Internet Gold's Subsidiary Acquires 50% of Nirshamim, One of Israel's Leading Academic Portal

Friday March 11, 2:00 am ET

PETACH TIKVA, Israel, March 11 /PRNewswire-FirstCall/ -- Internet Gold (NASDAQ: IGLD - News) today announced that its fully-owned subsidiary, GoldMind, has completed the acquisition of 50% of the shares of the Israeli portal Nirshamim (www.nirshamim.co.il). In addition, GoldMind has the option to acquire the remaining 50% of Nirshamim's shares by triggering a BMBY ("Buy Me Buy You") mechanism.

Nirshamim is one of Israel's leading academic portal servicing the university and post-university sector. The portal currently operates at "breakeven," generating revenues from advertising by educational institutions. By taking advantage of synergies with the Company's other portals MSN-Israel and START, together with its proven sales and marketing experience, the Company forecasts that it will be able to increase Nirshamim's revenues significantly in the short term, so that it will make a positive contribution to revenues and operating profits already in the second quarter of 2005.

"This acquisition is part of our strategy to become the leading player in Israel's e-advertising space, which we expect to grow significantly in the years ahead," said Mr. Doron Turgeman, Internet Gold's Deputy CEO. "During the past year, we have seen the beginning of a shift in advertising budgets away from traditional media like newspapers and billboards and towards interactive advertising. With more and more of the population 'connected' - and with younger segments actually spending more time online than watching TV or reading newspapers - we believe that e-advertising will grow to become a major component in all media strategies. We therefore are increasing our portal activities."

"With both MSN-Israel and startnet developing in accordance with our plans together with this acquisition, we are well positioned to benefit from the expected shift of university recruitment activities to the Internet. In the future, we will continue to look for new ways to benefit from the emergence of the Internet as a major media focus," concluded Mr.Turgeman.

About Internet Gold

Internet Gold is a communications company that provides Internet access and related value-added services, international telephony, e-advertising, content and e-Commerce services throughout Israel to both residential and business customers.

Internet Gold's operations are carried out through four subsidiaries. Through MSN Israel, its joint-venture (50.1% ownership) with Microsoft Corp., (49.9% ownership), the Company operates Israel's leading Internet portal. Its fully-owned subsidiary Internet Gold International specializes in the provision of international Internet and communication services. Its fully-owned subsidiary GoldMind focuses on the provision of Internet value-added services. Through GoldTrade, its fully-owned e-Commerce subsidiary, the Company has established itself as one of Israel's leading e-Commerce providers.
