Table of Contents

BORGWARNER INC. AND CONSOLIDATED SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(1) Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements of BorgWarner Inc. and Consolidated Subsidiaries (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes necessary for a comprehensive presentation of financial position, results of operations and cash flow activity required by GAAP for complete financial statements. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of results have been included. Operating results for the three and six months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. The balance sheet as of December 31, 2014 was derived from the audited financial statements as of that date. For further information, refer to the Consolidated Financial Statements and Footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and accompanying notes, as well as, the amounts of revenues and expenses reported during the periods covered by those financial statements and accompanying notes. Actual results could differ from these estimates.

(2) Research and Development Expenditures

The Company's net Research & Development ("R&D") expenditures are included in selling, general and administrative expenses of the Condensed Consolidated Statements of Operations. Customer reimbursements are netted against gross R&D expenditures as they are considered a recovery of cost. Customer reimbursements for prototypes are recorded net of prototype costs based on customer contracts, typically either when the prototype is shipped or when it is accepted by the customer. Customer reimbursements for engineering services are recorded when performance obligations are satisfied in accordance with the contract and accepted by the customer. Financial risks and rewards transfer upon shipment, acceptance of a prototype component by the customer or upon completion of the performance obligation as stated in the respective customer agreement.

The following table presents the Company's gross and net expenditures on R&D activities:

	Three Months Ended June 30,		Six Months Ended June 30,	
(in millions)	2015	2014	2015	2014
Gross R&D expenditures	$94.2	$101.5	$186.6	$196.0
Customer reimbursements	(14.1)	(11.4)	(31.1)	(23.9)
Net R&D expenditures	$80.1	$90.1	$155.5	$172.1

The Company has contracts with several customers at the Company's various R&D locations. No such contract exceeded 5% of annual net R&D expenditures in any of the periods presented.

Table of Contents

(3) Other Expense, net

Items included in other expense, net consist of:

	Three Months Ended June 30,		Six Months Ended June 30,	
(in millions)	2015	2014	2015	2014
Restructuring expense	$19.9	$15.0	$32.0	$54.5
Gain on previously held equity interest	—	—	(10.8)	—
Other income	(0.8)	(4.0)	(0.9)	(4.7)
Other expense, net	$19.1	$11.0	$20.3	$49.8

During the first half of 2015 and 2014, the Company recorded restructuring expense of $32.0 million and $54.5 million, respectively. This expense relates to Drivetrain and Engine segment actions designed to improve future profitability and competitiveness, as well as a global realignment plan intended to enhance treasury management flexibility. See the Restructuring footnote to the Condensed Consolidated Financial Statements for further discussion of these expenses.

During the first quarter of 2015, the Company completed the purchase of the remaining 51% of BERU Diesel Start Systems Pvt. Ltd. ("BERU Diesel") by acquiring the shares of its former joint venture partner. As a result of this transaction, the Company recorded a $10.8 million gain on the previously held equity interest in this joint venture. See the Recent Transactions footnote to the Condensed Consolidated Financial Statements for further discussion of this acquisition.

(4) Income Taxes

The Company's provision for income taxes is based upon an estimated annual tax rate for the year applied to federal, state and foreign income. On a quarterly basis, the annual effective tax rate is adjusted, as appropriate, based upon changed facts and circumstances, if any, as compared to those forecasted at the beginning of the fiscal year and each interim period thereafter.

At June 30, 2015, the Company's effective tax rate for the first six months was 30.6%. This rate includes tax expense of $10.3 million related to a global realignment plan, offset by tax benefits of $3.9 million related to tax settlements, $3.7 million primarily related to foreign tax incentives and $3.4 million related to restructuring expense as discussed in the Other Expense, net footnote to the Condensed Consolidated Financial Statements.

At June 30, 2014, the Company's effective tax rate for the first six months was 29.5%, which includes tax benefits of $10.5 million related to restructuring expense discussed in the Other Expense, net footnote to the Condensed Consolidated Financial Statements.

The annual effective tax rates differ from the U.S. statutory rate primarily due to foreign rates which differ from those in the U.S., the realization of certain business tax credits, including foreign tax credits, and favorable permanent differences between book and tax treatment for certain items, including equity in affiliates' earnings.

Table of Contents

(5) Inventories, net

Inventories are valued at the lower of cost or market. The cost of U.S. inventories is determined by the last-in, first-out ("LIFO") method, while the operations outside the U.S. use the first-in, first-out ("FIFO") or average-cost methods. Inventories consisted of the following:

(in millions)	June 30, 2015	December 31, 2014
Raw material and supplies	$325.5	$319.5
Work in progress	87.7	89.0
Finished goods	130.9	115.5
FIFO inventories	544.1	524.0
LIFO reserve	(18.4)	(18.3)
Inventories, net	$525.7	$505.7

(6) Property, Plant and Equipment, net

(in millions)	June 30, 2015	December 31, 2014
Land, land use rights and buildings	$772.1	$784.8
Machinery and equipment	1,912.8	1,940.3
Capital leases	9.1	8.4
Construction in progress	373.7	310.4
Total property, plant and equipment, gross	3,067.7	3,043.9
Less: accumulated depreciation	(1,042.7)	(1,076.8)
Property, plant and equipment, net, excluding tooling	2,025.0	1,967.1
Tooling, net of amortization	135.5	126.8
Property, plant and equipment, net	$2,160.5	$2,093.9

As of June 30, 2015 and December 31, 2014, accounts payable of $58.3 million and $58.4 million, respectively, were related to property, plant and equipment purchases.

Interest costs capitalized for the six months ended June 30, 2015 and 2014 were $7.7 million and $7.0 million, respectively.

(7) Product Warranty

The Company provides warranties on some, but not all, of its products. The warranty terms are typically from one to three years. Provisions for estimated expenses related to product warranty are made at the time products are sold. These estimates are established using historical information about the nature, frequency and average cost of warranty claim settlements as well as product manufacturing and industry developments and recoveries from third parties. Management actively studies trends of warranty claims and takes action to improve product quality and minimize warranty claims. Management believes that the warranty accrual is appropriate; however, actual claims incurred could differ from the original estimates, requiring adjustments to the accrual.

Table of Contents

The following table summarizes the activity in the product warranty accrual accounts:

(in millions)	2015	2014
Beginning balance, January 1	$132.0	$72.7
Provisions	12.7	15.9
Acquisition*	(17.1)	64.9
Payments	(28.9)	(16.9)
Translation adjustment	(7.9)	—
Ending balance, June 30	$90.8	$136.6

* The 2014 acquisition relates to the Company's 2014 purchase of Gustav Wahler GmbH u. Co. KG and its general partner. In the fourth quarter of 2014, a measurement period adjustment of $42.1 million was made to increase the fair value of the warranty liability at the acquisition date, see Note 7 "Product Warranty" to the Company's Annual Report on Form 10-K for the year ended December 31, 2014 for additional details. In the second quarter of 2015, the Company settled a significant warranty claim associated with a product issue that pre-dated the Company's acquisition of Gustav Wahler GmbH u. Co. KG. Including the impact of the reversal of a corresponding receivable, this settlement had an immaterial impact on the Condensed Consolidated Balance Sheet at June 30, 2015 and Condensed Consolidated Statements of Operations for the three and six months ended June 30, 2015.

The product warranty liability is classified in the Condensed Consolidated Balance Sheets as follows:

(in millions)	June 30, 2015	December 31, 2014
Accounts payable and accrued expenses	$43.9	$91.9
Other non-current liabilities	46.9	40.1
Total product warranty liability	$90.8	$132.0

(8) Notes Payable and Long-Term Debt

As of June 30, 2015 and December 31, 2014, the Company had short-term and long-term debt outstanding as follows:

(in millions)	June 30, 2015	December 31, 2014
Short-term debt		
Short-term borrowings	$60.3	$601.2
Long-term debt		
5.75% Senior notes due 11/01/16 ($150 million par value)	$149.8	$149.8
8.00% Senior notes due 10/01/19 ($134 million par value)	134.0	134.0
4.625% Senior notes due 09/15/20 ($250 million par value)	248.5	248.4
3.375% Senior notes due 03/15/25 ($500 million par value)	499.0	—
7.125% Senior notes due 02/15/29 ($121 million par value)	119.5	119.4
4.375% Senior notes due 03/15/45 ($500 million par value)	498.4	—
Term loan facilities and other	84.2	75.1
Unamortized portion of debt derivatives	10.1	12.1
Total long-term debt	1,743.5	738.8
Less: current portion	11.8	22.5
Long-term debt, net of current portion	$1,731.7	$716.3

Table of Contents

The weighted average interest rate on short-term borrowings outstanding as of June 30, 2015 and December 31, 2014 was 1.9% and 0.8%, respectively. The weighted average interest rate on all borrowings outstanding as of June 30, 2015 and December 31, 2014 was 4.7% and 2.9%, respectively.

On March 16, 2015, BorgWarner Inc. issued $500 million in 3.375% senior notes due March 2025 and $500 million in 4.375% senior notes due March 2045. Interest is payable semi-annually in arrears on March 15 and September 15 of each year, beginning on September 15, 2015.

The Company has a $1 billion multi-currency revolving credit facility which includes a feature that allows the Company's borrowings to be increased to $1.25 billion. The facility provides for borrowings through June 30, 2019. The Company has one key financial covenant as part of the credit agreement which is a debt to EBITDA ("Earnings Before Interest, Taxes, Depreciation and Amortization") ratio. The Company was in compliance with the financial covenant at June 30, 2015 and expects to remain compliant in future periods. At June 30, 2015 and December 31, 2014, the Company had no outstanding borrowings under this facility.

The Company's commercial paper program allows the Company to issue short-term, unsecured commercial paper notes up to a maximum aggregate principal amount outstanding of $1 billion. Under this program, the Company may issue notes from time to time and will use the proceeds for general corporate purposes. The Company had no borrowings outstanding under this program at June 30, 2015. At December 31, 2014, the Company had outstanding borrowings of $460.9 million under this program, which is classified in the Condensed Consolidated Balance Sheets in Notes payable and other short-term debt.

The total current combined borrowing capacity under the multi-currency revolving credit facility and commercial paper program cannot exceed $1 billion.

As of June 30, 2015 and December 31, 2014, the estimated fair values of the Company’s senior unsecured notes totaled $1,702.1 million and $750.3 million, respectively. The estimated fair values were $52.9 million and $98.7 million higher than their carrying value at June 30, 2015 and December 31, 2014, respectively. Fair market values of the senior unsecured notes are developed using observable values for similar debt instruments, which are considered Level 2 inputs as defined by ASC Topic 820. The carrying values of the Company's multi-currency revolving credit facility and commercial paper program approximates fair value. The fair value estimates do not necessarily reflect the values the Company could realize in the current markets.

The Company had outstanding letters of credit of $32.2 million and $28.3 million at June 30, 2015 and December 31, 2014, respectively. The letters of credit typically act as guarantees of payment to certain third parties in accordance with specified terms and conditions.

(9) Fair Value Measurements

ASC Topic 820 emphasizes that fair value is a market-based measurement, not an entity specific measurement. Therefore, a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering market participant assumptions in fair value measurements, ASC Topic 820 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values as follows:

Level 1: Observable inputs such as quoted prices for identical assets or liabilities in active markets;
Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3:	Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Table of Contents

Assets and liabilities measured at fair value are based on one or more of the following three valuation techniques noted in ASC Topic 820:

A. Market approach: Prices and other relevant information generated by market transactions involving identical or comparable assets, liabilities or a group of assets or liabilities, such as a business.
B. Cost approach: Amount that would be required to replace the service capacity of an asset (replacement cost).
C. Income approach: Techniques to convert future amounts to a single present amount based upon market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables classify assets and liabilities measured at fair value on a recurring basis as of June 30, 2015 and December 31, 2014:

		Basis of fair value measurements			
(in millions)	Balance at June 30, 2015	Quoted prices in active markets for identical items (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Valuation technique
Assets:					
Foreign currency contracts	$6.1	$—	$6.1	$—	A
Other long-term receivables (insurance settlement agreement note receivable)	$90.7	$—	$90.7	$—	C
Liabilities:					
Foreign currency contracts	$3.1	$—	$3.1	$—	A
Commodity contracts	$0.1	$—	$0.1	$—	A

		Basis of fair value measurements			
(in millions)	Balance at December 31, 2014	Quoted prices in active markets for identical items (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Valuation technique
Assets:					
Foreign currency contracts	$3.8	$—	$3.8	$—	A

(10) Financial Instruments

The Company’s financial instruments include cash and marketable securities. Due to the short-term nature of these instruments, their book value approximates their fair value. The Company’s financial instruments may include long-term debt, interest rate and cross-currency swaps, commodity derivative contracts and foreign currency derivatives. All derivative contracts are placed with counterparties that have an S&P, or equivalent, investment grade credit rating at the time of the contracts’ placement. At June 30, 2015 and December 31, 2014, the Company had no derivative contracts that contained credit risk related contingent features.

12

Table of Contents

The Company uses certain commodity derivative contracts to protect against commodity price changes related to forecasted raw material and supplies purchases. The Company primarily utilizes forward and option contracts, which are designated as cash flow hedges. At June 30, 2015, the following commodity derivative contracts were outstanding:

	Commodity derivative contracts		
Commodity	Volume hedged June 30, 2015	Units of measure	Duration
Copper	439.0	Metric Tons	Dec -16

The Company uses foreign currency forward and option contracts to protect against exchange rate movements for forecasted cash flows, including capital expenditures, purchases, operating expenses or sales transactions designated in currencies other than the functional currency of the operating unit. Foreign currency derivative contracts require the Company, at a future date, to either buy or sell foreign currency in exchange for the operating units' local currency.

At June 30, 2015 and December 31, 2014, the following foreign currency derivative contracts were outstanding:
Foreign currency derivatives (in millions)

Functional currency	Traded currency	Notional in traded currency June 30, 2015	Notional in traded currency December 31, 2014	Duration
Chinese yuan	Euro	33.2	—	Jun - 16
Chinese yuan	US dollar	20.0	24.9	Dec - 16
Euro	British pound	2.9	5.7	Dec - 15
Euro	Japanese yen	2,582.0	4,371.8	Feb - 16
Euro	US dollar	32.1	23.5	Dec - 16
Japanese yen	Chinese yuan	45.4	88.6	Dec - 15
Japanese yen	Korean won	3,290.0	6,712.5	Dec - 15
Japanese yen	US dollar	2.0	3.8	Dec - 15
Korean won	Euro	5.1	2.5	Dec - 15
Korean won	Japanese yen	440.1	72.0	Dec - 15
Korean won	US dollar	11.4	22.7	Dec - 15
Mexican peso	US dollar	6.0	22.6	Dec - 15
Swedish krona	Euro	15.9	31.4	Dec - 15

At June 30, 2015 and December 31, 2014, the following amounts were recorded in the Condensed Consolidated Balance Sheets as being payable to or receivable from counterparties under ASC Topic 815:

	Assets			Liabilities		
(in millions)	Location	June 30, 2015	December 31, 2014	Location	June 30, 2015	December 31, 2014
Foreign currency	Prepayments and other current assets	$6.0	$3.7	Accounts payable and accrued expenses	$3.1	$2.4
	Other non-current assets	$0.1	$0.1	Other non-current liabilities	$—	$0.5
Commodity	Prepayments and other current assets	$—	$—	Accounts payable and accrued expenses	$0.1	$—

Effectiveness for cash flow and net investment hedges is assessed at the inception of the hedging relationship and quarterly, thereafter. To the extent that derivative instruments are deemed to be effective, gains and losses arising from these contracts are deferred into accumulated other comprehensive income (loss) ("AOCI") and reclassified into income as the underlying operating transactions are recognized. These

Table of Contents

realized gains or losses offset the hedged transaction and are recorded on the same line in the statement of operations. To the extent that derivative instruments are deemed to be ineffective, gains or losses are recognized into income.

The table below shows deferred gains (losses) reported in AOCI as well as the amount expected to be reclassified to income in one year or less. The amount expected to be reclassified to income in one year or less assumes no change in the current relationship of the hedged item at June 30, 2015 market rates.

(in millions)	Deferred gain (loss) in AOCI at		Gain (loss) expected to be reclassified to income in one year or less
Contract Type	June 30, 2015	December 31, 2014	
Foreign currency	$3.1	$1.3	$3.0
Commodity	(0.1)	—	(0.1)
Net investment hedges	0.2	0.2	—
Total	$3.2	$1.5	$2.9

Derivative instruments designated as hedging instruments as defined by ASC Topic 815 held during the period resulted in the following gains and losses recorded in income:

(in millions)		Gain (loss) reclassified from AOCI to income (effective portion) Three Months Ended			Gain (loss) recognized in income (ineffective portion) Three Months Ended	
Contract Type	Location	June 30, 2015	June 30, 2014	Location	June 30, 2015	June 30, 2014
Foreign currency	Sales	$—	$1.0	SG&A expense	$(0.1)	$0.1
Foreign currency	Cost of goods sold	$2.3	$(1.0)	SG&A expense	$—	$—
Foreign currency	SG&A expense	$—	$(0.1)	SG&A expense	$—	$—

(in millions)		Gain (loss) reclassified from AOCI to income (effective portion) Six Months Ended			Gain (loss) recognized in income (ineffective portion) Six Months Ended	
Contract Type	Location	June 30, 2015	June 30, 2014	Location	June 30, 2015	June 30, 2014
Foreign currency	Sales	$(0.3)	$1.3	SG&A expense	$(0.4)	$0.1
Foreign currency	Cost of goods sold	$3.8	$(1.8)	SG&A expense	$0.1	$0.1
Foreign currency	SG&A expense	$—	$(0.4)	SG&A expense	$—	$—
Cross-currency swap	N/A			Interest expense	$—	$0.7

At June 30, 2015, derivative instruments that were not designated as hedging instruments as defined by ASC Topic 815 were immaterial.

(11) Retirement Benefit Plans

The Company has a number of defined benefit pension plans and other postretirement benefit plans covering eligible salaried and hourly employees and their dependents. The estimated contributions to the Company's defined benefit pension plans for 2015 range from $15.0 million to $25.0 million, of which $9.8 million has been contributed through the first six months of the year. The other postretirement benefit plans, which provide medical and life insurance benefits, are unfunded plans.

Table of Contents

The components of net periodic benefit cost recorded in the Condensed Consolidated Statements of Operations are as follows:

(in millions)	Pension benefits				Other postretirement employee benefits	
	2015		2014			
Three Months Ended June 30,	US	Non-US	US	Non-US	2015	2014

Net periodic benefit (income) cost	$(0.2)	$5.5	$0.3	$7.5	$1.6	$1.6

(12) Stock-Based Compensation

Under the Company's 2004 Stock Incentive Plan ("2004 Plan"), the Company granted options to purchase shares of the Company's common stock at the fair market value on the date of grant. The options vested over periods of up to three years and have a term of 10 years from date of grant. At its November 2007 meeting, the Company's Compensation Committee decided that restricted common stock awards and stock units ("restricted stock") would be awarded in place of stock options for long-term incentive award grants to employees. Restricted stock granted to employees primarily vests 50% after two years and the remainder after three years from the date of grant. Restricted stock granted to non-employee directors generally vests on the first anniversary date of the grant. In February 2014, the Company's Board of Directors replaced the expired 2004 Plan by adopting the BorgWarner Inc. 2014 Stock Incentive Plan ("2014 Plan"). On April 30, 2014, the Company's stockholders approved the 2014 Plan. Under the 2014 Plan, 8 million shares are authorized for grant, of which approximately 7.0 million shares are available for future issuance as of June 30, 2015.

Table of Contents

Stock options A summary of the Company's stock option activity for the six months ended June 30, 2015 is as follows:

	Shares under option (thousands)	Weighted average exercise price	Weighted average remaining contractual life (in years)	Aggregate intrinsic value (in millions)
Outstanding and exercisable at December 31, 2014	1,714	$16.11	1.7	$66.5
Exercised	(251)	$14.72		
Outstanding and exercisable at March 31, 2015	1,463	$16.35	1.5	$64.6
Exercised	(103)	$14.66		
Outstanding and exercisable at June 30, 2015	1,360	$16.48	1.3	$54.9

Restricted stock The value of restricted stock is determined by the market value of the Company's common stock at the date of grant. In 2015, restricted stock in the amount of 669,754 shares and 16,983 shares was granted to employees and non-employee directors, respectively. The value of the awards is recorded as unearned compensation within capital in excess of par value in equity and is amortized as compensation expense over the restriction periods.

The Company recorded restricted stock compensation expense of $6.9 million and $14.2 million for the three and six months ended June 30, 2015, respectively, and $5.4 million and and $9.9 million for the three and six months ended June 30, 2014, respectively.

A summary of the Company's nonvested restricted stock for the six months ended June 30, 2015 is as follows:

	Shares subject to restriction (thousands)	Weighted average price
Nonvested at December 31, 2014	1,266	$43.57
Granted	563	$57.90
Vested	(568)	$38.35
Forfeited	(12)	$45.10
Nonvested at March 31, 2015	1,249	$52.49
Granted	124	$60.97
Vested	(20)	$61.79
Forfeited	(5)	$52.82
Nonvested at June 30, 2015	1,348	$53.15

Table of Contents

(14) Contingencies

In the normal course of business, the Company is party to various commercial and legal claims, actions and complaints, including matters involving warranty claims, intellectual property claims, general liability and various other risks. It is not possible to predict with certainty whether or not the Company will ultimately be successful in any of these commercial and legal matters or, if not, what the impact might be. The Company's environmental and product liability contingencies are discussed separately below. The Company's management does not expect that an adverse outcome in any of these commercial and legal claims, actions and complaints will have a material adverse effect on the Company's results of operations, financial position or cash flows, although it could be material to the results of operations in a particular quarter.

Litigation

In January 2006, BorgWarner Diversified Transmission Products Inc. ("DTP"), a subsidiary of the Company, filed a declaratory judgment action in United States District Court, Southern District of Indiana (Indianapolis Division) against the United Automobile, Aerospace, and Agricultural Implements Workers of America (“UAW”) Local No. 287 and Gerald Poor, individually and as the representative of a defendant class. DTP sought the Court's affirmation that DTP did not violate the Labor-Management Relations Act or the Employee Retirement Income Security Act (ERISA) by unilaterally amending certain medical plans effective April 1, 2006 and October 1, 2006, prior to the expiration of the then-current collective bargaining agreements. On September 10, 2008, the Court found that DTP's reservation of the right to make such amendments reducing the level of benefits provided to retirees was limited by its collectively bargained health insurance agreement with the UAW, which did not expire until April 24, 2009. Thus, the amendments were untimely. In 2008, the Company recorded a charge of $4.0 million as a result of the Court's decision.

DTP filed a declaratory judgment action in the United States District Court, Southern District of Indiana (Indianapolis Division) against the UAW Local No. 287 and Jim Barrett and others, individually and as representatives of a defendant class, on February 26, 2009 again seeking the Court's affirmation that DTP did not violate the Labor - Management Relations Act or ERISA by modifying the level of benefits provided retirees to make them comparable to other Company retiree benefit plans after April 24, 2009. Certain retirees, on behalf of themselves and others, filed a mirror-image action in the United States District Court, Eastern District of Michigan (Southern Division) on March 11, 2009, for which a class has been certified. During the last quarter of 2009, the action pending in Indiana was dismissed, while the action in Michigan is continuing. The Company is vigorously defending against the suit. This contingency is subject to many uncertainties, therefore based on the information available to date, the Company cannot reasonably estimate the amount or the range of potential loss, if any.

Environmental

The Company and certain of its current and former direct and indirect corporate predecessors, subsidiaries and divisions have been identified by the United States Environmental Protection Agency and certain state environmental agencies and private parties as potentially responsible parties (“PRPs”) at various hazardous waste disposal sites under the Comprehensive Environmental Response, Compensation and Liability Act (“Superfund”) and equivalent state laws and, as such, may presently be liable for the cost of clean-up and other remedial activities at 27 such sites. Responsibility for clean-up and other remedial activities at a Superfund site is typically shared among PRPs based on an allocation formula.

The Company believes that none of these matters, individually or in the aggregate, will have a material adverse effect on its results of operations, financial position or cash flows. Generally, this is because either the estimates of the

maximum potential liability at a site are not material or the liability will be shared with other PRPs, although no assurance can be given with respect to the ultimate outcome of any such matter.

Table of Contents

Based on information available to the Company (which in most cases includes: an estimate of allocation of liability among PRPs; the probability that other PRPs, many of whom are large, solvent public companies, will fully pay the cost apportioned to them; currently available information from PRPs and/or federal or state environmental agencies concerning the scope of contamination and estimated remediation and consulting costs; and remediation alternatives), the Company has an accrual for indicated environmental liabilities of $5.5 million and $6.2 million at June 30, 2015 and at December 31, 2014, respectively. The Company expects to pay out substantially all of the amounts accrued for environmental liability over the next five years.

In connection with the sale of Kuhlman Electric Corporation (“Kuhlman Electric”), the Company agreed to indemnify the buyer and Kuhlman Electric for certain environmental liabilities, then unknown to the Company, relating to certain operations of Kuhlman Electric that pre-date the Company's 1999 acquisition of Kuhlman Electric. The Company previously settled or obtained dismissals of various lawsuits that were filed against Kuhlman Electric and others, including the Company, on behalf of plaintiffs alleging personal injury relating to alleged environmental contamination at its Crystal Springs, Mississippi plant. The Company filed a lawsuit against Kuhlman Electric and a related entity challenging the validity of the indemnity and the defendants filed counterclaims and a related lawsuit. The Company may in the future become subject to further legal proceedings.

Product Liability

Like many other industrial companies who have historically operated in the U.S., the Company (or parties the Company is obligated to indemnify) continues to be named as one of many defendants in asbestos-related personal injury actions. We believe that the Company's involvement is limited because, in general, these claims relate to a few types of automotive products that were manufactured many years ago and contained encapsulated asbestos. The nature of the fibers, the encapsulation and the manner of use lead the Company to believe that these products are highly unlikely to cause harm. As of June 30, 2015 and December 31, 2014, the Company had approximately 12,000 and 13,300 pending asbestos-related product liability claims, respectively. The decrease in the pending claims is primarily a result of the Company's continued efforts to obtain dismissal of dormant claims.

The Company's policy is to vigorously defend against these lawsuits and the Company has been successful in obtaining dismissal of many claims without any payment. The nature of the historical product being encapsulated and the lifecycle of the product allow the Company to aggressively defend against these lawsuits. The Company expects that the vast majority of the pending asbestos-related product liability claims where it is a defendant (or has an obligation to indemnify a defendant) will result in no payment being made by the Company or its insurers. In the first six months of 2015, of the approximately 2,300 claims resolved, 187 (8%) resulted in payment being made to a claimant by or on behalf of the Company. In the full year of 2014, of the approximately 6,500 claims resolved, 397 (6%) resulted in payment being made to a claimant by or on behalf of the Company.

Prior to June 2004, the settlement and defense costs associated with all claims were paid by the Company's primary layer insurance carriers under a series of funding arrangements. In addition to the primary insurance available for asbestos-related claims, the Company has excess insurance coverage available for potential future asbestos-related product claims. In June 2004, primary layer insurance carriers notified the Company of the alleged exhaustion of their policy limits.

A declaratory judgment action was filed in January 2004 in the Circuit Court of Cook County, Illinois by Continental Casualty Company and related companies against the Company and certain of its historical general liability insurers. The court has issued a number of interim rulings and discovery is continuing. The Company has entered into settlement agreements with some of its insurance carriers, resolving their coverage disputes by agreeing to pay specified amounts to the Company. The Company is vigorously pursuing the litigation against the remaining insurers.

19

Table of Contents

In August 2013, the Los Angeles Superior Court entered a jury verdict against the Company in an asbestos-related personal injury action with damages of $35.0 million, of which $32.5 million were punitive and would not be recoverable through insurance. In July 2015, the Court of Appeal for the State of California issued a verdict striking the $32.5 million in punitive damages assessed by the Los Angeles Superior Court. The Company cannot predict the outcome of this pending litigation and therefore cannot reasonably estimate the amount of possible loss, if any, that could result from any future action.

To date, the Company has paid and accrued $365.2 million in defense and indemnity costs in advance of insurers' reimbursement and has received $195.9 million in cash and notes from insurers. The net balance of $169.3 million is expected to be fully recovered. Timing of recovery is dependent on final resolution of the declaratory judgment action referred to above or additional negotiated settlements. At December 31, 2014, insurers owed $141.9 million in association with these claims.

In addition to the $169.3 million net balance relating to past settlements and defense costs, the Company has estimated a liability of $113.0 million for claims asserted, but not yet resolved and their related defense costs at June 30, 2015. The Company also has a related asset of $113.0 million to recognize proceeds from the insurance carriers, which is expected to be fully recovered. Receipt of these proceeds is not expected prior to the resolution of the declaratory judgment action referred to above, which is expected to occur subsequent to June 30, 2016. At December 31, 2014, the comparable value of the accrued liability and associated insurance asset was $111.8 million.

The amounts recorded in the Condensed Consolidated Balance Sheets related to the estimated future settlement of existing claims are as follows:

(in millions)	June 30, 2015	December 31, 2014
Assets:		
Other non-current assets	$113.0	$111.8
Total insurance assets	$113.0	$111.8
Liabilities:		
Accounts payable and accrued expenses	$48.5	$47.4
Other non-current liabilities	64.5	64.4
Total accrued liabilities	$113.0	$111.8

The Company believes that its ultimate liability (i.e., the total of its indemnity or other claim dispositions plus legal related fees) cannot be reasonably estimated at this time in excess of amounts accrued. The Company's ability to reasonably estimate its liability has been significantly affected by, among other factors, the volatility of asbestos-related litigation in the United States, the significant number of co-defendants that have filed for bankruptcy, the magnitude and timing of co-defendant bankruptcy trust payments, the inherent uncertainty of future disease incidence and claiming patterns against the Company, and the impact of tort reform legislation that may be enacted at the state or federal levels. The Company’s ability to reasonably estimate its liability for asbestos-related claims may also be affected in the future by the new discovery of facts, changes in litigation, the impact of any possible tort reform, changes in assumptions regarding the number and nature of asbestos-related claims, the amount of any judgments over time, and changes in settlement/defense strategies. The Company reviews factors relevant to asbestos-related claims that have been, or may in the future, be asserted against it on an ongoing basis.

Table of Contents

(15) Restructuring

In the fourth quarter of 2013, the Company initiated actions primarily in the Drivetrain segment designed to improve future profitability and competitiveness. As a continuation of these actions, in 2014, the Company finalized severance agreements with two labor unions at separate facilities in Western Europe for approximately 350 employees. The Company recorded restructuring expense related to these facilities of $7.9 million and $15.2 million for the three and six months ended June 30, 2015, respectively, and $9.4 million and $44.8 million for the three and six months ended June 30, 2014, respectively. Included in this restructuring expense are employee termination benefits of $6.8 million and $13.2 million for the three and six months ended June 30, 2015, respectively, and $6.4 million and $38.5 million for the three and six months ended June 30, 2014, respectively. Also included is other restructuring expense of $1.1 million and $2.0 million for the three and six months ended June 30, 2015, respectively, and $3.0 million and $6.3 million for the three and six months ended June 30, 2014 respectively.

The Company expects negligible restructuring expense related to employee termination benefits to be incurred in the remainder of 2015 related to the Drivetrain segment. Cash payments for these restructuring activities are expected to be complete by the end of 2015.

In the second quarter of 2014, the Company initiated actions to improve the future profitability and competitiveness of Gustav Wahler GmbH u. Co. KG and its general partner ("Wahler") and recorded $3.1 million of employee termination benefits in the three and six months ended June 30, 2014. These termination benefits relate to approximately 60 employees in Germany, Brazil and China.

The Company recorded restructuring expense of $9.4 million and $12.1 million for the three and six months ended June 30, 2015, respectively, and $2.0 million and $3.1 million for the three and six months ended June 30, 2014, respectively, related to a global realignment plan intended to enhance treasury management flexibility by creating a legal entity structure that better aligns with the Company's business strategy.

Estimates of restructuring expense are based on information available at the time such charges are recorded. Due to the inherent uncertainty involved in estimating restructuring expenses, actual amounts paid for such activities may differ from amounts initially recorded. Accordingly, the Company may record revisions of previous estimates by adjusting previously established accruals.

Table of Contents

The following table displays a rollforward of the severance accruals recorded within the Company's Condensed Consolidated Balance Sheet and the related cash flow activity for the three and six months ended June 30, 2015 and 2014:

	Severance Accruals		
(in millions)	Drivetrain	Engine	Total
Balance at December 31, 2014	$41.9	$2.0	$43.9

(16) Earnings Per Share

The Company presents both basic and diluted earnings per share of common stock (“EPS”) amounts. Basic EPS is calculated by dividing net earnings attributable to BorgWarner Inc. by the weighted average shares of common stock outstanding during the reporting period. Diluted EPS is calculated by dividing net earnings attributable to BorgWarner Inc. by the weighted average shares of common stock and common equivalent stock outstanding during the reporting period.

The dilutive impact of stock-based compensation is calculated using the treasury stock method. The treasury stock method assumes that the Company uses the assumed proceeds from the exercise of awards to repurchase common stock at the average market price during the period. The assumed proceeds under the treasury stock method include the purchase price that the grantee will pay in the future, compensation cost for future service that the Company has not yet recognized and any windfall/(shortfall) tax benefits that would be credited/(debited) to capital in excess of par value when the award generates a tax deduction. Options are only dilutive when the average market price of the underlying common stock exceeds the exercise price of the options.

Table of Contents

The following table reconciles the numerators and denominators used to calculate basic and diluted earnings per share of common stock:

	Three Months Ended June 30,		Six Months Ended June 30,	
(in millions, except per share amounts)	2015	2014	2015	2014
Basic earnings per share:				
Net earnings attributable to BorgWarner Inc.	$148.1	$190.2	$327.0	$349.3
Weighted average shares of common stock outstanding	225.353	227.678	225.575	227.554
Basic earnings per share of common stock	$0.66	$0.84	$1.45	$1.54
Diluted earnings per share:				
Net earnings attributable to BorgWarner Inc.	$148.1	$190.2	$327.0	$349.3
Weighted average shares of common stock outstanding	225.353	227.678	225.575	227.554
Effect of stock-based compensation	1.262	1.992	1.277	1.945
Weighted average shares of common stock outstanding including dilutive shares	226.615	229.670	226.852	229.499
Diluted earnings per share of common stock	$0.65	$0.83	$1.44	$1.52

(17) Reporting Segments

The Company's business is comprised of two reporting segments: Engine and Drivetrain. These segments are strategic business groups, which are managed separately as each represents a specific grouping of related automotive components and systems.

The Company allocates resources to each segment based upon the projected after-tax return on invested capital ("ROIC") of its business initiatives. ROIC is comprised of Adjusted EBIT after deducting notional taxes compared to the projected average capital investment required. Adjusted EBIT is comprised of earnings before interest, income taxes and noncontrolling interest (“EBIT") adjusted for restructuring, goodwill impairment charges, affiliates' earnings and other items not reflective of on-going operating income or loss.

Adjusted EBIT is the measure of segment income or loss used by the Company. The Company believes Adjusted EBIT is most reflective of the operational profitability or loss of our reporting segments. The following tables show segment information and Adjusted EBIT for the Company's reporting segments.

Net Sales by Reporting Segment

	Three Months Ended June 30,		Six Months Ended June 30,	
(in millions)	2015	2014	2015	2014
Engine	$1,413.0	$1,497.5	$2,793.9	$2,909.6

(18) Recent Transactions

Remy International, Inc.

On July 13, 2015, the Company announced that it had entered into a definitive agreement to acquire Remy International, Inc. ("Remy") for $29.50 per share in cash, which implies an enterprise value of Remy of approximately $1.2 billion. Remy is a global market leading producer of rotating electrical components with key technologies and operations in ten countries. This acquisition is expected to strengthen the Company's position in the rapidly developing powertrain electrification trend. As of December 31, 2014, Remy employed approximately 6,600 people and, for the fiscal year, generated net sales of approximately $1.2 billion. The transaction is expected to close in the fourth quarter of 2015 subject to certain customary terms and conditions, including the approval of Remy's stockholders and antitrust and other regulatory clearances in the United States and abroad.

BERU Diesel Start Systems Pvt. Ltd.

In January 2015, the Company completed the purchase of the remaining 51% of BERU Diesel by acquiring the shares of its former joint venture partner. The former joint venture was formed in 1996 to develop and manufacture glow

plugs in India. After this transaction, the Company owns 100% of the entity. The cash paid, net of cash acquired, was $12.6 million (783.1 million Indian rupees).

Table of Contents

The operating results are reported within the Company's Engine reporting segment. The Company paid $12.6 million, which is recorded as an investing activity in the Company's Condensed Consolidated Statement of Cash Flows. As a result of this transaction, the Company recorded a $10.8 million gain on the previously held equity interest in this joint venture. Additionally, the Company acquired assets of $16.0 million, including $11.2 million in definite-lived intangible assets, and assumed liabilities of $4.6 million. The Company also recorded $13.9 million of goodwill, which is expected to be non-deductible for tax purposes.

Gustav Wahler GmbH u. Co KG

On February 28, 2014, the Company acquired 100% of the equity interests in Gustav Wahler GmbH u. Co. KG and its general partner ("Wahler"). Wahler was a producer of exhaust gas recirculation ("EGR") valves, EGR tubes and thermostats, and had operations in Germany, Brazil, the U.S., China and Slovakia. The cash paid, net of cash acquired was $110.5 million (80.1 million Euro).

The operating results and assets are reported within the Company's Engine reporting segment as of the date of the acquisition. The Company paid $110.5 million, which is recorded as an investing activity in the Company's Condensed Consolidated Statement of Cash Flows. Additionally, the Company assumed retirement-related liabilities of $3.2 million and assumed debt of $40.3 million, which are reflected in the supplemental cash flow information on the Company's Condensed Consolidated Statement of Cash Flows.

The following table summarizes the aggregated estimated fair value of the assets acquired and liabilities assumed on February 28, 2014, the date of acquisition:

(in millions)	
Receivables, net	$52.4
Inventories, net	46.8
Property, plant and equipment, net	55.3
Goodwill	74.6
Other intangible assets	42.7
Other assets and liabilities	(47.4)
Accounts payable and accrued expenses	(70.4)
Total consideration, net of cash acquired	154.0
Less: Assumed retirement-related liabilities	3.2
Less: Assumed debt	40.3
Cash paid, net of cash acquired	$110.5

In connection with the acquisition, the Company capitalized $24.9 million for customer relationships, $10.2 million for know-how, $4.1 million for patented technology and $3.5 million for the Wahler trade name. These intangible assets will be amortized over a period of 5 to 15 years. The income approach was used to determine the fair value of all intangible assets. Additionally, $56.9 million in goodwill is expected to be non-deductible for tax purposes.

Table of Contents

(19) New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." Under this guidance, investments measured at net asset value, as a practical expedient for fair value, are excluded from the fair value hierarchy. This guidance is effective for interim and annual reporting periods beginning after December 15, 2015. The Company is currently evaluating the impact this guidance will have on its Consolidated Financial Statements.

In April 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-03, "Simplifying the Presentation of Debt Issuance Costs," which changes the presentation of debt issuance costs in financial statements. Under this guidance such costs would be presented as a direct deduction from the related debt liability rather than as an asset. This guidance is effective for interim and annual reporting periods beginning after December 15, 2015. The Company is currently evaluating the impact this guidance will have on its Consolidated Balance Sheet, but expects that as of June 30, 2015 this guidance would result in the reduction of assets and liabilities by approximately $12 million.

In May 2014, the Financial Accounting Standards Board amended the Accounting Standards Codification to add Topic 606, "Revenue from Contracts with Customers," outlining a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and superseding most current revenue recognition guidance. This guidance is effective for interim and annual reporting periods beginning after December 15, 2017. The Company is currently evaluating the impact this guidance will have on its Consolidated Financial Statements.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

INTRODUCTION

BorgWarner Inc. and Consolidated Subsidiaries (the “Company”) is a leading global supplier of highly engineered automotive systems and components primarily for powertrain applications. Our products help improve vehicle performance, fuel efficiency, stability and air quality. These products are manufactured and sold worldwide, primarily to original equipment manufacturers (“OEMs”) of light vehicles (passenger cars, sport-utility vehicles ("SUVs"), vans and light trucks). The Company's products are also sold to other OEMs of commercial vehicles (medium-duty trucks, heavy-duty trucks and buses) and off-highway vehicles (agricultural and construction machinery and marine applications). We also manufacture and sell our products to certain Tier One vehicle systems suppliers and into the aftermarket for light, commercial and off-highway vehicles. The Company operates manufacturing facilities serving customers in the Americas, Europe and Asia and is an original equipment supplier to every major automotive OEM in the world.

The Company's products fall into two reporting segments: Engine and Drivetrain. The Engine segment's products include turbochargers, timing devices and chains, emissions systems and thermal systems. The Drivetrain segment's products include transmission components and systems and all-wheel drive torque management systems.

RESULTS OF OPERATIONS

Three Months Ended June 30, 2015 vs. Three Months Ended June 30, 2014

Net sales for the three months ended June 30, 2015 totaled $2,031.9 million, a 7.5% decrease from the three months ended June 30, 2014. Excluding the impact of weakening foreign currencies, primarily the Euro, net sales increased approximately 4%.

Cost of sales as a percentage of net sales increased to 78.9% in the three months ended June 30, 2015 from 78.5% in the three months ended June 30, 2014. Gross profit and gross margin were $429.0 million and 21.1% in the three months ended June 30, 2015 compared to $472.8 million and 21.5% in the three months ended June 30, 2014. The Company's material cost of sales was 50% to 55% of net sales in both the three months ended June 30, 2015 and 2014.

Selling, general and administrative ("SG&A") expenses for the three months ended June 30, 2015 decreased $13.8 million to $167.4 million from $181.2 million as compared to the three months ended June 30, 2014. SG&A as a percentage of net sales was 8.2% for both the three months ended June 30, 2015 and June 30, 2014. Research and development ("R&D") expenses, which are included in SG&A expenses, decreased $10.0 million to $80.1 million from $90.1 million as compared to the three months ended June 30, 2014. As a percentage of net sales, R&D expenses were 3.9% and 4.1% in the three months ended June 30, 2015 and 2014, respectively. Our continued investment in a number of cross-business R&D programs, as well as other key programs, is necessary for the Company’s short- and long-term growth.

Other expense, net of $19.1 million and $11.0 million for the three months ended June 30, 2015 and 2014, respectively, relates to $19.9 million and $15.0 million of restructuring expense associated with both the Drivetrain and Engine segments. The Drivetrain segment charges mostly represent a continuation of expenses associated with the first quarter 2014 finalization of severance agreements with two labor unions at separate facilities in Western Europe for approximately 350 employees. The Engine segment charges mainly relate to the 2014 restructuring of the Wahler acquisition. Both the Drivetrain and Engine restructuring actions are designed to improve the future profitability and competitiveness of each segment. The Company estimates that additional restructuring expense of approximately $13 million will be incurred over the next year related to the Drivetrain segment. Additionally, approximately $14 million

will be incurred over the next two years related to the Engine segment restructuring. Furthermore, the Company recorded $9.4 million and $2.0 million of restructuring expense for the three months ended June 30, 2015 and 2014, respectively,

Table of Contents

related to a global realignment plan intended to enhance treasury management flexibility by creating a legal entity structure that better aligns with the Company's business strategy.

Equity in affiliates' earnings of $11.1 million decreased $1.1 million as compared with the three months ended June 30, 2014 primarily due to lower earnings from the Company's 50% interest in NSK-Warner.

Interest expense and finance charges of $17.6 million increased $8.6 million as compared with the three months ended June 30, 2014 primarily due to the Company's March 2015 issuances of senior notes.

At June 30, 2015, the Company's effective tax rate for the first six months was 30.6%. This rate includes tax expense of $10.3 million related to a global realignment plan, offset by tax benefits of $3.9 million related to tax settlements, $3.7 million primarily related to foreign tax incentives and $3.4 million related to restructuring expense as discussed in the Other Expense, net footnote to the Condensed Consolidated Financial Statements. Excluding the impact of these non-comparable items, the Company has estimated its annual effective tax rate associated with ongoing operations to be approximately 29.5% for the year ending December 31, 2015.

At June 30, 2014, the Company's effective tax rate for the first six months was 29.5%, which included tax benefits of $10.5 million related to restructuring expense discussed in the Other Expense, net footnote to the Condensed Consolidated Financial Statements. Excluding the impact of this non-comparable item, the Company had estimated its annual effective tax rate associated with ongoing operations to be approximately 28.5% for the year ending December 31, 2014.

The Company's earnings per diluted share were $0.65 and $0.83 for the three months ended June 30, 2015 and 2014, respectively. The Company believes the following table is useful in highlighting non-comparable items that impacted its earnings per diluted share.

	Three Months Ended June 30, 2015	Three Months Ended June 30, 2014
Non-comparable items:		
Restructuring expense	$(0.08)	$(0.06)
Tax adjustments	(0.02)	—
Total impact of non-comparable items per share — diluted	$(0.10)	$(0.06)

Six Months Ended June 30, 2015 vs. Six Months Ended June 30, 2014

Net sales for the six months ended June 30, 2015 totaled $4,016.1 million, a 6.2% decrease from the six months ended June 30, 2014. Excluding the impact of weakening foreign currencies, primarily the Euro, the 2014 acquisition of Gustav Wahler GmbH u. Co. KG and its general partner ("Wahler") and the 2015 acquisition of BERU Diesel Start Systems Pvt. Ltd. ("BERU Diesel"), net sales increased approximately 4%.

Cost of sales as a percentage of net sales increased to 78.6% in the six months ended June 30, 2015 from 78.5% in the six months ended June 30, 2014. Gross profit and gross margin were $858.0 million and 21.4% in the six months ended June 30, 2015 compared to $918.6 million and 21.5% in the six months ended June 30, 2014. The Company's material cost of sales was 50% to 55% of net sales in both the six months ended June 30, 2015 and 2014.

SG&A expenses for the six months ended June 30, 2015 decreased $19.4 million to $335.6 million from $355.0 million as compared to the six months ended June 30, 2014. SG&A as a percentage of net sales was 8.4% for the six months ended June 30, 2015, up slightly from 8.3% for the six months ended June 30, 2014. Research and

development ("R&D") expenses, which are included in SG&A expenses, decreased $16.6 million to $155.5 million from $172.1 million as compared to the six months ended June 30, 2014. As a percentage of net sales, R&D expenses were 3.9% and 4.0% in the six months ended June 30, 2015 and

Table of Contents

2014, respectively. Our continued investment in a number of cross-business R&D programs, as well as other key programs, is necessary for the Company's short- and long-term growth.

Other expense, net of $20.3 million and $49.8 million for the six months ended June 30, 2015 and 2014, respectively, relates to $32.0 million and $54.5 million of restructuring expense associated with both the Drivetrain and Engine segments. The Drivetrain segment charges mostly represent a continuation of expenses associated with the first quarter 2014 finalization of severance agreements with two labor unions at separate facilities in Western Europe for approximately 350 employees. The Engine segment charges mainly relate to the 2014 restructuring of the Wahler acquisition. Both the Drivetrain and Engine restructuring actions are designed to improve the future profitability and competitiveness of each segment. The Company estimates that additional restructuring expense of approximately $13 million will be incurred over the next year related to the Drivetrain segment. Additionally, approximately $14 million will be incurred over the next two years related to the Engine segment restructuring. Furthermore, the Company recorded $12.1 million and $3.1 million of restructuring expense for the six months ended June 30, 2015 and 2014, respectively, related to a global realignment plan intended to enhance treasury management flexibility by creating a legal entity structure that better aligns with the Company's business strategy. The Company also recorded a $10.8 million gain on the previously held equity interest in BERU Diesel as a result of the first quarter 2015 acquisition.

Equity in affiliates' earnings of $19.6 million decreased $1.4 million as compared with the six months ended June 30, 2014 primarily due to lower earnings from the Company's 50% interest in NSK-Warner.

Interest expense and finance charges of $27.6 million increased $10.4 million as compared with the six months ended June 30, 2014 primarily due to the Company's March 2015 issuances of senior notes.

At June 30, 2015, the Company's effective tax rate for the first six months was 30.6%. This rate includes tax expense of $10.3 million related to a global realignment plan, offset by tax benefits of $3.9 million related to tax settlements, $3.7 million primarily related to foreign tax incentives and $3.4 million related to restructuring expense as discussed in the Other Expense, net footnote to the Condensed Consolidated Financial Statements. Excluding the impact of these non-comparable items, the Company has estimated its annual effective tax rate associated with ongoing operations to be approximately 29.5% for the year ending December 31, 2015.

At June 30, 2014, the Company's effective tax rate for the first six months was 29.5%, which included tax benefits of $10.5 million related to restructuring expense discussed in the Other Expense, net footnote to the Condensed Consolidated Financial Statements. Excluding the impact of this non-comparable item, the Company had estimated its annual effective tax rate associated with ongoing operations to be approximately 28.5% for the year ending December 31, 2014.

Table of Contents

The Company’s earnings per diluted share were $1.44 and $1.52 for the six months ended June 30, 2015 and 2014, respectively. The Company believes the following table is useful in highlighting non-comparable items that impacted its earnings per diluted share.

	Six Months Ended June 30, 2015	Six Months Ended June 30, 2014

Three Months Ended June 30, 2015 vs. Three Months Ended June 30, 2014

The Engine segment net sales decreased $84.5 million, or 5.6%, from the three months ended June 30, 2014. Excluding the impact of weakening foreign currencies, primarily the Euro, net sales increased approximately 7% from the three months ended June 30, 2014, primarily due to higher sales of turbochargers. The Engine segment Adjusted EBIT margin was 16.1% in both the three months ended June 30, 2015 and June 30, 2014.

The Drivetrain segment net sales decreased $81.8 million, or 11.5%, from the three months ended June 30, 2014. Excluding the impact of weakening foreign currencies, primarily the Euro, net sales decreased approximately 3% from the three months ended June 30, 2014, primarily due to lower sales of all-wheel drive systems. The Drivetrain segment Adjusted EBIT margin was 11.5% in the three months ended June 30, 2015 down from 12.6% in the three months ended June 30, 2014.

Six Months Ended June 30, 2015 vs. Six Months Ended June 30, 2014

The Engine segment net sales decreased $115.7 million, or 4.0%, from the six months ended June 30, 2014. Excluding the impact of weakening foreign currencies, primarily the Euro, the 2014 Wahler acquisition and the 2015 BERU Diesel acquisition, net sales increased approximately 7% from the six months ended June 30, 2014, primarily due to higher sales of turbochargers. The Engine segment Adjusted EBIT margin was 16.4% in the six months ended June 30, 2015 up slightly from 16.3% in the six months ended June 30, 2014.

The Drivetrain segment net sales decreased $151.3 million, or 10.9%, from the six months ended June 30, 2014. Excluding the impact of weakening foreign currencies, primarily the Euro, net sales decreased approximately 3% from the six months ended June 30, 2014, primarily due to lower sales of all-wheel drive systems. The Drivetrain segment Adjusted EBIT margin was 11.6% in the six months ended June 30, 2015 down from 12.2% in the six months ended June 30, 2014.

Outlook for 2015

Our overall outlook for 2015 is cautious. The Company expects weak global production growth, but strong net new business-related sales growth in 2015 due to rapid adoption of BorgWarner products around

Table of Contents

the world, partially offset by a stronger U.S. dollar, which would reduce the U.S. dollar value of its foreign currency-denominated sales.

The Company maintains a positive long-term outlook for its global business and is committed to new product development and strategic capital investments to enhance its product leadership strategy. The trends that are driving our long-term growth are expected to continue, including the growth of direct injection gasoline engines worldwide, the increased adoption of automated transmissions in Europe and Asia-Pacific, and the move to variable cam and chain engine timing systems in Europe and Asia-Pacific.

FINANCIAL CONDITION AND LIQUIDITY

The Company maintains various liquidity sources including cash and cash equivalents and the unused portion of our multi-currency revolving credit agreement. At June 30, 2015, the Company had $1,107.9 million of cash, of which $681.2 million of cash is held by our subsidiaries outside of the United States. Cash held by these subsidiaries is used to fund foreign operational activities and future investments, including acquisitions. The vast majority of cash held outside the United States is available for repatriation, however, doing so could result in increased foreign and U.S. federal, state and local income taxes. A deferred tax liability has been recorded for the portion of these funds anticipated to be repatriated to the United States. The Company uses its U.S. liquidity primarily for various corporate purposes, including but not limited to, debt service, share repurchases, dividend distributions and other corporate expenses.

On March 16, 2015, BorgWarner Inc. issued $500 million in 3.375% senior notes due March 2025 and $500 million in 4.375% senior notes due March 2045. Interest is payable semi-annually in arrears on March 15 and September 15 of each year, beginning on September 15, 2015. The Company intends to use the net proceeds from this offering for general corporate purposes, including, but not limited to, repurchasing shares of the Company's common stock pursuant to our previously announced $1 billion share repurchase program and repaying U.S. short-term debt. These senior notes are not guaranteed by any of BorgWarner Inc.'s subsidiaries.

The Company has a $1 billion multi-currency revolving credit facility which includes a feature that allows the Company's borrowings to be increased to $1.25 billion. The facility provides for borrowings through June 30, 2019. The Company has one key financial covenant as part of the credit agreement which is a debt to EBITDA ("Earnings Before Interest, Taxes, Depreciation and Amortization") ratio. The Company was in compliance with the financial covenant at June 30, 2015 and expects to remain compliant in future periods. At June 30, 2015 and December 31, 2014, the Company had no outstanding borrowings under this facility.

The Company's commercial paper program allows the Company to issue short-term, unsecured commercial paper notes up to a maximum aggregate principal amount outstanding of $1 billion. Under this program, the Company may issue notes from time to time and will use the proceeds for general corporate purposes. The Company had no borrowings outstanding under this program at June 30, 2015. At December 31, 2014, the Company had outstanding borrowings of $460.9 million under this program, which is classified in the Condensed Consolidated Balance Sheets in Notes payable and other short-term debt.

The total current combined borrowing capacity under the multi-currency revolving credit facility and commercial paper program cannot exceed $1 billion.

In addition to the credit facility, the Company's universal shelf registration has an unlimited amount of various debt and equity instruments that could be issued.

On February 11, 2015 and April 29, 2015, the Company's Board of Directors declared quarterly cash dividends of $0.13 per share of common stock. These dividends were paid in the six months ended June 30, 2015.

Table of Contents

The Company's net debt to net capital ratio was 15.6% at June 30, 2015 versus 12.8% at December 31, 2014.

From a credit quality perspective, the Company has a credit rating of Baa1 from Moody's and BBB+ from both Standard & Poor’s and Fitch Ratings. On March 5, 2015, Moody's upgraded the Company's credit rating from Baa2 to Baa1. The current outlook from Moody's, Standard & Poor’s and Fitch Ratings is stable. None of the Company’s debt agreements require accelerated repayment in the event of a downgrade in credit ratings.

Net cash provided by operating activities decreased $6.9 million to $319.3 million in the first six months of 2015 from $326.2 million in the first six months of 2014. The $6.9 million decrease primarily reflects lower net earnings adjusted for non-cash charges to operations, partially offset by improved working capital.

Net cash used in investing activities decreased $66.6 million to $295.1 million in the first six months of 2015 from $361.7 million in the first six months of 2014. This decrease is primarily due to the 2014 $106.4 million acquisition of Wahler, partially offset by the 2015 acquisition of BERU Diesel, and higher capital expenditures, including tooling outlays.

Net cash provided by financing activities was $322.1 million in the first six months of 2015 compared to net cash used by financing activities of $129.1 million in the first six months of 2014. This increase is primarily driven by the $1 billion issuance of senior notes in March 2015, partially offset by the decrease in notes payable.

We believe that the combination of cash from operations, cash balances, available credit facilities, and the universal shelf registration capacity will be sufficient to satisfy our cash needs for our current level of operations, our planned operations for the foreseeable future and our $1 billion share repurchase program. We will continue to balance our needs for internal growth, external growth, the return of capital to stockholders, debt reduction and cash conservation.

CONTINGENCIES

In the normal course of business, the Company is party to various commercial and legal claims, actions and complaints, including matters involving warranty claims, intellectual property claims, general liability and various other risks. It is not possible to predict with certainty whether or not the Company will ultimately be successful in any of these commercial and legal matters or, if not, what the impact might be. The Company's environmental and product liability contingencies are discussed separately below. The Company's management does not expect that an adverse outcome in any of these commercial and legal claims, actions and complaints will have a material adverse effect on the Company's results of operations, financial position or cash flows, although it could be material to the results of operations in a particular quarter.

Litigation

In January 2006, BorgWarner Diversified Transmission Products Inc. ("DTP"), a subsidiary of the Company, filed a declaratory judgment action in United States District Court, Southern District of Indiana (Indianapolis Division) against the United Automobile, Aerospace, and Agricultural Implements Workers of America (“UAW”) Local No. 287 and Gerald Poor, individually and as the representative of a defendant class. DTP sought the Court's affirmation that DTP did not violate the Labor-Management Relations Act or the Employee Retirement Income Security Act (ERISA) by unilaterally amending certain medical plans effective April 1, 2006 and October 1, 2006, prior to the expiration of the then-current collective bargaining agreements. On September 10, 2008, the Court found that DTP's reservation of the right to make such amendments reducing the level of benefits provided to retirees was limited by its collectively bargained

33

Table of Contents

health insurance agreement with the UAW, which did not expire until April 24, 2009. Thus, the amendments were untimely. In 2008, the Company recorded a charge of $4.0 million as a result of the Court's decision.

DTP filed a declaratory judgment action in the United States District Court, Southern District of Indiana (Indianapolis Division) against the UAW Local No. 287 and Jim Barrett and others, individually and as representatives of a defendant class, on February 26, 2009 again seeking the Court's affirmation that DTP did not violate the Labor - Management Relations Act or ERISA by modifying the level of benefits provided retirees to make them comparable to other Company retiree benefit plans after April 24, 2009. Certain retirees, on behalf of themselves and others, filed a mirror-image action in the United States District Court, Eastern District of Michigan (Southern Division) on March 11, 2009, for which a class has been certified. During the last quarter of 2009, the action pending in Indiana was dismissed, while the action in Michigan is continuing. The Company is vigorously defending against the suit. This contingency is subject to many uncertainties, therefore based on the information available to date, the Company cannot reasonably estimate the amount or the range of potential loss, if any.

Environmental

The Company and certain of its current and former direct and indirect corporate predecessors, subsidiaries and divisions have been identified by the United States Environmental Protection Agency and certain state environmental agencies and private parties as potentially responsible parties (“PRPs”) at various hazardous waste disposal sites under the Comprehensive Environmental Response, Compensation and Liability Act (“Superfund”) and equivalent state laws and, as such, may presently be liable for the cost of clean-up and other remedial activities at 27 such sites. Responsibility for clean-up and other remedial activities at a Superfund site is typically shared among PRPs based on an allocation formula.

The Company believes that none of these matters, individually or in the aggregate, will have a material adverse effect on its results of operations, financial position or cash flows. Generally, this is because either the estimates of the maximum potential liability at a site are not material or the liability will be shared with other PRPs, although no assurance can be given with respect to the ultimate outcome of any such matter.

Based on information available to the Company (which in most cases includes: an estimate of allocation of liability among PRPs; the probability that other PRPs, many of whom are large, solvent public companies, will fully pay the cost apportioned to them; currently available information from PRPs and/or federal or state environmental agencies concerning the scope of contamination and estimated remediation and consulting costs; and remediation alternatives), the Company has an accrual for indicated environmental liabilities of $5.5 million and $6.2 million at June 30, 2015 and at December 31, 2014, respectively. The Company expects to pay out substantially all of the amounts accrued for environmental liability over the next five years.

In connection with the sale of Kuhlman Electric Corporation (“Kuhlman Electric”), the Company agreed to indemnify the buyer and Kuhlman Electric for certain environmental liabilities, then unknown to the Company, relating to certain operations of Kuhlman Electric that pre-date the Company's 1999 acquisition of Kuhlman Electric. The Company previously settled or obtained dismissals of various lawsuits that were filed against Kuhlman Electric and others, including the Company, on behalf of plaintiffs alleging personal injury relating to alleged environmental contamination at its Crystal Springs, Mississippi plant. The Company filed a lawsuit against Kuhlman Electric and a related entity challenging the validity of the indemnity and the defendants filed counterclaims and a related lawsuit. The Company may in the future become subject to further legal proceedings.

Product Liability

Like many other industrial companies who have historically operated in the U.S., the Company (or parties the Company is obligated to indemnify) continues to be named as one of many defendants in asbestos-related personal injury actions. We believe that the Company's involvement is limited because, in general,

Table of Contents

these claims relate to a few types of automotive products that were manufactured many years ago and contained encapsulated asbestos. The nature of the fibers, the encapsulation and the manner of use lead the Company to believe that these products are highly unlikely to cause harm. As of June 30, 2015 and December 31, 2014, the Company had approximately 12,000 and 13,300 pending asbestos-related product liability claims, respectively. The decrease in the pending claims is primarily a result of the Company's continued efforts to obtain dismissal of dormant claims.

The Company's policy is to vigorously defend against these lawsuits and the Company has been successful in obtaining dismissal of many claims without any payment. The nature of the historical product being encapsulated and the lifecycle of the product allow the Company to aggressively defend against these lawsuits. The Company expects that the vast majority of the pending asbestos-related product liability claims where it is a defendant (or has an obligation to indemnify a defendant) will result in no payment being made by the Company or its insurers. In the first six months of 2015, of the approximately 2,300 claims resolved, 187 (8%) resulted in payment being made to a claimant by or on behalf of the Company. In the full year of 2014, of the approximately 6,500 claims resolved, 397 (6%) resulted in payment being made to a claimant by or on behalf of the Company.

Prior to June 2004, the settlement and defense costs associated with all claims were paid by the Company's primary layer insurance carriers under a series of funding arrangements. In addition to the primary insurance available for asbestos-related claims, the Company has excess insurance coverage available for potential future asbestos-related product claims. In June 2004, primary layer insurance carriers notified the Company of the alleged exhaustion of their policy limits.

A declaratory judgment action was filed in January 2004 in the Circuit Court of Cook County, Illinois by Continental Casualty Company and related companies against the Company and certain of its historical general liability insurers. The court has issued a number of interim rulings and discovery is continuing. The Company has entered into settlement agreements with some of its insurance carriers, resolving their coverage disputes by agreeing to pay specified amounts to the Company. The Company is vigorously pursuing the litigation against the remaining insurers.

In August 2013, the Los Angeles Superior Court entered a jury verdict against the Company in an asbestos-related personal injury action with damages of $35.0 million, of which $32.5 million were punitive and would not be recoverable through insurance. In July 2015, the Court of Appeal for the State of California issued a verdict striking the $32.5 million in punitive damages assessed by the Los Angeles Superior Court. The Company cannot predict the outcome of this pending litigation and therefore cannot reasonably estimate the amount of possible loss, if any, that could result from any future action.

To date, the Company has paid and accrued $365.2 million in defense and indemnity costs in advance of insurers' reimbursement and has received $195.9 million in cash and notes from insurers. The net balance of $169.3 million is expected to be fully recovered. Timing of recovery is dependent on final resolution of the declaratory judgment action referred to above or additional negotiated settlements. At December 31, 2014, insurers owed $141.9 million in association with these claims.

In addition to the $169.3 million net balance relating to past settlements and defense costs, the Company has estimated a liability of $113.0 million for claims asserted, but not yet resolved and their related defense costs at June 30, 2015. The Company also has a related asset of $113.0 million to recognize proceeds from the insurance carriers, which is expected to be fully recovered. Receipt of these proceeds is not expected prior to the resolution of the declaratory judgment action referred to above, which is expected to occur subsequent to June 30, 2016. At December 31, 2014, the comparable value of the accrued liability and associated insurance asset was $111.8 million.

35

Table of Contents

The amounts recorded in the Condensed Consolidated Balance Sheets related to the estimated future settlement of existing claims are as follows:

(in millions)	June 30, 2015	December 31, 2014
Assets:		
Other non-current assets	$113.0	$111.8
Total insurance assets	$113.0	$111.8
Liabilities:		
Accounts payable and accrued expenses	$48.5	$47.4
Other non-current liabilities	64.5	64.4
Total accrued liabilities	$113.0	$111.8

The Company believes that its ultimate liability (i.e., the total of its indemnity or other claim dispositions plus legal related fees) cannot be reasonably estimated at this time in excess of amounts accrued. The Company's ability to reasonably estimate its liability has been significantly affected by, among other factors, the volatility of asbestos-related litigation in the United States, the significant number of co-defendants that have filed for bankruptcy, the magnitude and timing of co-defendant bankruptcy trust payments, the inherent uncertainty of future disease incidence and claiming patterns against the Company, and the impact of tort reform legislation that may be enacted at the state or federal levels. The Company’s ability to reasonably estimate its liability for asbestos-related claims may also be affected in the future by the new discovery of facts, changes in litigation, the impact of any possible tort reform, changes in assumptions regarding the number and nature of asbestos-related claims, the amount of any judgments over time, and changes in settlement/defense strategies. The Company reviews factors relevant to asbestos-related claims that have been, or may in the future, be asserted against it on an ongoing basis.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." Under this guidance, investments measured at net asset value, as a practical expedient for fair value, are excluded from the fair value hierarchy. This guidance is effective for interim and annual reporting periods beginning after December 15, 2015. The Company is currently evaluating the impact this guidance will have on its Consolidated Financial Statements.

In April 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-03, "Simplifying the Presentation of Debt Issuance Costs," which changes the presentation of debt issuance costs in financial statements. Under this guidance such costs would be presented as a direct deduction from the related debt liability rather than as an asset. This guidance is effective for interim and annual reporting periods beginning after December 15, 2015. The Company is currently evaluating the impact this guidance will have on its Consolidated Balance Sheet, but expects that as of June 30, 2015 this guidance would result in the reduction of assets and liabilities by approximately $12 million.

In May 2014, the Financial Accounting Standards Board amended the Accounting Standards Codification to add Topic 606, "Revenue from Contracts with Customers," outlining a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and superseding most current revenue recognition guidance. This guidance is effective for interim and annual reporting periods beginning after December 15, 2017. The Company is currently evaluating the impact this guidance will have on its Consolidated Financial Statements.

Table of Contents

CAUTIONARY STATEMENTS FOR FORWARD-LOOKING STATEMENTS

Statements contained in this Form 10-Q (including Management's Discussion and Analysis of Financial Condition and Results of Operations) may contain forward-looking statements as contemplated by the 1995 Private Securities Litigation Reform Act (the “Act”) that are based on management's current outlook, expectations, estimates and projections. Words such as "anticipates," "believes," "continues," "could," "designed," "effect," "estimates," "evaluates," "expects," "forecasts," "goal," "initiative," "intends," "outlook," "plans," "potential," "project," "pursue," "seek," "should," "target," "when," "would," and variations of such words and similar expressions are intended to identify such forward-looking statements. All statements, other than statements of historical fact contained or incorporated by reference in this Form 10-Q, that we expect or anticipate will or may occur in the future regarding our financial position, business strategy and measures to implement that strategy, including changes to operations, competitive strengths, goals, expansion and growth of our business and operations, plans, references to future success and other such matters, are forward-looking statements. Accounting estimates, such as those described under the heading "Critical Accounting Policies" in Item 7 of our most recent Annual Report on Form 10-K, are inherently forward-looking. These statements are based on assumptions and analysis made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate in the circumstances. Forward-looking statements are not guarantees of performance and the Company's actual results may differ materially from those expressed, projected or implied in or by the forward-looking statements.

You should not place undue reliance on these forward-looking statements, which speak only as of the date of this Quarterly Report. Forward-looking statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond our control. Such risks and uncertainties include: the failure to complete or receive the anticipated benefits from BorgWarner’s acquisition of Remy International Inc. ("Remy"), the possibility that the parties may be unable to successfully integrate Remy’s operations with those of BorgWarner, that such integration may be more difficult, time-consuming or costly than expected, revenues following the transaction may be lower than expected, customer loss and business disruption (including, without limitation, difficulties in maintaining relationships with employees, customers, or suppliers) may be greater than expected following the transaction; the retention of key employees at Remy may not be achieved, the conditions to the completion of the transaction may not be satisfied, or the regulatory approvals required for the transaction may not be obtained on the terms expected or on the anticipated schedule, the failure to obtain Remy stockholder approval in a timely manner or otherwise, fluctuations in domestic or foreign vehicle production, the continued use by original equipment manufacturers of outside suppliers, fluctuations in demand for vehicles containing our products, changes in general economic conditions, as well as the other risks noted under Item 1A, “Risk Factors,” of our Annual Report on Form 10-K and in other reports that we file with the Securities and Exchange Commission. We do not undertake any obligation to update or announce publicly any updates to or revision to any of the forward-looking statements in this Form 10-Q to reflect any change in our expectations or any change in events, conditions, circumstances, or assumptions underlying the statements.

This section is intended to provide meaningful cautionary statements for purposes of the safe harbor provisions of the Act. This should not be construed as a complete list of all of the economic, competitive, governmental, technological and other factors that could adversely affect our expected consolidated financial position, results of operations or liquidity. Additional risks and uncertainties not currently known to us or that we currently believe are immaterial also may impair our business, operations, liquidity, financial condition and prospects.

Table of Contents

Item 3.Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to the information concerning our exposures to interest rate risk or commodity price risk as stated in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Foreign currency exchange rate risk is the risk that we will incur economic losses due to adverse changes in foreign currency exchange rates. Currently, our most significant currency exposures relate to the British Pound, the Chinese Yuan, the Euro, the Hungarian Forint, the Japanese Yen, the Mexican Peso, the Swedish Krona and the South Korean Won. We mitigate our foreign currency exchange rate risk by establishing local production facilities and related supply chain participants in the markets we serve, by invoicing customers in the same currency as the source of the products and by funding some of our investments in foreign markets through local currency loans. We also monitor our foreign currency exposure in each country and implement strategies to respond to changing economic and political environments. In addition, the Company periodically enters into forward currency contracts in order to reduce exposure to exchange rate risk related to transactions denominated in currencies other than the functional currency.

The foreign currency translation adjustment gains of $84.2 million and losses of $165.6 million for the three and six months ended June 30, 2015, respectively, and losses of $1.1 million and $3.8 million for the three and six months ended June 30, 2014, respectively, contained within our Condensed Consolidated Statements of Comprehensive Income represent the foreign currency translational impacts of converting our non-U.S. dollar subsidiaries financial statements to the Company's reporting currency (U.S. Dollar). The first half of 2015 foreign currency translation adjustment loss was primarily due to the impact of a strengthening U.S. dollar, which increased approximately 8% in relation to the Euro between December 31, 2014 and June 30, 2015. This 8% change in the Euro increased other comprehensive loss by approximately $166 million in the first half of 2015. The foreign currency translation adjustment gain of $84.2 million for the three months ended June 30,2015 was primarily due to the impact of a weakening U.S dollar, which decreased approximately 4% in relation to the Euro between March 31, 2015 and June 30, 2015. This 4% change in the Euro increased other comprehensive income by approximately $99 million in the three months ended June 30, 2015.

Item 4.Controls and Procedures

The Company maintains disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that these procedures are effective. There have been no changes in internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is subject to a number of claims and judicial and administrative proceedings (some of which involve substantial amounts) arising out of the Company's business or relating to matters for which the Company may have a contractual indemnity obligation. See Note 14 — Contingencies to the Condensed Consolidated Financial Statements for

a discussion of environmental, product liability and other litigation, which is incorporated herein by reference.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In February 2015, the Company's Board of Directors authorized the purchase of up to $1.0 billion of the Company's common stock over three years. The Company's Board of Directors has authorized the purchase of up to 69.6 million shares of the Company's common stock in the aggregate. As of June 30, 2015, the Company had repurchased 52,039,883 shares in the aggregate under the Common Stock Repurchase Program. All shares purchased under this authorization have been and will continue to be repurchased in the open market at prevailing prices and at times and in amounts to be determined by management as market conditions and the Company's capital position warrant. The Company may use Rule 10b5-1 and 10b-18 plans to facilitate share repurchases. Repurchased shares will be deemed common stock held in treasury and may subsequently be reissued for general corporate purposes.

Employee transactions include restricted shares withheld to offset statutory minimum tax withholding that occurs upon vesting of restricted shares. The BorgWarner Inc. Amended and Restated 2004 Stock Incentive Plan and the BorgWarner Inc. 2014 Stock Incentive Plan provide that the withholding obligations be settled by the Company retaining stock that is part of the Award. Withheld shares will be deemed common stock held in treasury and may subsequently be reissued for general corporate purposes.

The following table provides information about the Company's purchases of its equity securities that are registered pursuant to Section 12 of the Exchange Act during the quarter ended June 30, 2015:

Issuer Purchases of Equity Securities

Period	Total number of shares purchased	Average price per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares that may yet be purchased under the plans or programs
Month Ended April 30, 2015				
Common Stock Repurchase Program	381,660	$60.72	381,660	17,593,927
Employee transactions	1,282	$59.70	—	
Month Ended May 31, 2015				
Common Stock Repurchase Program	33,810	$59.14	33,810	17,560,117
Employee transactions	—	$—	—	
Month Ended June 30, 2015				
Common Stock Repurchase Program	—	$—	—	17,560,117
Employee transactions	—	$—	—
