### PRESS RELEASE

Cebal Americas announces plans to build  
plastic tube packaging plant in Mexico

Paris, France, January 17, 2003 - Cebal Americas, a division of the Pechiney Group's Packaging Sector, has announced plans to build a tube manufacturing plant in Mexico.

The new plant, which will constitute an investment of US\$10 million, will manufacture plastic tubes for the cosmetics segment in North America, which has been growing at an increasing rate over the last several years. A site location will be finalized in the coming weeks, and the facility is expected to be commercial at the end of the year.

"The new plant in Mexico is part of an overall strategic initiative to refocus our business on three key markets so that we can improve service to customers and compete more effectively on a global basis," said Jean-Paul Meausoone, Vice President and General Manager, Cebal Americas. "We are serving customers in the Cosmetics, Pharmaceuticals, and Dentifrice & Commodities markets; and, by realigning our manufacturing capabilities, Cebal Americas will be better positioned to address the needs and growth opportunities in each of them. These actions along with the new cosmetics tube plant in Mexico should give us a competitive advantage in the marketplace."
