#### A. Accounting Policies

#### **Basis of Presentation**

The interim financial statements have been prepared in accordance with the instructions to Form 10-Q and should be read in conjunction with the financial statements and related notes included in the Company s annual report on Form 10-K for the year ended January 31, 2003. The results of interim periods are not necessarily indicative of results for the full year or any subsequent period. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of financial position, results of operations and cash flows at the dates and for the periods presented have been included.

The Company uses the pro-rata method of consolidation to analyze its properties as the pro-rata method of consolidation provides operating data at the Company s ownership share. The pro-rata method of consolidation is not a method of consolidation acceptable under GAAP. Thus, all information the Company has historically provided under pro-rata consolidation has been removed from the Company s financial statements and related footnotes. This information is now provided in the Company s Management Discussion and Analysis on pages 38-46 of this filing.

#### Accounting for Derivative Instruments and Hedging Activities

During the three and nine months ended October 31, 2003, the Company recorded approximately \$25,000 and \$565,000, respectively, as interest expense in the Consolidated Statements of Earnings, which represented the total ineffectiveness of all cash flow hedges. During the three and nine months ended October 31, 2002, the Company recorded approximately \$19,000 and \$204,000, respectively, as an increase of interest expense due to the ineffective portion of its cash flow hedges. The amount of net derivative losses reclassified into earnings from other comprehensive income as a result of forecasted transactions that did not occur by the end of the originally specified time period or within an additional two-month period of time thereafter was \$-0- for the three and nine months ended October 31, 2003, and was \$58,000 and \$738,000, for the three and nine months ended October 31, 2002, respectively. As of October 31, 2003, the Company expects that within the next twelve months it will reclassify amounts recorded in accumulated other comprehensive loss into earnings as interest expense associated with the effectiveness of cash flow hedges of approximately \$2,298,000, net of tax. The amount of hedge ineffectiveness relating to hedges designated and qualifying as fair value hedges was not material.

At October 31 and January 31, 2003, interest rate caps were reported at their fair value of approximately \$3,917,000 and \$753,000 respectively, in the Consolidated Balance Sheets as Other Assets. The fair value of interest rate swap and floor agreements at October 31 and January 31, 2003 is an unrealized loss of approximately \$7,376,000 and \$4,340,000, respectively, and is included in Accounts Payable and Accrued Expenses in the Consolidated Balance Sheets.

#### **Stock-Based Compensation**

During the nine months ended October 31, 2003, the Company granted 661,900 Class A fixed stock options to key employees and nonemployee members of the Board of Directors. The options have a term of 10 years, vest 25% after two years, 50% after three years and 100% after four years and have a weighted average exercise price of \$31.03. The exercise price of the options granted was equal to the market price of the underlying stock on the date of grant resulting in no intrinsic value and no compensation expense under APBO No. 25.

#### A. Accounting Policies continued

#### **Stock-Based Compensation (continued)**

The Company also granted 112,500 shares of restricted Class A common stock to key employees. The restricted shares were awarded out of treasury stock, having a cost basis of \$1,012,500, with rights to vote the shares and receive dividends while being subject to restrictions on disposition and transferability and risk of forfeiture. The shares become nonforfeitable over a period of four years. The market value on the date of grant of \$3,487,500 was recorded as unearned compensation to be charged to expense over the respective vesting periods. The unearned compensation of this award along with previously issued restricted stock is reported as an offset of Additional Paid-In Capital in the accompanying consolidated financial statements. At October 31, 2003, the unamortized unearned compensation relating to all restricted stock amounted to \$5,227,000.

Stock based compensation costs, net of tax, relating to restricted stock awards were charged to net earnings in the amount of \$186,000 and \$121,000, respectively, during the three months ended October 31, 2003 and 2002, and \$536,000 and \$432,000, respectively, during the nine months ended October 31, 2003 and 2002. While these amounts were computed under APBO No. 25, they are equal to the fair value based amounts as computed under SFAS No. 123 Accounting for Stock-Based Compensation.

The following table illustrates the effect on net earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock options.

#### **New Accounting Standards**

In December 2002, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 148

Accounting for Stock-Based Compensation Transition and Disclosure (SFAS No. 148). This statement provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation.

#### A. Accounting Policies continued

#### **New Accounting Standards (continued)**

In addition, this statement amends the disclosure requirements of SFAS No. 123 Accounting for Stock-Based Compensation to require prominent disclosures in both annual and quarterly financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation is effective for the Company for the fiscal year ended January 31, 2004. The new requirements for quarterly disclosure were effective for the quarter ended April 30, 2003. The Company will continue to apply APBO No. 25 Accounting for Stock Issued to Employees and related interpretations in accounting for its stock-based employee compensation and does not expect SFAS No. 148 to have a material impact on the Company s financial position, results of operations or cash flows.

In January 2003, the FASB issued FASB Interpretation No. 46 (FIN No. 46), Consolidation of Variable Interest Entities. The objective of this interpretation is to provide guidance on how to identify a variable interest entity (VIE) and determine when the assets, liabilities, non-controlling interests, and results of operations of a VIE are to be included in the consolidated financial statements. A company that holds a variable interest in an entity will consolidate the entity if the company s interest in the VIE is such that the company will absorb a majority of the VIE s expected losses and/or receive a majority of the entity s expected residual returns, if they occur. FIN No. 46 also requires additional disclosures by primary beneficiaries and other significant variable interest holders. The disclosure provisions of this Interpretation became effective upon issuance. The consolidation requirements of this Interpretation and the related FASB Staff Position (FSP) apply immediately to variable interest entities created after January 31, 2003 and to existing variable interest entities in the first year or interim period ending after December 15, 2003. The FASB issued an Exposure Draft and a number of FSP s that address certain implementation issues that have arisen since the FASB issued FIN No. 46. The Company is in the process of quantifying the full impact of FIN No. 46 on its financial statements based on its understanding of FIN No. however, 46, the related Exposure Draft and FSPs issued to date as they are currently written. However, as of the date of this filing the guidance on FIN No. 46 has not yet been finalized. The Company believes it is reasonably possible it is the primary beneficiary of many of its equity method investments. As a result, full consolidation of these investments may be required under FIN No. 46, however, a final assessment cannot be made at this time. The financial position and results of operations for the Company's equity method investments, which the Company is currently assessing u

In April 2003, the FASB issued SFAS No. 149 Amendment of Statement 133 on Derivative Instruments and Hedging Activities (SFAS No. 149). This statement amends and clarifies financial accounting and reporting for derivative instruments and for hedging activities under FAS 133, Accounting for Derivative Instruments and Hedging Activities. This statement is effective for certain contracts entered into or modified after June 30, 2003 and for certain hedging relationships designated after June 30, 2003. This statement did not have a material impact on the Company's financial position, results of operations or cash flows.

#### **New Accounting Standards (continued)**

In March 2003, the Emerging Issues Task Force (EITF) issued EITF No. 00-21 Accounting for Revenue Arrangements with Multiple Deliverables (EITF No. 00-21). This issue addresses certain aspects of accounting by a vendor for arrangements under which it will perform multiple revenue-generating activities. This issue is effective for revenue arrangements entered into by the Company subsequent to January 31, 2004. The Company does not expect this statement to have a current material impact on the Company s financial position, results of operations or cash flows.

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity (SFAS 150). This Statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). The minority interests associated with certain of the Company's consolidated joint ventures that have finite lives under the terms of the agreements represent mandatorily redeemable interests as defined in SFAS 150. On November 7, 2003, the FASB indefinitely deferred the effective date of paragraphs nine and ten of SFAS No. 150 as they apply to mandatorily redeemable noncontrolling interests in order to address a number of interpretation and implementation issues. However, the disclosure provisions of SFAS 150 are still required. Although no such obligation exists, if the Company were to dissolve the entities or sell the underlying real estate assets and satisfy any outstanding obligations, in all of its consolidated finite life entities as of October 31, 2003, the estimated aggregate settlement value of these noncontrolling interests would approximate book value due to the Company is preferred returns upon settlement. The Company is assessment of the settlement value is based on the estimated liquidation values of the assets and liabilities and the resulting proceeds that the Company would distribute to its noncontrolling interests, as required under the terms of the respective agreements. While additional guidance from the FASB relating to noncontrolling interests in consolidated finite life partnerships is pending, the Company does not expect the remainder of this statement to have an immediate material impact on the Company is financial position, results of operations or cash flows.

#### B. Discontinued Operations

The Company adopted the provisions of Statement of Financial Accounting Standard (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, effective February 1, 2002. This standard addresses financial accounting and reporting for the impairment or disposal of long-lived assets. The Company also retains the basic provisions for presenting discontinued operations in the income statement but broadened the scope to include a component of an entity rather than a segment of business. Pursuant to the definition of a component of an entity in SFAS No. 144, assuming no significant continuing involvement, all earnings of properties which have been sold or held for sale are reported as discontinued operations. The Company considers assets held for sale when the transaction has been approved by the appropriate level of management and there are no contingencies related to the sale that may prevent the transaction from closing. In most transactions, these contingencies are not satisfied until the actual closing of the transaction, and, accordingly, the property is not identified as held for sale until the closing actually occurs. However, each potential transaction is evaluated based on its separate facts and circumstances.

For the three months ended October 31, 2003, two properties, *Vineyards* and *Laurels*, were included in discontinued operations. *Vineyards*, a 366-unit apartment complex in Broadview Heights, Ohio and *Laurels*, a 520-unit apartment complex in Justice, Illinois, were both sold during the third quarter. For the nine months ended October 31, 2003, three properties, *Vineyards*, *Laurels*, and *Trowbridge*, were included in discontinued operations. The Company turned over the deed to *Trowbridge*, a supported-living community located in Southfield, Michigan, in lieu of foreclosure in April 2003. *Vineyards*, *Laurels* and *Trowbridge* were previously included in the Residential Group.

For the three and nine months ended October 31, 2002, five properties were included in discontinued operations: *Bay Street, Courtland Center, Trowbridge, Vineyards* and *Laurels. Bay Street*, a 16,000-square-foot retail center located in Staten Island, New York, was sold in the fourth quarter of fiscal 2002. *Courtland Center*, a 458,000-square-foot retail center located in Flint, Michigan, was also sold during the fourth quarter of fiscal 2002. *Bay Street* and *Courtland Center* were both previously included in the Commercial Group.

#### C. Senior Notes

On May 19, 2003, the Company issued \$300,000,000 of its 7.625% senior notes due June 1, 2015 in a public offering under its shelf registration statement. Accrued interest is payable semi-annually beginning on December 1, 2003. \$208,500,000 of the proceeds from this offering were used to redeem all of the outstanding 8.5% senior notes originally due in 2008 at a redemption price equal to 104.25%. The remainder of the proceeds was used for offering costs of \$8,092,000, to repay \$73,000,000 outstanding under the revolving portion of the long-term credit facility and for general working capital purposes. The new 7.625% senior notes contain covenants comparable to the previously outstanding 8.5% senior notes. The Company currently has \$542,180,000 available under its shelf registration.

#### F. Loss on Early Extinguishment of Debt

On February 1, 2002, the Company adopted the provisions of SFAS No. 145, Rescission of FASB Statement No. 4, 44, and 64, Amendment of FASB Statement No. 13 on Technical Corrections (SFAS No. 145), which requires gains or losses from early extinguishment of debt to be classified in operating income or loss. The Company previously recorded gains or losses from early extinguishment of debt as extraordinary items, net of tax, in its Statement of Earnings. For the three and nine months ended October 31, 2003, the Company has recorded \$190,000 relating to the dispositions of *Laurels* and *Vineyards* as Loss on Early Extinguishment of Debt in Discontinued Operations. *Laurels* is a residential property located in Justice, Illinois, and *Vineyards* is a residential property located in Broadview Heights, Ohio. For the nine months ended October 31, 2003, the Company recorded \$10,718,000 as Loss on Early Extinguishment of Debt. This amount is primarily the result of the payment in full of the Company s \$200,000,000 8.5% senior notes due in 2008 at a premium of 104.25% for a loss on extinguishment of \$8,500,000 for redemption premium and approximately \$3,000,000 related to the write-off of unamortized debt issue costs. These changes were offset, in part, by net gains on early extinguishment of debt of approximately \$800,000 on several residential properties.

For the three and nine months ended October 31, 2002, the Company reclassified \$355,000 (\$214,000, net of tax) and \$735,000 (\$444,000, net of tax) of early extinguishment of debt from Extraordinary Loss to Loss on Early Extinguishment of Debt to conform to the new guidance. These losses represented the impact of early extinguishment of nonrecourse debt in order to secure more favorable financing terms. The Company recorded extraordinary losses related to *Lofts at 1835 Arch*, a residential property located in Philadelphia, Pennsylvania, *Autumn Ridge* and *Cambridge Towers*, residential properties located in Michigan and *Regency Towers*, a residential property located in Jackson, New Jersey.

#### G. <u>Dividends</u>

The Board of Directors declared regular quarterly cash dividends on both Class A and Class B common shares as follows:

March 12, 2003 June 2, 2003 June 16, 2003 \$ .06  June 11, 2003  September 2, 2003 September 15, 2003 \$ .09  September 10, 2003  December 1, 2003 December 15, 2003 \$ .09  December 4, 2003*  March 1, 2004 March 15, 2004 \$ .00	Date Declared	Date of Record	Payment Date	Amount Per Share

#### I. Commitments and Contingencies

In October 2003, the Company admitted Westfield America, Inc. as a partner into its Emporium project, a retail development in San Francisco. Pursuant to that agreement, the Company agreed to purchase a 50% interest in a partnership owned by Westfield America at a cost of \$75,000,000. This acquisition will entitle the Company to a 50% economic interest in One San Francisco Centre, a retail property in operation located adjacent to Emporium. The purchase of this interest is planned for 2006 to coincide with the opening of Emporium.

#### J. Reduction of Reserves On Notes Receivable and Recognition of Contingent Interest Income

The Company, through its Residential Group, is the 1% general partner in 23 Federally Subsidized housing projects owned by syndicated partnerships. Upon formation of these partnerships approximately 20 years ago, the Company received interest-bearing notes receivable as consideration for development and other fee services. At their inception, these notes were fully reserved as their collection was doubtful based on the limited cash flows generated by the properties pursuant to their government subsidy contracts. Likewise, a reserve for the related accrued interest was established each year.

During the years ended January 31, 2003 and 2002, 20 of these properties completed a series of events that led to the reduction of a portion of these reserves. The first event was the modification or expiration of the Government contracts that now allow for market rate apartment rentals, which provide a significant increase in expected future cash flows. This, in turn, increased the appraised values of these properties and in some instances, resulted in a settlement with the limited partners to obtain their ownership share of these properties in exchange for the balance of the notes and related accrued interest. As a result, the Company determined that the collection of a portion of these notes receivable and related accrued interest is now probable. For the three and nine months ended October 31, 2003, reductions of \$1,813,000 and \$2,043,000, and reductions for the three and nine months ended October 31, 2002 of \$319,000 and \$4,169,000, respectively, are included in revenue in the Consolidated Statements of Earnings. The Company will continue to review the level of reserves against these notes receivable in relation to events that could change expected future cash flows from these properties.

In addition, during the nine months ended October 31, 2003, the Company recognized \$5,300,000 in interest income on an unreserved note receivable from one of these 20 properties, representing participation proceeds from the sale of the property.

Millender Center The Company owns a 1% general partnership interest in Millender Center (the Project), a mixed-use apartment, retail and hotel project located in downtown Detroit, Michigan, and loaned \$14,775,000 to the 99% limited partners in 1985, as evidenced by a note. A full reserve against the note and accrued interest was recorded in 1995 when the Company determined that collection was doubtful due to the operating performance of the Project at that time.

In October 1998, the Project entered into a lease agreement with General Motors (GM) whereby the Project, except for the apartments, is leased to GM through 2010, when it is expected that GM will exercise a purchase option. This lease arrangement, coupled with the resurgence of downtown Detroit's economy as a result of GM is relocation of its corporate headquarters to a location adjacent to the Project and the entry of gaming, has significantly improved the operating performance of the Project. At the same time, the note was restructured with the limited partners to extend the term from December 31, 2000 to December 31, 2022. The Company believes that the current and anticipated improved performance of the Project supports its assessment that the original principal of the note is now fully collectible.

During the three and nine months ended October 31, 2003 the Company reduced \$-0- and \$5,633,000, respectively, of the reserve recorded against interest receivable from Millender Center. During the three and nine months ended October 31, 2002 the Company reduced \$-0- and \$690,000, respectively, of the reserve recorded against Millender Center. The reductions of this reserve was primarily the result of increased cash flow projections due to the extension of the Project s tax advantaged bonds. The recorded balance of the note was \$20,917,000 and \$16,332,000 at October 31, 2003 and 2002, respectively. As of October 31, 2003, a \$5,382,000 reserve against this note remains.

Subsequent Event

In November, 2003, the Company agreed to provide certain concessions to its partner relating to a property accounted for under the equity method of accounting. These concessions involved the Company agreeing to forgive their partner's deficit restoration obligations, as well as modifying the liquidating distribution provisions of the partnership agreement. As a result of these concessions, upon the sale of the property and the resulting dissolution of the partnership in November 2003, the Company recognized a loss of approximately \$3.5 million.
