.5 million, or 33.0% was floating at a 3.81% weighted average interest rate as of June 30, 2018. Our variable-rate debt includes $143.8 million of debt subject to interest rate caps.

There is $47.7 million of debt maturing in 2018 at a weighted-average interest rate of 5.59%; there is $3.1 million of scheduled principal amortization due in 2018; and our share of scheduled remaining 2018 principal payments and maturities on our unconsolidated debt was $7.3 million at June 30, 2018. In addition, $207.9 million of our total consolidated debt and $1.0 million of our pro-rata share of unconsolidated debt will come due in 2019. As it relates to the maturing debt in 2018 and 2019, we may not have sufficient cash on hand to repay such indebtedness, and, therefore, we expect to refinance at least a portion of this indebtedness or select other alternatives based on market conditions as these loans mature; however, there can be no assurance that we will be able to obtain financing at acceptable terms.

A mortgage loan in the Company's Core Portfolio for $26.3 million was in default and subject to litigation at June 30, 2018 and December 31, 2017 (Note 7).

Share Repurchases

The Company repurchased $55.1 million, or 2,294,235 shares, pursuant to its new share repurchase program during the six months ended June 30, 2018.

Sources of Liquidity

Our primary sources of capital for funding our liquidity needs include (i) the issuance of both public equity and OP Units, (ii) the issuance of both secured and unsecured debt, (iii) unfunded capital commitments from noncontrolling interests within our Funds, (iv) future sales of existing properties, (v) repayments of structured financing investments, and (vi) cash on hand and future cash flow from operating activities. Our cash on hand in our consolidated subsidiaries at June 30, 2018 totaled $17.3 million. Our remaining sources of liquidity are described further below.

Issuance of Equity

We have an at-the-market ("ATM") equity issuance program which provides us an efficient and low-cost vehicle for raising public equity to fund our capital needs. Through this program, we have been able to effectively "match-fund" the required equity for our Core Portfolio and Fund acquisitions through the issuance of Common Shares over extended periods employing a price averaging strategy. In addition, from time to time, we have issued and intend to continue to issue, equity in follow-on offerings separate from our ATM program. Net proceeds raised through our ATM program and follow-on offerings are primarily used for acquisitions, both for our Core Portfolio and our pro-rata share of Fund acquisitions, and for general corporate purposes. There were no issuances of equity under the ATM program during the six months ended June 30, 2018.

Fund Capital

During the six months ended June 30, 2018, Fund III called capital contributions totaling $8.7 million, of which our share was $2.1 million. At June 30, 2018, unfunded capital commitments from noncontrolling interests within our Funds III, IV and V were $22.5 million, $90.2 million and $378.9 million, respectively.

Asset Sales

As previously discussed, during the six months ended June 30, 2018, within our Fund portfolio we sold two unconsolidated properties and one consolidated property for an aggregate sales price of $34.0 million (Note 4, Note 2).

Structured Financing Repayments

During the six months ended June 30, 2018, we received total collections on one note receivable of $26.0 million (Note 3). There are no scheduled principal collections for the remainder of 2018.

Financing and Debt

As of June 30, 2018, we had $253.5 million of additional capacity under existing Core and Fund revolving debt facilities. In addition, at that date within our Core and Fund portfolios, we had 68 unleveraged consolidated properties with an aggregate carrying value of approximately $1.5 billion and 15 unleveraged unconsolidated properties for which our share of the carrying value was $142.1 million, although there can be no assurance that we would be able to obtain financing for these properties at favorable terms, if at all.

HISTORICAL CASH FLOW

The following table compares the historical cash flow for the six months ended June 30, 2018 with the cash flow for the six months ended June 30, 2017 (in millions):

	Six Months Ended June 30,		
	2018	2017	Variance
Net cash provided by operating activities	$49.0	$68.9	$(19.9)
Net cash used in investing activities	(22.5)	(103.1)	80.6
Net cash (used in) provided by financing activities	(81.1)	7.3	(88.4)
Decrease in cash and restricted cash	$(54.6)	$(26.9)	$(27.7)

Operating Activities

Our operating activities provided $19.9 million less cash during the six months ended June 30, 2018 as compared to the six months ended June 30, 2017, primarily due to a reduction in interest income, an increase in interest expense and an increase in property expenses partially offset by cash flows from the 2017 and 2018 Fund acquisitions.

Investing Activities

During the six months ended June 30, 2018 as compared to the six months ended June 30, 2017, our investing activities used $80.6 million less cash, primarily due to (i) $14.0 million more cash received from repayments of notes receivable in 2018, (ii) $4.4 million less cash used for development and property improvement costs, (iii) $25.2 million more case received from the proceeds from dispositions of properties, (iv) $34.4 million less cash used for the acquisition of real estate, and (v) $7.3 million less cash used for the issuance of notes receivable. These reductions in the use of cash were partially offset by $8.9 million less cash received from return of capital from unconsolidated affiliates.

Financing Activities

Our financing activities used $88.4 million more cash during the six months ended June 30, 2018 as compared to the six months ended June 30, 2017, primarily from (i) $55.1 million more cash used for the repurchase of Common Shares, (ii) a decrease in cash of $14.0 million from capital contributions from noncontrolling interests, (iii) a decrease of $20.9 million of cash provided from net borrowings, and (iv) an increase of $10.6 million in distributions to noncontrolling interests. These items were partially offset by (i) a decrease of $11.2 million in cash paid for dividends to common shareholders.

CONTRACTUAL OBLIGATIONS

The following table summarizes: (i) principal and interest obligations under mortgage and other notes, (ii) rents due under non-cancelable operating and capital leases, which includes ground leases at seven of our properties and the lease for our corporate office and (iii) construction commitments as of June 30, 2018 (in millions):

	Payments Due by Period				
Contractual Obligations	Total	Less than 1 Year	1 to 3 Years	3 to 5 Years	More than 5 Years
Principal obligations on debt	$1,472.9	$84.8	$757.3	$462.9	$167.9
Interest obligations on debt	227.5	65.0	88.4	45.5	28.6
Lease obligations [(a)]	205.0	2.4	9.3	8.7	184.6
Construction commitments [(b)]	93.3	93.3	—	—	—
Total	$1,998.7	$245.5	$855.0	$517.1	$381.1

_____

(a) A ground lease expiring during 2078 provides the Company with an option to purchase the underlying land during 2031. If we do not exercise the option, the rents that will be due are based on future values and as such are not determinable at this time. Accordingly, the above table does not include rents for this lease beyond 2031.

(b) In conjunction with the development of our Core Portfolio and Fund properties, we have entered into construction commitments with general contractors. We intend to fund these requirements with existing liquidity.

OFF-BALANCE SHEET ARRANGEMENTS

We have the following investments made through joint ventures for the purpose of investing in operating properties. We account for these investments using the equity method of accounting. As such, our financial statements reflect our investment and our share of income and loss from, but not the individual assets and liabilities, of these joint ventures.

See Note 4 in the Notes to Consolidated Financial Statements, for a discussion of our unconsolidated investments. The Operating Partnership's pro-rata share of unconsolidated non-recourse debt related to those investments is as follows (dollars in millions):

Investment	Operating Partnership Ownership Percentage	Operating Partnership Pro-rata Share of Mortgage Debt	Interest Rate at June 30, 2018	Maturity Date
230/240 W. Broughton	11.6 %	$ 1.2	5.00 %	August 2018
Promenade at Manassas	22.8 %	5.6	3.70 %	November 2018
650 Bald Hill	20.8 %	3.3	4.65 %	April 2020
Eden Square	22.8 %	5.1	4.15 %	June 2020
Gotham Plaza [(a)]	49.0 %	9.9	3.60 %	June 2023
Renaissance Portfolio	20.0 %	32.0	3.70 %	August 2023
Crossroads	49.0 %	32.7	3.94 %	October 2024
840 N. Michigan	88.4 %	65.0	4.36 %	February 2025
Georgetown Portfolio	50.0 %	8.4	4.72 %	December 2027
Total		$ 163.2		

(a) Our unconsolidated affiliate is a party to an interest rate LIBOR swap with a notional value of $20.2 million, which effectively fixes the interest rate at 3.49% and matures in June 2023.

CRITICAL ACCOUNTING POLICIES

Management's discussion and analysis of financial condition and results of operations is based upon our Consolidated Financial Statements, which have been prepared in accordance with U.S. GAAP. The preparation of these Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. We base our estimates on historical experience and assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe there have been no material changes to the items that we disclosed as our critical accounting policies under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," in our 2017 Annual Report on Form 10-K.

Recently Issued Accounting Pronouncements

Reference is made to Note 1 for information about recently issued accounting pronouncements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Information as of June 30, 2018

Our primary market risk exposure is to changes in interest rates related to our mortgage and other debt. See Note 7 in the Notes to Consolidated Financial Statements, for certain quantitative details related to our mortgage and other debt.

Currently, we manage our exposure to fluctuations in interest rates primarily through the use of fixed-rate debt and interest rate swap and cap agreements. As of June 30, 2018, we had total mortgage and other notes payable of $1,472.9 million, excluding the unamortized premium of $0.8 million of $12.4 million, of which $993.4 million, or 67.0% was fixed-rate, inclusive of debt with rates fixed through the use of derivative financial instruments, and $479.5 million, or 33.0%, was variable-rate based upon LIBOR or Prime rates plus certain spreads. As of June 30, 2018, we were party to 27 interest rate swap and three interest rate cap agreements to hedge our exposure to changes in interest rates with respect to $589.3 million and $143.8 million of LIBOR-based variable-rate debt, respectively.

The following table sets forth information as of June 30, 2018 concerning our long-term debt obligations, including principal cash flows by scheduled maturity and weighted average interest rates of maturing amounts (dollars in millions):

In 2018, $50.8 million of our total consolidated debt and $7.3 million of our pro-rata share of unconsolidated outstanding debt will become due. In addition, $207.9 million of our total consolidated debt and $1.0 million of our pro-rata share of unconsolidated debt will become due in 2019. As we intend on refinancing some or all of such debt at the then-existing market interest rates, which may be greater than the current interest rate, our interest expense would increase by approximately $2.6 million annually if the interest rate on the refinanced debt increased by 100 basis points. After giving effect to noncontrolling interests, our share of this increase would be $0.6 million. Interest expense on our variable-rate debt of $479.5 million, net of variable to fixed-rate swap agreements currently in effect, as of June 30, 2018, would increase $4.8 million if LIBOR increased by 100 basis points. After giving effect to noncontrolling interests, our share of this increase would be $1.0 million. We may seek additional variable-rate financing if and when pricing and other commercial and financial terms warrant. As such, we would consider hedging against the interest rate risk related to such additional variable-rate debt through interest rate swaps and protection agreements, or other means.

Based on our outstanding debt balances as of June 30, 2018, the fair value of our total consolidated outstanding debt would decrease by approximately $15.4 million if interest rates increase by 1%. Conversely, if interest rates decrease by 1%, the fair value of our total outstanding debt would increase by approximately $13.9 million.

As of June 30, 2018, and December 31, 2017, we had consolidated notes receivable of $109.2 million and $153.8 million, respectively. We determined the estimated fair value of our notes receivable by discounting future cash receipts utilizing a discount rate equivalent to the rate at which similar notes receivable would be originated under conditions then existing.

Based on our outstanding notes receivable balances as of June 30, 2018, the fair value of our total outstanding notes receivable would decrease by approximately $1.5 million if interest rates increase by 1%. Conversely, if interest rates decrease by 1%, the fair value of our total outstanding notes receivable would increase by approximately $1.5 million.

Summarized Information as of December 31, 2017

As of December 31, 2017, we had total mortgage and other notes payable of $1,438.4 million, excluding the unamortized premium of $0.9 million and unamortized loan costs of $14.8 million, of which $899.7 million, or 62.5% was fixed-rate, inclusive of interest rate swaps, and $538.7 million, or 37.5%, was variable-rate based upon LIBOR plus certain spreads. As of December 31, 2017, we were party to 27 interest rate swap and four interest rate cap agreements to hedge our exposure to changes in interest rates with respect to $504.0 million and $141.1 million of LIBOR-based variable-rate debt, respectively.

Interest expense on our variable-rate debt of $538.7 million as of December 31, 2017, would have increased $5.4 million if LIBOR increased by 100 basis points. Based on our outstanding debt balances as of December 31, 2017, the fair value of our total outstanding debt would have decreased by approximately $15.9 million if interest rates increased by 1%. Conversely, if interest rates decreased by 1%, the fair value of our total outstanding debt would have increased by approximately $17.3 million.

Changes in Market Risk Exposures from December 31, 2017 to June 30, 2018

As a percentage of our overall debt, our interest rate risk exposure has decreased as our variable-rate debt accounted for 37.5% of our consolidated debt as of December 31, 2017 compared to 33.0% as of June 30, 2018.
