TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE

ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-13107

AutoNation, Inc.

(Exact Name of Registrant as Specified in its Charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

73-1105145

(I.R.S. Employer
Identification No.)

110 S.E. 6th Street, Fort Lauderdale, Florida

(Address of principal executive offices)

33301

(Zip Code)

(954) 769-6000

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

As of April 20, 2009, the registrant had 177,106,914 shares of common stock outstanding.

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In millions, except share and per share data)

1. INTERIM FINANCIAL STATEMENTS

Business and Basis of Presentation

AutoNation, Inc., through its subsidiaries, is the largest automotive retailer in the United States. As of March 31, 2009, we owned and operated 296 new vehicle franchises from 228 stores located in major metropolitan markets, predominantly in the Sunbelt region of the United States. We offer a diversified range of automotive products and services, including new vehicles, used vehicles, parts and automotive repair and maintenance services, and automotive finance and insurance products. We also arrange financing for vehicle purchases through third-party finance sources. For convenience, the terms AutoNation, Company, and we are used to refer collectively to AutoNation, Inc. and its subsidiaries, unless otherwise required by the context. Our dealership operations are conducted by our subsidiaries.

The accompanying Unaudited Condensed Consolidated Financial Statements include the accounts of AutoNation, Inc. and its subsidiaries; all significant intercompany accounts and transactions have been eliminated. The accompanying Unaudited Condensed Consolidated Financial Statements have been prepared by us pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Accordingly, certain information related to our organization, significant accounting policies, and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States has been condensed or omitted. These Unaudited Condensed Consolidated Financial Statements reflect, in the opinion of management, all material adjustments (which include only normal recurring adjustments) necessary to fairly state, in all material respects, our financial position and results of operations for the periods presented.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. We base our estimates and judgments on historical experience and other assumptions that we believe are reasonable. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ materially from these estimates. We periodically evaluate estimates and assumptions used in the preparation of the financial statements and make changes on a prospective basis when adjustments are necessary. Significant estimates made by AutoNation in the accompanying Unaudited Condensed Consolidated Financial Statements include certain assumptions related to goodwill, intangible, and long-lived assets, allowances for doubtful accounts, accruals for chargebacks against revenue recognized from the sale of finance and insurance products, accruals related to self-insurance programs, certain legal proceedings, estimated tax liabilities, estimated losses from disposals of discontinued operations, and certain assumptions related to stock option compensation.

Operating results for interim periods are not necessarily indicative of the results that can be expected for a full year. These interim financial statements should be read in conjunction with our audited consolidated financial statements and notes thereto included in our most recent Annual Report on Form 10-K.

Certain reclassifications of amounts previously reported have been made to the accompanying Unaudited Condensed Consolidated Financial Statements in order to maintain consistency and comparability between periods presented.

New Accounting Pronouncements

In December 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141 (revised 2007), Business Combinations (SFAS No. 141R). SFAS No. 141R is a revision to SFAS No. 141 and includes substantial changes to the acquisition method used to account for business combinations (formerly the purchase accounting method), including broadening the definition of a business, as well as revisions to accounting methods for contingent consideration and other contingencies related to the acquired business, accounting for transaction costs, and accounting for adjustments to provisional amounts recorded in connection with acquisitions.

SFAS No. 141R retains the fundamental requirement of SFAS No. 141 that the acquisition method of accounting be used for all business combinations and for an acquirer to be identified for each business combination. SFAS No. 141R is applied prospectively to business

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. We adopted SFAS No. 141R effective January 1, 2009. The adoption of SFAS No. 141R did not have a material impact on our consolidated financial statements for the three months ended March 31, 2009.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value and applies to other accounting pronouncements that require or permit fair value measurements and expands disclosures about fair value measurements. SFAS No. 157 was effective for financial assets and liabilities in fiscal years beginning after November 15, 2007, and for nonfinancial assets and liabilities in fiscal years beginning after November 15, 2008.

Our adoption of the provisions of SFAS No. 157 on January 1, 2008, with respect to financial assets and liabilities measured at fair value, did not have a material impact on our fair value measurements or our financial statements for the three months ended March 31, 2009. Our adoption of the provisions of SFAS No. 157 on January 1, 2009, with respect to nonfinancial assets and liabilities, including (but not limited to) the valuation of our reporting units for the purpose of assessing goodwill impairment, the valuation of our franchise rights when assessing franchise impairments, the valuation of property and equipment when assessing long-lived asset impairment, and the valuation of assets acquired and liabilities assumed in business combinations, did not have a material impact on our fair value measurements or our financial statements for the three months ended March 31, 2009.

In accordance with the provisions of SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, long-lived assets with a carrying amount of \$50.9 million were written down to their fair value of \$43.1 million, resulting in an impairment charge of \$7.8 million, which related to our Domestic segment and was included in Other Expenses (Income), Net during the three months ended March 31, 2009. The fair value measurements for our long-lived assets were based on Level 3 inputs obtained from third-party real estate valuation sources.

2. RECEIVABLES, NET

The components of receivables, net of allowance for doubtful accounts, are as follows:

	March 31, 2009	December 31, 2008
Trade receivables	\$ 87.8	\$ 97.1
Manufacturer receivables	85.5	106.8
Other	21.4	23.0
	194.7	226.9
Less: Allowances	(5.2)	(6.2)
	189.5	220.7
Contracts-in-transit and vehicle receivables	146.8	145.7
Income tax refundable (See Note 6)	-	12.5
Receivables, net	\$ 336.3	\$ 378.9

Contracts-in-transit and vehicle receivables primarily represent receivables from financial institutions for the portion of the vehicle sales price financed by our customers.

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

3. INVENTORY AND VEHICLE FLOORPLAN PAYABLE

The components of inventory are as follows:

	March 31, 2009	December 31, 2008
New vehicles	\$ 1,245.1	\$ 1,533.5
Used vehicles	187.5	144.1
Parts, accessories, and other	120.8	128.2
	\$ 1,553.4	\$ 1,805.8

The components of vehicle floorplan payables are as follows:

	March 31, 2009	December 31, 2008
Vehicle floorplan payable - trade	\$ 1,134.4	\$ 1,388.1
Vehicle floorplan payable - non-trade	370.0	470.1
	\$ 1,504.4	\$ 1,858.2

Vehicle floorplan payable-trade reflects amounts borrowed to finance the purchase of specific new vehicle inventories with the corresponding manufacturers' captive finance subsidiaries (trade lenders). Vehicle floorplan payable-non-trade represents amounts borrowed to finance the purchase of specific new and, to a lesser extent, used vehicle inventories with non-trade lenders. Changes in vehicle floorplan payable-trade are reported as operating cash flows and changes in vehicle floorplan payable-non-trade are reported as financing cash flows in the accompanying Unaudited Condensed Consolidated Statements of Cash Flows.

During 2008, we entered into separate floorplan credit agreements with various lenders to provide a total of \$230.0 million to finance a portion of our used vehicle inventory, of which \$51.2 million was outstanding at March 31, 2009, and \$105.0 million was outstanding at December 31, 2008.

Floorplan facilities are due on demand, but in the case of new vehicle inventories, are generally paid within several business days after the related vehicles are sold. Our manufacturer agreements generally require that the manufacturer have the ability to draft against the new floorplan facilities so the lender directly funds the manufacturer for the purchase of new vehicle inventory. Floorplan facilities are primarily collateralized by vehicle inventories and related receivables.

Our vehicle floorplan facilities, which utilize LIBOR-based interest rates, averaged 2.4% for the three months ended March 31, 2009, and 4.3% for the three months ended March 31, 2008. At March 31, 2009, aggregate capacity under the floorplan credit facilities to finance vehicles was approximately \$2.8 billion, of which \$1.5 billion total was outstanding.

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

4. GOODWILL AND INTANGIBLE ASSETS

Goodwill and intangible assets, net, consist of the following:

	March 31, 2009	December 31, 2008
Goodwill	\$ 1,136.6	\$ 1,136.4
Franchise rights-indefinite-lived	\$ 173.9	\$ 173.9
Other intangibles	7.7	7.6
	181.6	181.5
Less: accumulated amortization	(4.0)	(3.8)
Other intangibles assets, net	\$ 177.6	\$ 177.7

Goodwill

Goodwill is tested for impairment annually on April 30 or more frequently when events or circumstances indicate that the carrying value of a reporting unit more likely than not exceeds its fair value. During 2008, we recorded impairment charges of \$1.61 billion (\$1.37 billion after-tax) associated with goodwill. For a complete discussion of these impairment charges, please see Note 5 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

The test for goodwill impairment, as defined by SFAS No. 142 is a two-step approach. The first step of the goodwill impairment test requires a determination of whether or not the fair value of a reporting unit is less than its carrying value. If so, the second step is required, which involves an analysis reflecting the allocation of the fair value determined in the first step (as if it was the purchase price in a business combination). This process may result in the determination of a new amount of goodwill. If the calculated fair value of the goodwill resulting from this allocation is lower than the carrying value of the goodwill in the reporting unit, the difference is reflected as a non-cash impairment loss.

We estimate the fair value of our reporting units using an income valuation approach, which discounts projected free cash flows (DCF) of the reporting unit at a computed weighted average cost of capital as the discount rate. In connection with this process, we also reconcile the estimated aggregate fair values of our reporting units to the fair value of our enterprise, which is estimated using income and market valuation approaches, including consideration of a control premium that represents the estimated amount an investor would pay for our equity securities to obtain a controlling interest.

Goodwill allocated to our reporting units and changes in the carrying amount of goodwill for the three months ended March 31, 2009, were as follows:

	Domestic	Import	Premium Luxury	Corporate and other	Consolidated
Goodwill at January 1, 2009	\$ 166.9	\$ 499.9	\$ 469.6	\$ -	\$ 1,136.4
Acquisitions and other adjustments	0.2	-	-	-	0.2

Edgar Filing: AUTONATION INC /FL - Form 10-Q

Goodwill at March 31, 2009	\$ 167.1	\$ 499.9	\$ 469.6	\$ -	\$ 1,136.6
----------------------------	----------	----------	----------	------	------------

9

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

Intangible Assets

Our principal identifiable intangible assets are individual store rights under franchise agreements with vehicle manufacturers, which have indefinite lives and are tested at least annually on April 30 for impairment. The impairment test for intangibles with indefinite lives requires the comparison of estimated fair value to its carrying value by store. Fair values of rights under franchise agreements are estimated by discounting expected future cash flows of the store. During 2008, we recorded impairment charges of \$146.5 million (\$90.8 million after-tax) associated with franchise rights. For a complete discussion of these impairment charges, please see Note 5 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

5. NOTES PAYABLE AND LONG-TERM DEBT

Notes payable and long-term debt consist of the following:

	March 31, 2009	December 31, 2008
Floating rate senior unsecured notes, due 2013	\$ 162.5	\$ 194.5
7% senior unsecured notes, due 2014	132.6	172.6
Term loan facility, due 2012	600.0	600.0
Revolving credit facility, due 2012	-	-
Mortgage facility, due 2017	231.6	233.3
Other debt, due from 2010 to 2025	14.2	58.5
	1,140.9	1,258.9
Less: current maturities	(13.9)	(33.3)
Long-term debt, net of current maturities	\$ 1,127.0	\$ 1,225.6

Senior Unsecured Notes and Credit Agreement

At March 31, 2009, we had outstanding \$162.5 million of floating rate senior unsecured notes due April 15, 2013, and \$132.6 million of 7% senior unsecured notes due April 15, 2014, in each case at par. The floating rate senior unsecured notes bear interest at a rate equal to three-month LIBOR plus 2.0% per annum, adjusted quarterly, and may be redeemed by us currently at 102% of principal, on or after April 15, 2010, at 101% of principal, and on or after April 15, 2011, at 100% of principal. The 7% senior unsecured notes may be redeemed by us currently at 105.25% of principal, on or after April 15, 2010, at 103.5% of principal, on or after April 15, 2011, at 101.75% of principal, and on or after April 15, 2012, at 100% of principal.

During the first quarter of 2009, we repurchased \$32.0 million aggregate principal amount of our floating rate senior unsecured notes due April 15, 2013, for an aggregate total consideration of \$26.0 million. We also repurchased \$40.0 million aggregate principal amount of our 7% senior unsecured notes due April 15, 2014, for an aggregate total consideration of \$34.5 million.

We recorded a gain of \$11.9 million in the first quarter of 2009 in connection with these repurchases, net of the write-off of related unamortized debt issuance costs. This gain is classified as Gain on Senior Note Repurchases in the accompanying Unaudited Condensed Consolidated Income Statements.

Under our amended credit agreement which terminates on July 18, 2012, we have a \$700.0 million revolving credit facility that provides for various interest rates on borrowings generally at LIBOR plus 0.725% and a \$600.0 million term loan facility bearing interest at a rate equal to LIBOR plus 0.875%. We also have a letter of credit sublimit as part of our revolving credit facility. The amount available to be borrowed under the revolving credit facility is reduced

on a dollar-for-dollar basis by the cumulative amount of any outstanding letters of credit, which totaled \$72.4 million at March 31, 2009. As of March 31, 2009, we had no borrowings outstanding under the revolving credit facility, leaving \$627.6 million of borrowing capacity. As of March 31, 2009, this borrowing

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

capacity was limited under the maximum consolidated leverage ratio contained in our amended credit agreement to approximately \$338 million.

The credit spread charged for the revolving credit facility and term loan facility is impacted by our senior unsecured credit ratings from Standard & Poor's (BB+, with negative outlook) and Moody's (Ba2, with negative outlook). For instance, under the current terms of our amended credit agreement, a one-notch downgrade of our senior unsecured credit rating by either Standard & Poor's or Moody's would result in a 25 basis point increase in the credit spread under our term loan facility, a 20 basis point increase in the credit spread under our revolving credit facility, and a 5 basis point increase in the facility fee applicable to our revolving credit facility.

Our senior unsecured notes and borrowings under the amended credit agreement are guaranteed by substantially all of our subsidiaries. Within the meaning of Regulation S-X, Rule 3-10, AutoNation, Inc. (the parent company) has no independent assets or operations, the guarantees of its subsidiaries are full and unconditional and joint and several, and any subsidiaries other than the guarantor subsidiaries are minor.

Other Debt

At March 31, 2009, we had \$231.6 million outstanding under a mortgage facility with an automotive manufacturer's captive finance subsidiary due December 1, 2017. The mortgage facility utilizes a fixed interest rate of 5.864% and is secured by 10-year mortgages on certain of our store properties.

In 2000, we sold our corporate headquarters facility and leased it back in a transaction that was originally accounted for as a financing. During the first quarter of 2009, we amended this lease, resulting in a change in accounting method from financing to sale-leaseback. As a result of this change, we derecognized \$21.4 million of assets and a \$37.9 million financing liability during the first quarter of 2009, when we also recognized a \$7.6 million gain on the sale, which is recorded in Other Expenses (Income), Net. The remaining gain of \$8.9 million and remaining rent expense of \$9.1 million will be recognized on a straight-line basis through the third quarter of 2009.

Restrictions and Covenants

Our amended credit agreement, the indenture for our floating rate and 7% senior unsecured notes, our vehicle floorplan payable facilities, and our mortgage facility contain numerous customary financial and operating covenants that place significant restrictions on us, including our ability to incur additional indebtedness or prepay existing indebtedness, to declare cash dividends, to create liens or other encumbrances, to sell (or otherwise dispose of) assets, and to merge or consolidate with other entities.

For example, under the amended credit agreement, we are required to maintain a maximum consolidated leverage ratio, as defined (3.0 times at each quarter-end through September 30, 2009, after which it will revert to 2.75 times on December 31, 2009). In March 2008, we amended our credit agreement to provide that non-cash impairment losses associated with goodwill and intangible assets as well as certain other non-cash charges would be excluded from the computation of the maximum consolidated leverage ratio. We are also required to maintain a maximum capitalization ratio (65%), as defined.

In addition, the indenture for the floating rate and 7% senior unsecured notes contains a debt incurrence restriction based on a minimum fixed charge coverage ratio (2:1), and the mortgage facility contains covenants regarding maximum cash flow leverage and minimum interest coverage.

Our failure to comply with the covenants contained in our debt agreements could permit acceleration of all of our indebtedness. Our debt agreements have cross-default provisions that trigger a default in the event of an uncured default under other material indebtedness of AutoNation.

In the event of a downgrade in our senior unsecured credit ratings, none of the covenants described above would be impacted. In addition, availability under the amended credit agreement described above would not be impacted should a downgrade in the senior unsecured debt credit ratings occur. Certain covenants in the indenture for the floating rate and 7% senior unsecured notes would be eliminated with an upgrade of our senior unsecured credit ratings to investment grade by either Standard & Poor's or Moody's.

6. INCOME TAXES

Income taxes payable included in Other Current Liabilities totaled \$11.5 million at March 31, 2009. Income taxes refundable included in Accounts Receivable totaled \$12.5 million at December 31, 2008.

We file income tax returns in the U.S. federal jurisdiction and various states. As a matter of course, various taxing authorities, including the IRS, regularly audit us. Currently, the IRS is auditing the tax years from 2005 to 2006. These audits may result in proposed assessments where the ultimate resolution may result in our owing additional taxes. We believe that our tax positions comply with applicable tax law and that we have adequately provided for these matters.

It is our continuing policy to account for interest and penalties associated with income tax obligations as a component of provision for income taxes in the accompanying Unaudited Condensed Consolidated Financial Statements.

7. SHAREHOLDERS EQUITY

During the three months ended March 31, 2009, we did not repurchase any shares of our common stock other than 6,174 shares that were surrendered to AutoNation during the three months ended March 31, 2009, to satisfy tax withholding obligations in connection with restricted stock issued to retirement-eligible employees. As of March 31, 2009, \$142.7 million remained available for share repurchases under the existing repurchase program approved by our Board of Directors. Future share repurchases are subject to limitations contained in the indenture relating to our floating rate and 7% senior unsecured notes.

During the three months ended March 31, 2008, we repurchased 1.9 million shares of our common stock for an aggregate purchase price of \$27.8 million (average purchase price per share of \$14.84).

We issued 25,125 shares of common stock in connection with the exercise of stock options during the three months ended March 31, 2009, and 51,413 shares during the three months ended March 31, 2008. The proceeds from the exercise of stock options were \$0.2 million (average exercise price per share of \$8.98) during the three months ended March 31, 2009, and \$1.0 million (average exercise price per share of \$10.68) during the three months ended March 31, 2008.

We granted 193,312 shares of restricted stock during the three months ended March 31, 2009, in connection with our annual restricted stock award grant. See Note 9 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information.

8. EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share are computed by dividing net income (loss) by the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share are computed by dividing net income (loss) by the weighted average number of common shares outstanding adjusted for the dilutive effect of stock options and other dilutive securities. For the three months ended March 31, 2009, 11.6 million options have been excluded from the computation of diluted earnings per share due to their anti-dilutive effect. During the three months ended March 31, 2008, anti-dilutive options of 9.1 million have been excluded from the computation of diluted earnings per share.

The computation of weighted-average common and common equivalent shares used in the calculation of basic and diluted earnings (loss) per share is as follows:

	Three Months Ended March 31,	
	2009	2008
Weighted average shares outstanding used in calculating basic earnings per share	176.8	180.0
Effect of dilutive stock-based awards	0.2	0.6
Weighted average common and common equivalent shares used in calculating diluted earnings per share	177.0	180.6

9. STOCK BASED COMPENSATION

The AutoNation, Inc. 2008 Equity and Incentive Plan (2008 Plan) provides for the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, and other stock-based and cash-based awards. A maximum of 12.0 million shares may be issued under the 2008 Plan, provided that no more than 2.0 million shares may be issued pursuant to the grant of awards, other than options or stock appreciation rights, that are settled in shares. The exercise price of all stock options and stock appreciation rights granted under the 2008 Plan, is equal to or above the closing price of our common stock on the date such awards are granted, or if the date of grant is not a trading day, on the next trading day.

In February 2009, the Executive Compensation Subcommittee (the Subcommittee) of the Compensation Committee of our Board of Directors approved annual stock option awards to our named executive officers and other employees under the 2008 Plan. Prior to 2009, the Subcommittee's practice had been to award stock options during the third quarter with an effective grant date after the public release of the Company's second-quarter earnings results. For 2009, the Subcommittee modified its practice by approving the annual stock option awards to our named executive officers and other employees in the first quarter and granting the awards in four equal increments over the year, subject to continuous employment through each grant date. The Subcommittee approved a total of 1.2 million employee stock options for 2009. One-fourth of each stock option award that was approved in February 2009 was granted on March 2, 2009, and an additional one-fourth of each such stock option award will be granted on the first New York Stock Exchange trading day of each of June, September, and December 2009. The options granted on March 2, 2009 have an exercise price equal to the closing price per share on the grant date (\$9.92), and each subsequent option grant will have an exercise price equal to the closing price of our common stock on the applicable grant date in accordance with the 2008 Plan. In February 2009, the Subcommittee also approved a total of 0.2 million shares of restricted stock, all of which were granted to restricted stock-eligible employees on March 2, 2009.

The AutoNation, Inc. 2007 Non-Employee Director Stock Option Plan (Non-Employee Director Plan) provides for the grant of stock options to our non-employee directors. The exercise price of all stock options granted under the Non-Employee Director Plan is equal to or above the closing price of our common stock on the trading day immediately prior to the date of grant. In accordance with the terms of the Non-Employee Director Plan, on January 2, 2009, each of our non-employee directors was automatically granted an option to purchase 20,000 shares of our common stock (for a total of 120,000 options) at an exercise price equal to \$9.88 per share, the closing price per share of Company common stock on December 31, 2008.

No additional options may be issued under our other stock option plans (Prior Plans). Under our Prior Plans, stock options were granted with exercise prices equal to or above the closing price of our common stock on the trading day immediately prior to the date of grant.

Stock Options

Stock options granted under all plans are non-qualified. Upon exercise, shares of common stock are issued from our treasury stock. Generally, employee stock options granted in 2008 and prior years have a term of 10 years from the date of grant and vest in increments of 25% per year over a four-year period on the anniversary of the grant date. Stock options granted in 2009 have a term of 10 years from the first date of grant in 2009 (i.e., all options granted or to be granted in 2009 will expire on March 2, 2019) and vest in equal installments over four years commencing on June 1, 2010. Stock options granted to non-employee directors have a term of 10 years from the date of grant and vest immediately upon grant.

We use the Black-Scholes valuation model to determine compensation expense and amortize compensation expense over the requisite service period of the grants on a straight-line basis. Certain of our equity-based compensation plans contain provisions that provide for vesting of awards upon retirement. Accordingly, the related compensation cost for awards granted subsequent to our adoption on January 1, 2006, of SFAS No. 123 (revised 2004), *Shared-Based Payment* (SFAS No. 123R), must be recognized over the shorter of the stated vesting period or the period until employees become retirement-eligible.

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

The following table summarizes the assumptions used relating to the valuation of our stock options during the three months ended March 31, 2009 and 2008:

	March 31, 2009		March 31, 2008	
Risk-free interest rate	1.64%	4.87%	3.12%	4.87%
Expected dividend yield				
Expected term	4	7 years	4	7 years
Expected volatility	20%	52%	20%	40%

The risk-free interest rate is based on the U.S. Treasury yield curve at the time of the grant. The expected term of stock options granted is derived from historical data and represents the period of time that stock options are expected to be outstanding. The expected volatility is based on historical volatility, implied volatility, and other factors impacting us.

A summary of stock option activity is as follows for the three months ended March 31, 2009:

	Shares (in millions)	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (in millions)
Options outstanding at January 1	14.60	\$ 16.01		
Granted *	0.42	\$ 9.91		
Exercised	(0.03)	\$ 8.98		
Forfeited	(0.04)	\$ 18.32		
Expired	(1.33)	\$ 14.74		
Options outstanding at March 31	13.62	\$ 15.95	5.88	\$ 17.83
Options exercisable at March 31	9.44	\$ 15.70	4.80	\$ 12.32
Options available for future grants at March 31	11.70			

* The options granted during the three months ended March 31, 2009, are related to our employee quarterly stock option award grant in March 2009 and our non-employee director annual stock option award grant in January 2009.

The total intrinsic value (which equals the spread between the market value of the stock and the exercise price) of stock options exercised was \$0.1 million during the three months ended March 31, 2009, and \$0.2 million during the three months ended March 31, 2008.

Restricted Stock

Restricted stock awards are considered nonvested share awards as defined under SFAS No. 123R and are issued from our treasury stock. Restricted stock awards granted in 2008 vest in increments of 25% per year over a four-year period on the anniversary of the grant date. Restricted stock awards granted in 2009 vest in equal installments over four years commencing on June 1, 2010. Compensation cost for restricted stock awards is recognized over the shorter of the stated vesting period or the period until employees become retirement-eligible based on the closing price of our common stock on the date of grant.

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

The following table summarizes information about vested and unvested restricted stock for the three months ended March 31, 2009:

	Restricted Stock	
	Shares (in millions)	Weighted-Average Grant Date Fair Value
Nonvested at January 1	0.2	\$ 10.17
Granted **	0.2	\$ 9.92
Vested	-	\$ -
Forfeited	-	\$ -
Nonvested at March 31	0.4	\$ 10.04

** The restricted stock awards granted during the three months ended March 31, 2009, are related to our employee annual restricted stock award grant in March 2009.

Compensation Expense

The following table summarizes the total stock-based compensation expense recognized in Selling, General, and Administrative expenses in the 2009 and 2008 Unaudited Condensed Consolidated Income Statement:

	Three Months Ended March 31,	
	2009	2008
Stock options	\$ 3.4	\$ 3.8
Restricted stock	0.4	-
Total stock-based compensation expense	\$ 3.8	\$ 3.8

As of March 31, 2009, there was \$15.8 million of total unrecognized compensation cost related to non-vested stock-based compensation arrangements, of which \$12.7 million relates to stock options and \$3.1 million relates to restricted stock. These amounts are expected to be recognized over a weighted average period of 1.6 years.

10. COMPREHENSIVE INCOME

Comprehensive income is as follows:

	Three Months Ended March 31,	
	2009	2008
Net income	\$ 34.6	\$ 50.7
Other comprehensive income	-	0.1
Comprehensive income	\$ 34.6	\$ 50.8

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

11. ACQUISITIONS

We acquired one automotive retail franchise and related assets during each of the three months ended March 31, 2009 and 2008. Acquisitions are included in the Unaudited Condensed Consolidated Financial Statements from the date of acquisition.

12. COMMITMENTS AND CONTINGENCIES

Legal Proceedings

We are involved, and will continue to be involved, in numerous legal proceedings arising out of the conduct of our business, including litigation with customers, employment related lawsuits, class actions, purported class actions, and actions brought by governmental authorities.

We are a party to numerous legal proceedings that arose in the conduct of our business. We do not believe that the ultimate resolution of these matters will have a material adverse effect on our results of operations, financial condition, or cash flows. However, the results of these matters cannot be predicted with certainty, and an unfavorable resolution of one or more of these matters could have a material adverse effect on our financial condition, results of operations, and cash flows.

Other Matters

AutoNation, acting through its subsidiaries, is the lessee under many real estate leases that provide for the use by our subsidiaries of their respective dealership premises. Pursuant to these leases, our subsidiaries generally agree to indemnify the lessor and other related parties from certain liabilities arising as a result of the use of the leased premises, including environmental liabilities, or a breach of the lease by the lessee. Additionally, from time to time, we enter into agreements with third parties in connection with the sale of assets or businesses in which we agree to indemnify the purchaser or related parties from certain liabilities or costs arising in connection with the assets or business. Also, in the ordinary course of business in connection with purchases or sales of goods and services, we enter into agreements that may contain indemnification provisions. In the event that an indemnification claim is asserted, liability would be limited by the terms of the applicable agreement.

From time to time, primarily in connection with dispositions of automotive stores, our subsidiaries assign or sublet to the dealership purchaser the subsidiaries' interests in any real property leases associated with such stores. In general, our subsidiaries retain responsibility for the performance of certain obligations under such leases to the extent that the assignee or sublessee does not perform, whether such performance is required prior to or following the assignment or subletting of the lease. Additionally, AutoNation and its subsidiaries generally remain subject to the terms of any guarantees made by us and our subsidiaries in connection with such leases. Although we generally have indemnification rights against the assignee or sublessee in the event of non-performance under these leases, as well as certain defenses, we estimate that lessee rental payment obligations during the remaining terms of these leases are approximately \$84 million at March 31, 2009. We do not have any material known commitments that we or our subsidiaries will be called on to perform under any such assigned leases or subleases at March 31, 2009. Our exposure under these leases is difficult to estimate and there can be no assurance that any performance of AutoNation or its subsidiaries required under these leases would not have a material adverse effect on our business, financial condition, and cash flows.

At March 31, 2009, surety bonds, letters of credit, and cash deposits totaled \$112.1 million, including \$72.4 million of letters of credit. In the ordinary course of business, we are required to post performance and surety bonds, letters of credit, and/or cash deposits as financial guarantees of our performance. We do not currently provide cash collateral for outstanding letters of credit.

In the ordinary course of business, we are subject to numerous laws and regulations, including automotive, environmental, health and safety, and other laws and regulations. We do not anticipate that the costs of such compliance will have a material adverse effect on our business, consolidated results of operations, cash flows, or financial condition, although such outcome is possible given the nature of our operations and the extensive legal and regulatory framework applicable to our business. We do not have any material known environmental commitments or

contingencies.

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

13. DISCONTINUED OPERATIONS

Discontinued operations are related to stores that were sold or terminated, that we have entered into an agreement to sell or terminate, or for which we otherwise deem a proposed sales transaction or termination to be probable, with no material changes expected. Generally, the sale of a store is completed within 60 to 90 days after the date of a sale agreement.

We received proceeds (net of cash relinquished) of \$5.6 million during the three months ended March 31, 2009, and \$9.5 million during the same period in 2008 related to discontinued operations. We classified 17 stores during the three months ended March 31, 2009, and four stores during the same period in 2008, as discontinued operations.

The accompanying Unaudited Condensed Consolidated Financial Statements for all the periods presented have been adjusted to classify these stores as discontinued operations. Assets and liabilities of discontinued operations are reported in the Corporate and other category of our segment information in Note 14 of the Notes to Unaudited Condensed Consolidated Financial Statements below. Selected income statement data for our discontinued operations is as follows:

	Three Months Ended March 31,	
	2009	2008
Total revenue	\$ 72.2	\$ 201.1
Pre-tax loss from discontinued operations	\$ (1.4)	(1.7)
Pre-tax income (loss) on disposal of discontinued operations	(16.7)	1.0
	(18.1)	(0.7)
Income tax expense (benefit)	(4.1)	4.3
Loss from discontinued operations, net of income taxes	\$ (14.0)	\$ (5.0)

A summary of the total assets and liabilities of discontinued operations included in Other Current Assets and Other Current Liabilities is as follows:

	March 31, 2009	December 31, 2008
Inventory	\$ 49.6	\$ 71.6
Other current assets	7.9	11.8
Property and equipment, net	75.6	80.8
Goodwill	16.8	18.0
Other non-current assets	8.5	7.9
Total assets	\$ 158.4	\$ 190.1
Vehicle floorplan payable-trade	\$ 36.5	\$ 53.5
Vehicle floorplan payable-non-trade	14.4	17.4
Other current liabilities	10.8	7.1

Total liabilities	\$	61.7	\$	78.0
-------------------	----	------	----	------

Responsibility for our vehicle floorplan payable at the time of divestiture is assumed by the buyer. Cash received from business divestitures is net of vehicle floorplan payable assumed by the buyer.

14. SEGMENT INFORMATION

At March 31, 2009, we had three operating and reportable segments: (1) Domestic, (2) Import, and (3) Premium Luxury. Our Domestic segment is comprised of retail automotive franchises that sell new vehicles manufactured by Ford, General Motors, and Chrysler. Our Import segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Toyota, Honda, and Nissan. Our Premium Luxury segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Mercedes, BMW, and Lexus. The franchises in each segment also sell used vehicles, parts and automotive services, and automotive finance and insurance products. Prior period amounts have been reclassified to reflect our operating segment structure at March 31, 2009.

Corporate and other is comprised of our other businesses, including collision centers, E-commerce activities, and auction operations, each of which generates revenues, as well as unallocated corporate overhead expenses.

The operating segments identified above are the business activities of the Company for which discrete financial information is available and for which operating results are regularly reviewed by our chief operating decision maker to allocate resources and assess performance. Our chief operating decision maker is our Chief Executive Officer. We have determined that our three operating segments also represent our reportable segments.

Reportable segment revenues and segment income (loss) are as follows (in millions):

	Three Months Ended March 31,	
	2009	2008
Revenues:		
Domestic	\$ 850.0	\$ 1,381.8
Import	892.6	1,461.7
Premium Luxury	704.0	962.5
Corporate and other	26.5	33.3
Total revenues	\$ 2,473.1	\$ 3,839.3
	Three Months Ended March 31,	
	2009	2008
Segment income (loss)*:		
Domestic	\$ 15.1	\$ 38.3
Import	29.5	55.5
Premium Luxury	40.9	50.7
Corporate and other	(6.8)	(22.8)
Total segment income	78.7	121.7
Other interest expense	(11.8)	(26.8)
Gain on senior note repurchases	11.9	-
Interest income	0.3	0.5
Other losses, net	(1.6)	(1.7)
Income from continuing operations before income taxes	\$ 77.5	\$ 93.7

* Segment income (loss) is defined as operating income net of floorplan interest expense.

18

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

15. BUSINESS AND CREDIT CONCENTRATIONS

Our Ford, General Motors, and Chrysler stores represented 14%, 12%, and 4% of our new vehicle revenue, respectively, during the three months ended March 31, 2009, and 14%, 13%, and 5%, respectively, during the same period in 2008. Government assistance has been provided to General Motors and Chrysler, and the future viability of these manufacturers is dependent on additional government assistance. Additionally, there can be no assurance that Ford will not need government assistance in the future to continue its operations. Unless General Motors and Chrysler receive significant additional government assistance in the second quarter of 2009, they will likely be forced to seek bankruptcy protection. Both of these manufacturers would need debtor-in-possession financing to emerge from any bankruptcy, which would be difficult, if not impossible, to obtain without government assistance. We are subject to a concentration of risk in the event of financial distress, including potential bankruptcy, of a major vehicle manufacturer, such as Ford, General Motors, and Chrysler.

In the event of such a bankruptcy, among other things, (i) the manufacturer could attempt to terminate our floorplan financing or all or certain of our franchises, in which case we may not receive adequate compensation for our franchises, (ii) consumer demand for their products could be materially adversely affected, (iii) we may be unable to obtain financing for our new vehicle inventory, or to arrange financing for our customers for their vehicle purchases and leases, through the manufacturer's captive finance subsidiary, in which case we would be required to seek financing with alternate finance sources, which may be difficult to obtain on similar terms, if at all, and (iv) we may be unable to collect some or all of our significant receivables that are due from such manufacturers and we may be subject to preference claims relating to payments made by manufacturers prior to bankruptcy. Additionally, these events may result in us being required to incur impairment charges with respect to the inventory, fixed assets, and intangible assets related to certain franchises, which could adversely impact our results of operations, financial condition, and our ability to remain in compliance with the financial covenants contained in our debt agreements. At March 31, 2009, we had approximately \$33.6 million in accounts receivable, \$667.0 million of inventory, \$662.1 million of fixed assets, and \$172.4 million of goodwill and other intangible assets related to our domestic franchises. There are other uncertainties surrounding the potential impact of a domestic manufacturer bankruptcy, such as the impact on warranties provided to vehicle purchasers and the availability of parts and services needed to maintain and repair vehicles.

Concentrations of credit risk with respect to non-manufacturer trade receivables are limited due to the wide variety of customers and markets in which our products are sold as well as their dispersion across many different geographic areas in the United States. Consequently, at March 31, 2009, we do not consider AutoNation to have any significant non-manufacturer concentrations of credit risk.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with the Unaudited Condensed Consolidated Financial Statements and notes thereto included under Item 1. In addition, reference should be made to our audited consolidated financial statements and notes thereto and related Management's Discussion and Analysis of Financial Condition and Results of Operations included in our most recent Annual Report on Form 10-K.

Certain amounts have been reclassified from the previously reported financial statements to conform to the financial statement presentation of the current period.

Overview

AutoNation, Inc., through its subsidiaries, is the largest automotive retailer in the United States. As of March 31, 2009, we owned and operated 296 new vehicle franchises from 228 stores located in major metropolitan markets, predominantly in the Sunbelt region of the United States. Our stores, which we believe include some of the most recognizable and well known in our key markets, sell 37 different brands of new vehicles. The core brands of vehicles that we sell, representing approximately 96% of the new vehicles that we sold during the three months ended March 31, 2009, are manufactured by Toyota, Ford, Honda, General Motors, Nissan, Mercedes, BMW, and Chrysler.

We offer a diversified range of automotive products and services, including new vehicles, used vehicles, parts and automotive repair and maintenance services, and automotive finance and insurance products. We also arrange financing for vehicle purchases through third-party finance sources. We believe that the significant scale of our operations and the quality of our managerial talent allow us to achieve efficiencies in our key markets by, among other things, leveraging our market brands and advertising, improving asset management, implementing standardized processes, and increasing productivity across all of our stores.

At March 31, 2009, we had three operating and reportable segments: (1) Domestic, (2) Import, and (3) Premium Luxury. Our Domestic segment is comprised of retail automotive franchises that sell new vehicles manufactured by Ford, General Motors, and Chrysler. Our Import segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Toyota, Honda, and Nissan. Our Premium Luxury segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Mercedes, BMW, and Lexus. The franchises in each segment also sell used vehicles, parts and automotive services, and automotive finance and insurance products. Prior period amounts have been reclassified to reflect our operating segment structure at March 31, 2009.

For the three months ended March 31, 2009, new vehicle sales accounted for approximately 49% of our total revenue, but approximately 16% of our total gross profit. Our parts and service and finance and insurance operations, while comprising approximately 26% of total revenue for the three months ended March 31, 2009, contributed approximately 68% of our gross profit for the same period.

During the three months ended March 31, 2009, we had net income from continuing operations of \$48.6 million and diluted earnings per share of \$0.27, as compared to net income from continuing operations of \$55.7 million and diluted earnings per share of \$0.31, during the same period in 2008.

Results for the three months ended March 31, 2009, were favorably impacted by a gain on senior note repurchases of \$11.9 million (\$7.4 million after-tax) and a net gain on asset sales and dispositions of \$9.6 million (\$5.9 million after-tax), partially offset by property impairments of \$7.8 million (\$4.8 million after-tax).

Market Challenges

Our results of operations for the first quarter of 2009 reflected a challenging automotive retail market impacted by the unfavorable economic conditions in the United States. Although first quarter sales were lower than expectations, we believe that sales rates will improve in the second half of this year. In this environment, we believe that we will be able to manage within the financial covenants in our debt agreements. See **Liquidity and Capital Resources Restrictions and Covenants** below.

Government assistance has been provided to General Motors and Chrysler, and the future viability of these manufacturers is dependent on additional government assistance. Additionally, there can be no assurance that Ford will not need government assistance in the future to continue its operations. Unless General Motors and Chrysler receive significant additional government assistance in the second quarter of 2009, they will likely be forced to seek bankruptcy protection. Both of these manufacturers would need debtor-in-possession financing to emerge from any

bankruptcy, which would be difficult, if not impossible, to obtain without government assistance.

The bankruptcy of one or more of the domestic manufacturers could have a material adverse effect on us. For example, the manufacturers could attempt to terminate our floorplan financing and all or certain of our domestic franchises, we may be unable to collect accounts receivable from the manufacturers, and we may be required to incur impairment charges with respect to the inventory, fixed assets, and intangible assets related to our domestic franchises. At March 31, 2009, we had approximately \$33.6 million in accounts receivable, \$667.0 million of inventory, \$662.1 million of fixed assets, and \$172.4 million of goodwill and other intangible assets related to our domestic franchises. Additionally, there are uncertainties surrounding the potential impact of a domestic manufacturer bankruptcy, such as the impact on warranties provided to vehicle purchasers and the availability of parts and services needed to maintain and repair

Table of Contents

vehicles. As a result, the impact of such a bankruptcy on our financial condition and results of operations is not determinable at this time. See also Note 15 of the Notes to Unaudited Condensed Consolidated Financial Statements in this Form 10-Q and the risk factor *We are dependent upon the success and continued financial viability of the vehicle manufacturers and distributors with which we hold franchises* in our Annual Report on Form 10-K for the year ended December 31, 2008.

In 2008, we implemented a cost reduction program as part of our continuing response to the ongoing market challenges. Pursuant to this program, we have taken actions to reduce our costs in excess of \$200 million on an annualized run-rate basis through March 31, 2009.

Inventory Management

Our new and used vehicle inventories are stated at the lower of cost or market on our consolidated balance sheets.

We have generally not experienced losses on the sale of new vehicle inventory, in part due to incentives provided by manufacturers to promote sales of new vehicles and our inventory management practices. We reduced our new vehicle inventory to 40,924 units at March 31, 2009, from 52,066 units at December 31, 2008, and 60,694 units at March 31, 2008. Although we focus on managing our inventory levels in accordance with consumer demand, we believe we must maintain a minimum level of inventory at our lower volume stores that is representative of the full line of vehicles offered by manufacturers. This may result in a higher days supply of inventory than would otherwise result if we were in a better economic environment. However, given our inventory management practices (such as managing our inventory purchases based on our sales forecasts and sharing inventory among stores within a local market), we do not believe the current business climate is likely to result in material impairment charges related to new vehicle inventory (subject to the risks noted in *Market Challenges* above). We continue to monitor our new vehicle inventory levels closely based on current economic conditions and will adjust them as appropriate.

In general, used vehicles that are not sold on a retail basis are liquidated at wholesale auctions. We record estimated losses on used vehicle inventory expected to be liquidated at wholesale auctions at a loss. Our used vehicle inventory balance was net of cumulative write-downs of \$0.1 million at March 31, 2009, and \$1.7 million at December 31, 2008.

Parts, accessories, and other inventory are carried at the lower of acquisition cost (first-in, first-out method) or market. We estimate the amount of potential obsolete inventory based upon past experience and market trends. Our parts, accessories, and other inventory balance was net of cumulative write-downs of \$5.0 million at March 31, 2009, and \$6.3 million at December 31, 2008.

Critical Accounting Policies and Estimates

We prepare our Unaudited Condensed Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States, which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. We evaluate our estimates on an ongoing basis, and we base our estimates on historical experience and various other assumptions we believe to be reasonable. Actual outcomes could differ materially from those estimates in a manner that could have a material effect on our Unaudited Condensed Consolidated Financial Statements. For a complete discussion of our critical and significant accounting policies and estimates, please see *Management's Discussion and Analysis of Financial Condition and Results of Operations* in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

Goodwill and franchise rights assets are tested for impairment annually on April 30 or more frequently when events or circumstances indicate that impairment may have occurred. As discussed in Note 4 of the Notes to Unaudited Condensed Consolidated Financial Statements, during 2008, we recorded \$1.61 billion (\$1.37 billion after-tax) of non-cash goodwill impairment charges and \$146.5 million (\$90.8 million after-tax) of non-cash impairment charges related to franchise rights intangible assets.

We are scheduled to complete our annual tests for impairment of goodwill and other intangible assets on April 30, 2009, and we will continue to monitor events in future periods to determine if additional asset impairment testing should be performed. We continue to face a challenging automotive retail environment and an uncertain economic environment in general. As a result of these conditions, there can be no assurance that an additional material

impairment charge will not occur in a future period.

Gross profit as a percentage of revenue	6.2%	6.7%		

Same store new vehicle revenue decreased \$911.4 million or 43.1% during the three months ended March 31, 2009, as compared to the same period in 2008, primarily as a result of a decrease in same store unit volume of 43.4% partially offset by a slight increase in same store revenue per new vehicle retailed. The decrease in same store unit volume was primarily due to the challenging automotive retail environment. Results were adversely impacted by overall economic conditions, including reduced credit availability offered to consumers, the discontinuation or limitation of certain manufacturer leasing programs, and a decline in consumer confidence. Revenue per new vehicle retailed slightly benefited from a shift in mix toward premium luxury vehicles, which have a higher average selling price than domestic and import vehicles. This benefit was partially offset, however, by a decrease in the average revenue per new vehicle retailed for premium luxury vehicles. We expect that the automotive retail market will remain challenging in 2009.

Same store gross profit per new vehicle retailed decreased 6.3% during the three months ended March 31, 2009, as compared to the same period in 2008. The decrease was driven largely by compressed margins for import vehicles due to an oversupply of inventory in the market attributed in part to shifting consumer demand due to lower fuel prices, and an overall competitive retail environment. Gross profit per new vehicle retailed was also impacted by more stringent credit conditions in the automotive retail credit market.

Our new vehicle inventories were \$1.2 billion or 66 days supply at March 31, 2009, as compared to new vehicle inventories of \$1.5 billion or 83 days supply at December 31, 2008, and \$1.8 billion or 57 days supply at March 31, 2008. We reduced our new vehicle inventory to 40,924 units at March 31, 2009, from 52,066 units at December 31, 2008, and 60,694 units at March 31, 2008.

The following table details net new vehicle inventory carrying benefit (cost), consisting of new vehicle floorplan interest expense, net of floorplan assistance earned (amounts received from manufacturers specifically to support store

Table of Contents

financing of new vehicle inventory). Floorplan assistance is accounted for as a component of new vehicle gross profit.

(\$ in millions)	Three Months Ended March 31,		
	2009	2008	Variance
Floorplan assistance	\$ 10.4	\$ 20.1	\$ (9.7)
Floorplan interest expense (new vehicles)	(9.6)	(23.8)	14.2
Net new vehicle inventory carrying benefit (cost)	\$ 0.8	\$ (3.7)	\$ 4.5

The net new vehicle inventory carrying benefit (new vehicle floorplan interest expense net of floorplan assistance from manufacturers) was \$0.8 million for the three months ended March 31, 2009, compared to a net new vehicle inventory carrying cost of \$3.7 million in the same period in 2008. The increase in the net new vehicle inventory carrying benefit of \$4.5 million is due to a decrease in new vehicle floorplan interest expense primarily due to lower short-term LIBOR interest rates and lower average vehicle floorplan payable balances, partially offset by a decrease in floorplan assistance due to lower new vehicle sales and a decrease in the floorplan assistance rate per unit.

Total revenue	\$ 608.2	\$ 926.8	\$ (318.6)	(34.4)
Retail gross profit	\$ 63.1	\$ 80.4	\$ (17.3)	(21.5)
Wholesale gross profit	2.0	(0.2)	2.2	
Total gross profit	\$ 65.1	\$ 80.2	\$ (15.1)	(18.8)
Retail vehicle unit sales	35,149	47,947	(12,798)	(26.7)
Revenue per vehicle retailed	\$ 15,392	\$ 16,059	\$ (667)	(4.2)
Gross profit per vehicle retailed	\$ 1,795	\$ 1,677	\$ 118	7.0
Gross profit as a percentage of revenue	11.7%	10.4%		

Same store retail used vehicle revenue decreased \$229.0 million or 29.7% during the three months ended March 31, 2009, as compared to the same period in 2008, primarily as a result of a decrease in same store unit volume and a reduction in revenue per vehicle retailed. The decrease in used vehicle sales volumes was driven by the challenging automotive retail environment, including reduced credit availability offered to consumers, and a decline in consumer confidence. The decrease in used vehicle sales volumes was also driven in part by a reduction in traffic into our stores, as well as a decrease in trade-in volume associated with new vehicle sales. We expect that the automotive retail market will remain challenging in 2009.

Same store gross profit per used vehicle retailed increased 7.0% during the three months ended March 31, 2009, as compared to the same period in 2008, as tighter inventories improved profitability per unit. Used vehicle inventory supply has been impacted by the decline in new vehicle sales, which has reduced trade-in volume, as well as by customers retaining their vehicles for longer periods of time. Gross profit per used vehicle retailed also benefited from a shift in mix toward premium luxury vehicles, which have a higher average gross margin than domestic and import vehicles.

Used vehicle inventories were \$187.5 million or 36 days supply at March 31, 2009, compared to \$144.1 million or 30 days at December 31, 2008, and \$302.7 million or 40 days supply at March 31, 2008.

Table of Contents*Parts and Service*(\$ in millions, except per
vehicle data)

Gross profit	\$ 241.7	\$ 268.5	\$ (26.8)	(10.0)
Gross profit as a percentage of revenue	43.9%	43.8%		

Parts and service revenue is primarily derived from vehicle repairs paid directly by customers or via reimbursement from manufacturers and others under warranty programs.

Same store parts and service revenue decreased \$63.4 million or 10.3% during the three months ended March 31, 2009, as compared to the same period in 2008. Revenues associated with the preparation of vehicles for sale decreased \$18.9 million and revenues from service work outsourced to third-parties decreased \$6.9 million primarily due to lower new and used vehicle unit sales volume. Customer-paid revenues decreased \$13.4 million due to economic pressures on consumer spending. Wholesale parts revenues decreased \$10.8 million due to the difficult market conditions. Warranty revenues decreased \$5.3 million due to lower vehicle sales and improved quality of vehicles manufactured in recent years. We expect that the automotive retail market will remain challenging in 2009.

Gross profit per vehicle retailed	\$ 1,056	\$ 1,194	\$ (138)	(11.6)

Same store finance and insurance revenue and gross profit decreased \$61.2 million or 43.9% during the three months ended March 31, 2009, as compared to the same period in 2008, primarily due to lower new and used sales volumes. We expect that the automotive retail market will remain challenging in 2009.

Same store finance and insurance revenue and gross profit per vehicle retailed decreased 11.6% during the three months ended March 31, 2009, as compared to the same period in 2008, due primarily to the current unfavorable economic conditions in the United States, including increased tightening in the automotive retail credit market.

Finance and insurance revenue and gross profit during the three months ended March 31, 2009 was negatively impacted by an increase in the rate of chargebacks as a percentage of finance and insurance revenue and gross profit.

Table of Contents**Segment Results**

In the following table, total Segment Income (Loss) of the operating segments is reconciled to consolidated operating income.

(\$ in millions)	Three Months Ended March 31,			% Variance
	2009	2008	Variance Favorable / (Unfavorable)	
<u>Revenue</u>				
Domestic	\$ 850.0	\$ 1,381.8	\$ (531.8)	(38.5)
Import	892.6	1,461.7	(569.1)	(38.9)
Premium Luxury	704.0	962.5	(258.5)	(26.9)
Corporate and other	26.5	33.3	(6.8)	(20.4)
Total revenue	\$ 2,473.1	\$ 3,839.3	\$ (1,366.2)	(35.6)
<u>*Segment income (loss)</u>				
Domestic	\$ 15.1	\$ 38.3	\$ (23.2)	(60.6)
Import	29.5	55.5	(26.0)	(46.8)
Premium Luxury	40.9	50.7	(9.8)	(19.3)
Corporate and other	(6.8)	(22.8)	16.0	
Total segment income	\$ 78.7	\$ 121.7	\$ (43.0)	(35.3)
Add: Floorplan interest expense	10.1	23.9	13.8	
Operating income	\$ 88.8	\$ 145.6	\$ (56.8)	(39.0)

*Segment income (loss) is defined as operating income net of floorplan interest expense

Retail new vehicle unit sales:

Domestic	12,081	22,666	(10,585)	(46.7)
Import	20,019	36,222	(16,203)	(44.7)
Premium Luxury	7,120	10,366	(3,246)	(31.3)
	39,220	69,254	(30,034)	(43.4)

Table of Contents**Domestic**

The Domestic segment operating results included the following:

(\$ in millions)	Three Months Ended March 31,			
	2009	2008	Variance Favorable / (Unfavorable)	% Variance
Revenue	\$ 850.0	\$ 1,381.8	\$ (531.8)	(38.5)
Segment income	\$ 15.1	\$ 38.3	\$ (23.2)	(60.6)
Retail new vehicle unit sales	12,081	22,666	(10,585)	(46.7)

Domestic revenue decreased \$531.8 million or 38.5% during the three months ended March 31, 2009, as compared to the same period in 2008, primarily due to lower vehicle sales. A reduction in the availability of customer financing from the finance captives of domestic manufacturers, including the discontinuation or limitation of certain lease programs for domestic vehicles, and low consumer confidence contributed to the decline in sales volume from our Domestic stores.

Domestic segment income decreased \$23.2 million or 60.6% during the three months ended March 31, 2009, as compared to the same period in 2008, primarily due to decreased revenues and increased pricing pressure as a result of the competitive retail environment. Domestic segment income was also impacted by a decrease in finance and insurance gross profit per vehicle retailed as a result of the reduction in credit availability. Additionally, the decline in revenues and vehicle sales in the Domestic segment resulted in a much more significant deleveraging of the Domestic segment's cost structure compared to our other segments, as costs and expenses could not be reduced in proportion to the reduction in revenues.

Import

The Import segment operating results included the following:

(\$ in millions)	Three Months Ended March 31,			
	2009	2008	Variance Favorable / (Unfavorable)	% Variance
Revenue	\$ 892.6	\$ 1,461.7	\$ (569.1)	(38.9)
Segment income	\$ 29.5	\$ 55.5	\$ (26.0)	(46.8)
Retail new vehicle unit sales	20,019	36,222	(16,203)	(44.7)

Import revenue decreased \$569.1 million or 38.9% during the three months ended March 31, 2009, as compared to the same period in 2008, primarily due to lower vehicle sales. Import segment income decreased \$26.0 million or 46.8% during the three months ended March 31, 2009, as compared to the same period in 2008. The decrease was driven largely by compressed margins due to a decline in sales, which resulted in an oversupply of inventory in the market attributed in part to shifting consumer demand due to lower fuel prices, and an overall competitive retail environment. Import segment income was also impacted by a decrease in finance and insurance gross profit per vehicle retailed as a result of the tightening in the automotive retail credit market.

Table of Contents**Premium Luxury**

The Premium Luxury segment operating results included the following:

(\$ in millions)	Three Months Ended March 31,			
	2009	2008	Variance Favorable / (Unfavorable)	% Variance
Revenue	\$ 704.0	\$ 962.5	\$ (258.5)	(26.9)
Segment income	\$ 40.9	\$ 50.7	\$ (9.8)	(19.3)
Retail new vehicle unit sales	7,120	10,366	(3,246)	(31.3)

Premium Luxury revenue decreased \$258.5 million or 26.9% during the three months ended March 31, 2009, as compared to the same period in 2008, primarily due to lower vehicle sales and a decrease in revenue per vehicle retailed. The results for our Premium Luxury segment were adversely affected by the challenging automotive retail environment, including a decline in consumer confidence. Premium Luxury segment income decreased \$9.8 million or 19.3% during the three months ended March 31, 2009, as compared to the same period in 2008, primarily due to margin compression as a result of a decrease in the average revenue per new vehicle retailed. Profitability for the Premium Luxury segment benefited from improved gross profit per used vehicle retailed and from a mix shift toward higher margin parts and service business. Used vehicle margins improved as compared to the prior year as a result of an increase in the sale of higher margin certified pre-owned vehicles.

Table of Contents**Operating Expenses*****Selling, General, and Administrative Expenses***

During the three months ended March 31, 2009, selling, general, and administrative expenses decreased \$110.0 million or 23.2%. As a percentage of total gross profit, selling, general, and administrative expenses increased to 77.5% for the three months ended March 31, 2009, from 73.8% for the same period in 2008, resulting from a deleveraging of our cost structure due to the decline in vehicle sales, partially offset by our cost savings initiatives discussed in Market Challenges above. Selling, general, and administrative expenses decreased during the three months ended March 31, 2009, as compared to the same period in 2008, primarily due to a \$75.6 million decrease in compensation expense and an \$18.6 million decrease in gross advertising expenditures, partially offset by a \$1.7 million decrease in advertising reimbursements from manufacturers.

Non-Operating Income (Expense)***Floorplan Interest Expense***

Floorplan interest expense was \$10.1 million for the three months ended March 31, 2009, as compared to \$23.9 million for the same period in 2008. The decrease in floorplan interest expense of \$13.8 million is primarily the result of lower short-term LIBOR interest rates and lower average vehicle floorplan payable balances.

Other Interest Expense

Other interest expense was incurred primarily on borrowings under our term loan facility, mortgage facility, revolving credit facility, and outstanding senior unsecured notes. Other interest expense was \$11.8 million for the three months ended March 31, 2009, and \$26.8 million for the same period in 2008. The decrease in other interest expense of \$15.0 million during the three months ended March 31, 2009, as compared to the same period in 2008, was primarily due to a \$4.7 million decrease in interest expense resulting from lower interest rates on our term loan facility, a \$5.7 million decrease in interest expense related to the repurchase of our floating rate and 7% senior unsecured notes of \$72.0 million, and a \$3.3 million decrease in interest expense resulting from lower levels of debt outstanding during the year associated with our revolving credit facility and 9% senior unsecured notes.

Provision for (Benefit from) Income Taxes

Our effective income tax rate was 37.3% for the three months ended March 31, 2009, and 40.6% for the three months ended March 31, 2008. Income taxes are provided based upon our anticipated underlying annual blended federal and state income tax rates adjusted, as necessary, for any other tax matters occurring during the period. As we operate in various states, our effective tax rate is also dependent upon our geographic revenue mix. We expect our underlying tax rate to be approximately 40% on an ongoing basis, excluding the impact of any tax adjustments in the future.

Discontinued Operations

Discontinued operations are related to stores that were sold or terminated, that we have entered into an agreement to sell or terminate, or for which we otherwise deem a proposed sales transaction or termination to be probable, with no material changes expected. We had a loss from discontinued operations totaling \$14.0 million during the three months ended March 31, 2009, and \$5.0 million during the three months ended March 31, 2008, net of income taxes. Certain amounts reflected in the accompanying Unaudited Condensed Consolidated Financial Statements for the three months ended March 31, 2009 and 2008, have been adjusted to classify the results of these stores as discontinued operations.

Liquidity and Capital Resources

We believe that our cash and cash equivalents, funds generated through future operations, and availability of borrowings under our secured floorplan facilities and revolving credit facility will be sufficient to service our debt and fund our working capital requirements, pay our tax obligations and commitments and contingencies, and meet any seasonal operating requirements for the foreseeable future. For information regarding compliance with the financial covenants under our debt agreements, refer to the discussion under the heading Restrictions and Covenants below.

Table of Contents

At March 31, 2009, we had \$62.0 million of unrestricted cash and cash equivalents. In the ordinary course of business, we are required to post performance and surety bonds, letters of credit, and/or cash deposits as financial guarantees of our performance. At March 31, 2009, surety bonds, letters of credit, and cash deposits totaled \$112.1 million, including \$72.4 million of letters of credit. We do not currently provide cash collateral for outstanding letters of credit.

See the table at the beginning of Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements for the amounts of our notes payable and long-term debt as of March 31, 2009, and December 31, 2008.

Senior Unsecured Notes and Credit Agreement

At March 31, 2009, we had outstanding \$162.5 million of floating rate senior unsecured notes due April 15, 2013, and \$132.6 million of 7% senior unsecured notes due April 15, 2014, in each case at par. The floating rate senior unsecured notes bear interest at a rate equal to three-month LIBOR plus 2.0% per annum, adjusted quarterly, and may be redeemed by us currently at 102% of principal, on or after April 15, 2010, at 101% of principal, and on or after April 15, 2011, at 100% of principal. The 7% senior unsecured notes may be redeemed by us currently at 105.25% of principal, on or after April 15, 2010, at 103.5% of principal, on or after April 15, 2011, at 101.75% of principal, and on or after April 15, 2012, at 100% of principal.

During the first quarter of 2009, we repurchased \$32.0 million aggregate principal amount of our floating rate senior unsecured notes due April 15, 2013, for an aggregate total consideration of \$26.0 million. We also repurchased \$40.0 million aggregate principal amount of our 7% senior unsecured notes due April 15, 2014, for an aggregate total consideration of \$34.5 million.

We recorded a gain of \$11.9 million during the first quarter of 2009 in connection with these repurchases, net of the write-off of related unamortized debt issuance costs. This gain is classified as Gain on Senior Note Repurchases in the accompanying Unaudited Condensed Consolidated Income Statements.

Under our amended credit agreement which terminates on July 18, 2012, we have a \$700.0 million revolving credit facility that provides for various interest rates on borrowings generally at LIBOR plus 0.725% and a \$600.0 million term loan facility bearing interest at a rate equal to LIBOR plus 0.875%. We also have a letter of credit sublimit as part of our revolving credit facility. The amount available to be borrowed under the revolving credit facility is reduced on a dollar-for-dollar basis by the cumulative amount of any outstanding letters of credit, which totaled \$72.4 million at March 31, 2009. As of March 31, 2009, we had no borrowings outstanding under the revolving credit facility, leaving \$627.6 million of borrowing capacity. As of March 31, 2009, this borrowing capacity was limited under the maximum consolidated leverage ratio contained in our amended credit agreement to approximately \$338 million.

The credit spread charged for the revolving credit facility and term loan facility is impacted by our senior unsecured credit ratings from Standard & Poor's (BB+, with negative outlook) and Moody's (Ba2, with negative outlook). For instance, under the current terms of our amended credit agreement, a one-notch downgrade of our senior unsecured credit rating by either Standard & Poor's or Moody's would result in a 25 basis point increase in the credit spread under our term loan facility, a 20 basis point increase in the credit spread under our revolving credit facility, and a 5 basis point increase in the facility fee applicable to our revolving credit facility.

We may from time to time repurchase additional senior unsecured notes in open market purchases or privately negotiated transactions. Additionally, we may in the future prepay our term loan facility or other debt. The decision to repurchase senior unsecured notes or to prepay our term loan facility or other debt will be based on prevailing market conditions, our liquidity requirements, contractual restrictions, and other factors.

Other Debt

At March 31, 2009, we had \$231.6 million outstanding under a mortgage facility with an automotive manufacturer's captive finance subsidiary due December 1, 2017. The mortgage facility utilizes a fixed interest rate of 5.864% and is secured by 10-year mortgages on certain of our store properties.

In 2000, we sold our corporate headquarters facility and leased it back in a transaction that was originally accounted for as a financing. During the first quarter of 2009, we amended this lease, resulting in a change in accounting method from financing to sale-leaseback. As a result of this change, we derecognized \$21.4 million of

Table of Contents

assets and a \$37.9 million financing liability during the first quarter of 2009, when we also recognized a \$7.6 million gain on the sale, which is recorded in Other Expenses (Income), Net. The remaining gain of \$8.9 million and remaining rent expense of \$9.1 million will be recognized on a straight-line basis through the third quarter of 2009.

Vehicle floorplan payable-trade totaled \$1.1 billion at March 31, 2009, and \$1.4 billion at December 31, 2008. Vehicle floorplan payable-trade reflects amounts borrowed to finance the purchase of specific new vehicle inventories with manufacturers' captive finance subsidiaries. Vehicle floorplan payable-non-trade totaled \$370.0 million at March 31, 2009, and \$470.1 million at December 31, 2008, and represents amounts payable borrowed to finance the purchase of specific new and, to a lesser extent, used vehicle inventories with non-trade lenders. All the floorplan facilities are at one-month LIBOR-based rates of interest.

Floorplan facilities are due on demand, but in the case of new vehicle inventories, are generally paid within several business days after the related vehicles are sold. Our manufacturer agreements generally require that the manufacturer have the ability to draft against the new floorplan facilities so the lender directly funds the manufacturer for the purchase of new vehicle inventory. Floorplan facilities are primarily collateralized by vehicle inventories and related receivables.

Share Repurchases and Dividends

During the three months ended March 31, 2009, we did not repurchase any shares of our common stock other than 6,174 shares that were surrendered to AutoNation during the three months ended March 31, 2009, to satisfy tax withholding obligations in connection with restricted stock issued to retirement-eligible employees. As of March 31, 2009, \$142.7 million remained available for share repurchases under the existing repurchase program approved by our Board of Directors. Future share repurchases are subject to limitations contained in the indenture relating to our floating rate and 7% senior unsecured notes.

During the three months ended March 31, 2008, we repurchased 1.9 million shares of our common stock for an aggregate purchase price of \$27.8 million (average purchase price per share of \$14.84).

The decision to repurchase shares in the future will be based on such factors as the market price of our common stock versus our view of its intrinsic value, the potential impact on our capital structure (including compliance with financial ratios in our debt agreements), and the expected return on competing uses of capital such as dealership acquisitions, capital investments in our current businesses, or repurchases of our debt. In the first quarter of 2009, in light of the economic conditions, our liquidity and capital resource strategies were focused on generating cash and paying down debt to remain in compliance with the financial covenants in our debt agreements.

We have not declared or paid any cash dividends on our common stock during our two most recent fiscal years. We do not anticipate paying cash dividends in the foreseeable future. The indenture for our floating rate and 7% senior unsecured notes restricts our ability to declare cash dividends. See **Restrictions and Covenants** below.

Restrictions and Covenants

Our amended credit agreement, the indenture for our floating rate and 7% senior unsecured notes, our vehicle floorplan payable facilities, and our mortgage facility contain numerous customary financial and operating covenants that place significant restrictions on us, including our ability to incur additional indebtedness or prepay existing indebtedness, to declare cash dividends, to create liens or other encumbrances, to sell (or otherwise dispose of) assets, and to merge or consolidate with other entities.

For example, under the amended credit agreement, we are required to remain in compliance with a maximum consolidated leverage ratio, as defined (3.0 times at each quarter-end through September 30, 2009, after which it will revert to 2.75 times on December 31, 2009). In March 2008, we amended our credit agreement to provide that non-cash impairment losses associated with goodwill and intangible assets as well as certain other non-cash charges would be excluded from the computation of the maximum consolidated leverage ratio. We are also required to remain in compliance with a maximum capitalization ratio (65%), as defined.

In addition, the indenture for the floating rate and 7% senior unsecured notes contains a debt incurrence restriction based on a minimum fixed charge coverage ratio (2:1), and the mortgage facility contains covenants regarding maximum cash flow leverage and minimum interest coverage.

Table of Contents

The indenture for our floating rate and 7% senior unsecured notes restricts our ability to make payments in connection with share repurchases, dividends, debt retirement, investments, and similar matters to a cumulative aggregate amount that is limited to \$500.0 million plus 50% of our cumulative consolidated net income (as defined in the indenture) since April 1, 2006, the net proceeds of stock option exercises, and certain other items, subject to certain exceptions and conditions set forth in the indenture.

Our failure to comply with the covenants contained in our debt agreements could permit acceleration of all of our indebtedness. Our debt agreements have cross-default provisions that trigger a default in the event of an uncured default under other material indebtedness of AutoNation.

During 2008, we recorded impairment charges of \$1.76 billion (\$1.46 billion after-tax) associated with goodwill and franchise rights. See Note 4 of the Notes to Unaudited Condensed Consolidated Financial Statements. Despite these impairment charges, as of March 31, 2009, we were in compliance with the requirements of the financial covenants under our debt agreements. As of March 31, 2009, under our amended credit agreement, our consolidated leverage ratio was 2.35 to 1, and our capitalization ratio was 54.9%, each as defined in our credit agreement. Both the consolidated leverage ratio and the capitalization ratio limit our ability to incur additional non-vehicle debt. The capitalization ratio also limits our ability to incur additional floorplan indebtedness.

Our liquidity and capital resource strategies are currently focused on generating cash and paying down debt to remain in compliance with the financial covenants in our debt agreements. To the extent that in the future we believe that we will be unable to comply with the covenants contained in our amended credit agreement, we will seek an amendment or waiver of our amended credit agreement, which could increase the cost of our debt. We may also consider other options, such as raising capital through an equity issuance to pay down debt, which could be dilutive to stockholders.

In the event of a downgrade in our credit ratings, none of the covenants described above would be impacted. In addition, availability under the amended credit agreement described above would not be impacted should a downgrade in the senior unsecured debt credit ratings occur. Certain covenants in the indenture for the floating rate and 7% senior unsecured notes would be eliminated with an upgrade of our senior unsecured notes to investment grade by either Standard & Poor's or Moody's.

Cash Flows

Cash and cash equivalents decreased by \$48.5 million during the three months ended March 31, 2009, and increased by \$1.4 million during the three months ended March 31, 2008. The major components of these changes are discussed below.

Cash Flows - Operating Activities

Net cash provided by operating activities was \$123.6 million during the three months ended March 31, 2009, and \$192.0 million during the same period in 2008.

Net cash provided by operating activities during the three months ended March 31, 2009, compared to the same period in 2008, was impacted by a decrease in cash provided by changes in working capital and a reduction in earnings.

Cash Flows - Investing Activities

Cash flows from investing activities consist primarily of cash used in capital additions, activity from business acquisitions, property dispositions, sales of investments, and other transactions as further described below.

Capital expenditures, including property operating lease buy-outs, were \$20.4 million during the three months ended March 31, 2009, and \$23.4 million during the three months ended March 31, 2008. We project that full year 2009 capital expenditures will be approximately \$90 million.

Table of Contents

Total cash used in business acquisitions, net of cash acquired, was \$0.2 million for the three months ended March 31, 2009, and \$29.4 million during the same period in 2008, when we acquired one automotive retail franchise and related assets in each period.

Cash Flows - Financing Activities

Net cash flows from financing activities primarily include treasury stock purchases, stock option exercises, debt activity, and changes in vehicle floorplan payable-non-trade.

We did not repurchase any shares of our common stock during the three months ended March 31, 2009, other than 6,174 shares that were surrendered to AutoNation to satisfy tax withholding obligations in connection with restricted stock issued to retirement-eligible employees. We repurchased 1.9 million shares of our common stock for an aggregate purchase price of \$27.8 million (average purchase price per share of \$14.84) during the three months ended March 31, 2008, including repurchases for which settlement occurred subsequent to March 31, 2008.

During the three months ended March 31, 2009, we repurchased \$32.0 million aggregate principal amount of our floating rate senior unsecured notes for an aggregate total consideration of \$26.0 million (including \$0.2 million of accrued interest) and \$40.0 million aggregate principal amount of our 7% senior unsecured notes for an aggregate total consideration of \$34.5 million (including \$1.0 million of accrued interest).

Proceeds from the exercise of stock options were \$0.2 million (average exercise price per share of \$8.98) during the three months ended March 31, 2009, and \$1.0 million (average exercise price per share of \$10.68) during the three months ended March 31, 2008.

During the three months ended March 31, 2009, we had no borrowings or repayments under our revolving credit facility. During the three months ended March 31, 2008, we borrowed \$351.0 million and repaid \$426.0 million outstanding under our revolving credit facility, for net repayments of \$75.0 million.

Cash flows from financing activities include changes in vehicle floorplan payable-non-trade (vehicle floorplan payables with lenders other than the automotive manufacturers captive finance subsidiaries for that franchise) totaling net repayments of \$101.0 million for the three months ended March 31, 2009, and \$38.5 million for the same period in 2008.

Seasonality

Our operations generally experience higher volumes of vehicle sales and service in the second and third quarters of each year due in part to consumer buying trends and the introduction of new vehicle models. Also, demand for vehicles and light trucks is generally lower during the winter months than in other seasons, particularly in regions of the United States where stores may be subject to adverse winter conditions. Accordingly, we expect our revenue and operating results to be generally lower in the first and fourth quarters as compared to the second and third quarters. However, revenue may be impacted significantly from quarter to quarter by actual or threatened severe weather events, and by other factors unrelated to weather conditions, such as changing economic conditions and automotive manufacturer incentive programs.

New Accounting Pronouncements

See Note 1, Interim Financial Statements, of the Notes to Unaudited Condensed Consolidated Financial Statements.

Forward-Looking Statements

Our business, financial condition, results of operations, cash flows, and prospects, and the prevailing market price and performance of our common stock, may be adversely affected by a number of factors, including the matters discussed below. Certain statements and information set forth in this Quarterly Report on Form 10-Q, as well as other written or oral statements made from time to time by us or by our authorized executive officers on our behalf, constitute forward-looking statements within the meaning of the Federal Private Securities Litigation Reform Act of 1995. We intend for our forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and we set forth this statement in order to comply with such safe harbor provisions. You should note that our forward-looking statements speak only as of the date of this Quarterly Report on Form 10-Q or when made and we undertake no duty or obligation to update or revise our forward-looking statements, whether as a result of new information, future events,

Table of Contents

or otherwise. Although we believe that the expectations, plans, intentions, and projections reflected in our forward-looking statements are reasonable, such statements are subject to known and unknown risks, uncertainties, and other factors that may cause our actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. The risks, uncertainties, and other factors that our stockholders and prospective investors should consider include, but are not limited to, the following:

The automotive retailing industry is sensitive to changing economic conditions and various other factors. Our business and results of operations are substantially dependent on new vehicle sales levels in the United States and in our particular geographic markets and the level of gross profit margins that we can achieve on our sales of new vehicles, all of which are very difficult to predict.

Our results of operations and financial condition have been and could continue to be adversely affected by the conditions in the credit markets and the declining economic conditions in the United States.

Our revolving credit facility, term loan facility, mortgage facility, and the indenture relating to our senior unsecured notes contain certain financial ratios and other restrictions on our ability to conduct our business.

Our substantial indebtedness could adversely affect our financial condition and operations and prevent us from fulfilling our debt service obligations.

We are dependent upon the success and continued financial viability of the vehicle manufacturers and distributors with which we hold franchises.

Goodwill and other intangible assets comprise a significant portion of our total assets. We must test our intangible assets for impairment at least annually, which could result in a material, non-cash write-down of goodwill or franchise rights and could have a material adverse impact on our results of operations and shareholders' equity.

Our new vehicle sales are impacted by the consumer incentive and marketing programs of vehicle manufacturers.

Natural disasters and adverse weather events can disrupt our business.

We are subject to restrictions imposed by and significant influence from vehicle manufacturers that may adversely impact our business, financial condition, results of operations, cash flows, and prospects, including our ability to acquire additional stores.

We are subject to numerous legal and administrative proceedings, which, if the outcomes are adverse to us, could materially adversely affect our business, results of operations, financial condition, cash flows, and prospects.

Our operations, including, without limitation, our sales of finance and insurance and vehicle protection products, are subject to extensive governmental laws and regulations. If we are found to be in violation of or subject to liabilities under any of these laws or regulations, or if new laws or regulations are enacted that adversely affect our operations, our business, operating results, and prospects could suffer.

We are subject to interest rate risk in connection with our floorplan payable, revolving credit facility, term loan facility, and floating rate senior unsecured notes that could have a material adverse effect on our profitability.

Our largest stockholder, as a result of its voting ownership, may have the ability to exert substantial influence over actions to be taken or approved by our stockholders.

Please refer to our Annual Report on Form 10-K for the fiscal year ended December 31, 2008, and to our subsequent filings with the SEC for additional discussion of the foregoing risks.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary market risk exposure is changing LIBOR-based interest rates. Interest rate derivatives may be used to hedge a portion of our variable rate debt when appropriate based on market conditions. At March 31, 2009, our fixed rate debt, primarily consisting of amounts outstanding under senior unsecured notes and mortgages, totaled \$378.4 million and had a fair value of \$354.5 million. At December 31, 2008, our fixed rate debt, primarily consisting of amounts outstanding under senior unsecured notes and mortgages, totaled \$465.1 million and had a fair value of \$377.8 million.

Interest Rate Risk

We had \$1.5 billion of variable rate vehicle floorplan payable at March 31, 2009, and \$1.9 billion at December 31, 2008. Based on these amounts, a 100 basis point change in interest rates would result in an approximate change of \$15.0 million at March 31, 2009, and \$18.6 million at December 31, 2008, to our annual floorplan interest expense. Our exposure to changes in interest rates with respect to total vehicle floorplan payable is partially mitigated by manufacturers' floorplan assistance, which in some cases is based on variable interest rates.

We had \$0.8 billion of other variable rate debt outstanding at each of March 31, 2009, and December 31, 2008. Based on the amounts outstanding, a 100 basis point change in interest rates would result in an approximate change to interest expense of \$7.6 million at March 31, 2009, and \$7.9 million at December 31, 2008.

Reference is made to our quantitative and qualitative disclosures about market risk in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

We continue to centralize certain key store-level accounting and administrative activities, which we expect will streamline our internal control over financial reporting. The initial or core phase consists of implementing a standard data processing platform in the store and centralizing to a shared services center certain key accounting processes (non-inventory accounts payable, bank account reconciliations, and certain accounts receivable). We have substantially implemented the core phase in 224 of our 228 stores as of March 31, 2009.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1A. RISK FACTORS**

Government assistance has been provided to General Motors and Chrysler, and the future viability of these manufacturers is dependent on additional government assistance. Additionally, there can be no assurance that Ford will not need government assistance in the future to continue its operations. Unless General Motors and Chrysler receive significant additional government assistance in the second quarter of 2009, they will likely be forced to seek bankruptcy protection. Both of these manufacturers would need debtor-in-possession financing to emerge from any bankruptcy, which would be difficult, if not impossible, to obtain without government assistance. For information regarding the risks associated with a manufacturer bankruptcy, please refer to Note 15 of the Notes to Unaudited Condensed Consolidated Financial Statements in this Form 10-Q, Market Challenges in Part I, Item 2 of this Form 10-Q, and the risk factor *We are dependent upon the success and continued financial viability of the vehicle manufacturers and distributors with which we hold franchises* in our Annual Report on Form 10-K for the year ended December 31, 2008.

In addition to the information above and other information set forth in this Form 10-Q, you should carefully consider the risk factors discussed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2008, which could materially affect our business, financial condition, or future results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The table below sets forth information with respect to shares of common stock repurchased by AutoNation, Inc. during the three months ended March 31, 2009.

Period	Total Number of Shares Purchased (1)	Avg. Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under The Programs (in millions)(2)
January 1, 2009 to January 31, 2009	-	\$ -	-	\$ 142.7
February 1, 2009 to February 28, 2009	-	\$ -	-	\$ 142.7
March 1, 2009 to March 31, 2009	6,174	\$ 9.92	-	\$ 142.7
Total	6,174		-	

(1) These shares were surrendered to AutoNation to satisfy tax withholding obligations in connection with restricted stock issued to retirement-eligible employees.

(2) On October 23, 2007, our Board of Directors approved a stock repurchase program (referred to as the October 2007 Program), which authorized AutoNation to repurchase up to \$250 million in shares of our

common stock. The October 2007 Program does not have an expiration date.
