ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On April 29, 2010, Becton, Dickinson and Company (BD) issued a press release announcing its financial results for its second fiscal quarter ending March 31, 2010. A copy of the press release is furnished as Exhibit 99.1 to this report.

The press release furnished as Exhibit 99.1 contains certain financial measures that differ from those presented in accordance with U.S. generally accepted accounting principles (non-GAAP measures), as follows:

Revenues. We present international and total revenue growth rates (for the total company and each of its segments and business units, and revenues relating to our safety-engineered devices) for the second quarter and first six months of fiscal year 2010 after eliminating the effect of foreign currency translation, including gains or losses from our hedging activities. We believe that this allows investors to better understand the underlying operating results of BD and facilitates comparisons to prior periods.

Earnings Per Share from Continuing Operations. We present our diluted earnings per share from continuing operations (EPS) for the second quarter and first six months of fiscal year 2010 after eliminating the non-cash charge related to health care reform impacting Medicare Part D reimbursements. We also present our EPS for the second quarter and first six months of fiscal year 2009 after excluding the impact of the charge relating to our pending settlement of certain antitrust class action suits (the Litigation Charge), and our EPS for the full 2009 fiscal year after excluding the Litigation Charge and the tax benefit relating to various tax settlements. These items are not considered by management to be part of ordinary operations. Accordingly, we believe that these adjusted measures of EPS are more indicative of BD s underlying performance for these periods, and allow investors to more easily compare BD s performance for these periods and to better understand BD s EPS guidance for fiscal year 2010.

We also present our growth in adjusted EPS for the second quarter and first six months of fiscal year 2010, and our adjusted EPS guidance for the full 2010 fiscal year, after eliminating the effect of foreign currency translation, including gains or losses from our hedging activities. We believe that eliminating the effect of foreign currency translation allows investors to better understand the underlying operating results of BD, and facilitates comparisons to the prior year periods.

BD s management uses each of these non-GAAP measures in its own evaluation of BD s performance, particularly when comparing performance to past periods. Management also uses the non-GAAP results for budget planning purposes on a quarterly and annual basis.

BD provides non-GAAP measures to investors on a supplemental basis, as they provide additional insight into BD s financial results. Management believes the non-GAAP results provide a reasonable measure of BD s underlying performance before the effects of items that are considered by management to be outside of BD s underlying operational results or that affect period to period comparability.

Non-GAAP results should not be considered in isolation and are not in accordance with, or a substitute for, GAAP results. Our non-GAAP results may differ from similar measures used by other companies, even if similar terms are used to identify such measures. Although BD s management believes non-GAAP results are useful in evaluating the performance of its business, its reliance on these measures is limited since items excluded from such measures may have a material impact on BD s net income, earnings per share or cash flows calculated in accordance with GAAP. Therefore, management typically uses non-GAAP results in conjunction with GAAP results to address these limitations. Investors should also consider these limitations when evaluating BD s results.
