(1) Inclusive of net assets attributable to Preferred Shares outstanding.

(2) PAST PERFORMANCE IS NO GUARANTEE OF FUTURE RESULTS. Total return is determined by subtracting the initial investment from the redeemable value at the end of the period and dividing the remainder by the initial investment and expressing the result as a percentage. The calculation assumes that all income dividends and capital gain distributions have been reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return does not reflect broker commissions or sales charges. Total return for a period greater than one year represents the average annual total return. Total return for a period of less than one year is not annualized.

An investment in the Fund involves risk, including the loss of principal. Investment return, price, yield and net asset value will fluctuate with changes in market conditions. This data is provided for information only and is not intended for trading purposes. A portion of the income generated by the Fund may be subject to federal, state and local taxes, and may at times be subject to the alternative minimum tax. Closed-end funds, unlike open-end funds, are not continuously offered. There is a one-time public offering and once issued, shares of closed-end funds are sold in the open market through a stock exchange. Net asset value is total assets applicable to common shareholders less total liabilities divided by the number of common shares outstanding. Holdings are subject to change daily.

(3) Market Price Yield is determined by dividing the annualized current monthly per share dividend payable to common shareholders by the market price per common share at November 30, 2003.

PIMCO MUNICIPAL INCOME FUNDS II NOTES TO FINANCIAL STATEMENTS November 30, 2003 (unaudited)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

PIMCO Municipal Income Fund II ("Municipal II"), PIMCO California Municipal Income Fund II ("California Municipal II") and PIMCO New York Municipal Income Fund II ("New York Municipal II") collectively referred to as the "Funds" or "PIMCO Municipal Income Funds II", were organized as Massachusetts business trusts on March 29, 2002. Prior to commencing operations on June 28, 2002, the Funds had no operations other than matters relating to their organization and registration as closed-end management investment companies registered under the Investment Company Act of 1940 and the rules and regulations thereunder, as amended, and the sale and issuance of 6,981 shares of beneficial interest of each Fund at an aggregate purchase price of \$100,003 per Fund to Allianz Dresdner Asset Management of America L.P., ("ADAM"). PIMCO Advisors Fund Management LLC, (the "Investment Manager"), serves as the Fund's Investment Manager and is an indirect, wholly-owned subsidiary of ADAM. ADAM is an indirect, majority-owned subsidiary of Allianz AG. The Funds have an unlimited amount of \$0.00001 par value common stock authorized.

Municipal II invests substantially all of its assets in a portfolio of municipal

Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSR/A

bonds, the interest from which is exempt from federal income taxes. California Municipal II invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal and California state income taxes. New York Municipal II invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal, New York State and New York City income taxes. The Funds will seek to avoid bonds generating interest income which could potentially subject individuals to alternative minimum tax. The issuers' abilities to meet their obligations may be affected by economic and political developments in a specific state or region.

Municipal II, California Municipal II and New York Municipal II issued 50,500,000, 26,000,000 and 9,000,000 shares of common stock, respectively, in their initial public offerings. An additional 7,001,148, 3,900,000 and 1,294,833 shares of Municipal II, California Municipal II and New York Municipal II, respectively, were issued in connection with the exercises of the underwriters' over-allotment option on July 15, 2002 and August 6, 2002. These shares were all issued at \$15.00 per share before an underwriting discount of \$0.675 per share. The Investment Manager agreed to reimburse the amount by which the aggregate of each Fund's organizational and common offering costs (other than sales load) exceeded \$0.03 per common share. Common offering costs of \$1,174,197, \$682,616 and \$308,845 (representing \$0.02 per common share for Municipal II and California Municipal II and \$0.03 per common share for New York Municipal II), were offset against the proceeds of the offerings and have been charged to paid-in capital in excess of par.

In addition, the underwriters discount and offering costs associated with the Funds' issuance of Preferred Shares in the amounts of \$5,050,000 and \$366,317, \$2,600,000 and \$269,348 and \$900,000 and \$149,609, for Municipal II, California Municipal II and New York Municipal II, respectively, have been charged to paid-in capital in excess of par.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

In the normal course of business the Funds enter into contracts that contain a variety of representations which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds based upon events that have not yet been asserted. However, the Funds expect the risk of any loss to be remote.

The following is a summary of significant accounting policies consistently followed by the Funds:

(a) VALUATION OF INVESTMENTS

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Debt securities are valued daily by an independent pricing service approved by the Board of Trustees. Prices may be obtained from independent pricing services which use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. The value of the Funds' investments is determined at the close of regular trading (normally, 4:00 p.m., Eastern Time) on the New York Stock Exchange ("NYSE") on each day the NYSE is open. Short term investments maturing in sixty days or less are valued at amortized cost, which approximates market value. Certain fixed income securities for which daily market quotations are not readily available may be valued, pursuant to guidelines established by the Board of Trustees, with reference to fixed income securities whose prices are more readily obtainable. The prices used by the Funds to value securities may differ from the value that

Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSR/A

would be realized if the securities were sold.

PIMCO MUNICIPAL INCOME FUNDS II NOTES TO FINANCIAL STATEMENTS
November 30, 2003 (unaudited)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) INVESTMENT TRANSACTIONS AND INVESTMENT INCOME

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Interest income is recorded on an accrual basis. Original issue discounts or premiums on debt securities purchased are accreted or amortized daily to non-taxable interest income. Market discount, if any, is accreted daily to taxable income.

(c) FEDERAL INCOME TAXES

The Funds intend to distribute all of their taxable income and to comply with the other requirements of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. In addition, by distributing substantially all of their taxable ordinary income and long-term capital gains, if any, during each calendar year, the Funds intend not to be subject to U.S. federal excise tax.

(d) DIVIDENDS AND DISTRIBUTIONS--COMMON STOCK

The Funds declare dividends from net investment income monthly to common shareholders. Distributions of net realized capital gains, if any, are paid at least annually. Each Fund records dividends and distributions to its shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. These "book-tax" differences are either considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment; temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes they are reported as dividends and/or distributions of paid-in capital in excess of par.

(e) FUTURES CONTRACTS

A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. Upon entering into such a contract, the Funds are required to pledge to the broker an amount of cash or securities equal to the minimum "initial margin" requirements of the exchange. Pursuant to the contracts, the Funds agree to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contracts. Such receipts or payments are known as "variation margin" and are recorded by the Funds as unrealized appreciation or depreciation. When the contracts are closed, the Funds record a realized gain or loss equal to the difference between the value of the contracts at the time they were opened and the value at the time they were closed. Any unrealized appreciation or depreciation recorded is simultaneously reversed. The use of futures transactions involves the risk of an

Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSR/A

imperfect correlation in the movements in the price of futures contracts, interest rates and the underlying hedged assets, and the possible inability of counterparties to meet the terms of their contracts.

(f) OPTION TRANSACTIONS

For hedging purposes, the Funds may purchase and write (sell) put and call options on municipal bonds, U.S. government securities, swap agreements, indexes or futures contracts which are standardized and traded on a U.S. or other exchange, boards of trade, or similar entity, or quoted on an automated quotation system. The risk associated with purchasing an option is that the Funds pay a premium whether or not the option is exercised. Additionally, the Funds bear the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from the securities sold through the exercise of put options is decreased by the premiums paid.

When an option is written, the premium received is recorded as an asset with an equal liability which is subsequently adjusted to the current market value of the option written. Premiums received from writing options which expire unexercised are recorded on the expiration date as a realized gain. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transactions, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss. If a put option is exercised, the premium reduces the cost basis of the security. In writing an option, the Funds bear the market risk of an unfavorable change in the price of the security underlying the written option. Exercise of an option written could result in the Funds purchasing a security at a price different from the current market price.

=====

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED)

(g) RESIDUAL INTEREST MUNICIPAL BONDS (RIBS)

The Funds invest in Residual Interest Municipal Bond ("RIBS") whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index, RIBS are created by dividing the income stream provided by the underlying bonds to create two securities, one short-term and one long-term. The interest rate on the short-term component is reset by an index or auction process normally every seven to 35 days. After income is paid on the short-term securities at current rates, the residual income from the underlying bond(s) goes to the long-term securities. Therefore, rising short-term interest rates result in lower income for the longer-term portion, and vice versa. The longer-term bonds may be more volatile and less liquid than other Municipal Bonds of comparable maturity. An investment in RIBS typically will involve greater risk than an investment in a fixed rate bond.

(h) CUSTODY CREDITS EARNED ON CASH BALANCES

Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSR/A

The Funds benefit from an expense offset arrangement with their custodian bank whereby uninvested cash balances earn credits which reduce monthly custodian and accounting agent expenses. Had these cash balances been invested in income producing securities, they would have generated income for the Funds.

2. INVESTMENT MANAGER AND SUB-ADVISER

Each Fund has entered into an Investment Management Agreement (the "Agreements") with the Investment Manager to serve as Investment Manager to each Fund. Subject to the supervision by each Fund's Board of Trustees, the Investment Manager is responsible for managing, either directly or through others selected by it, the investment activities of the Fund and the Fund's business affairs and other administrative matters. Pursuant to the Agreements, the Investment Manager will receive an annual fee, payable monthly, at the annual rate of 0.65% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding). In order to reduce Fund expenses, the Investment Manager has contractually agreed to reimburse each Fund for fees and expenses at the annual rate of 0.15% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding) from the commencement of operations through June 30, 2007, and for a declining amount thereafter through June 30, 2009.

The Investment Manager has retained its affiliate, Pacific Investment Management Company LLC (the "Sub-Adviser") to manage each Fund's investments. Subject to the supervision of the Investment Manager, the Sub-Adviser makes all investment decisions with respect to each Fund's assets. The Investment Manager (not the Funds) pays a portion of the fees it receives to the Sub-Adviser in return for its services, at the maximum annual rate of 0.50% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding). The Sub-Adviser has contractually agreed to waive a portion of the fees it is entitled to receive from the Investment Manager, such that the Sub-Adviser will receive 0.26% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding) from the commencement of the Funds' operations through June 30, 2007, and will receive an increasing amount (not to exceed 0.50% of each Fund's average daily net assets, including net assets attributable to any preferred shares that may be outstanding) thereafter through June 30, 2009. The Investment Manager informed the Funds that it paid the Sub-Adviser \$1,720,139, \$876,500 and \$303,452 in connection with sub-advisory services for Municipal II, California Municipal II and New York Municipal II, respectively, for the six months ended November 30, 2003.

The Funds are subject to certain limitations and restrictions while Preferred Shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Funds from declaring any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of Preferred Shares at their liquidation value.

Preferred Shares, which are entitled to one vote per share, generally vote with the common stock but vote separately as a class to elect two Trustees and on any matters affecting the rights of the Preferred Shares.

5. SUBSEQUENT COMMON DIVIDEND DECLARATIONS

On December 1, 2003, the following dividends were declared to common shareholders payable December 31, 2003 to shareholders of record on December 12, 2003:
